CONTENTS

Comparative Distribution of Smooth Muscle Postsynaptic Contractile Responses in Canine Trachea and Bronchus in Vivo. Alan R. Leff, Nilda M. Munoz and Stephen G. Hendrix .................................................. 259

Spontaneous Output of Acetylcholine from Rat Diaphragm Preparations Declines after Treatment with Botulinum Toxin. Cameron B. Gunderson and Donald J. Jenden ........................................................................... 265

Endocrine Influences on the Actions of Morphine. I. Alteration of Target Gland Hormones. Barry G. Kasson and Robert George .......................................................... 273

Endocrine Influences on the Actions of Morphine. II. Responses to Pituitary Hormones. Barry G. Kasson, Harold E. Carlson and Robert George ......................................................... 282

Alcohol Modulation of Drug Binding to the Channel Sites of the Nicotinic Acetylcholine Receptor. Esam F. El-Fakahany, E. Roxanne Miller, Moustafa A. Abbasay, Amira T. Eldefrawi and Mohyee E. Eldefrawi .................................................. 289

Characterization of the Effect of Quinidine on Na Transport by the Toad and Turtle Bladders. Jose A. L. Arruda .......... 297

Propanamide Uptake by Rabbit Proximal Tubules. Thurman D. McKinney ........................................................................................................ 302

Discriminative Stimulus Effects of Naltrexone in Narcotic-Naive and Morphine-Treated Pigeons. Rita J. Valentino, Seymour Herling and James H. Woods ............................................. 307

Optical Isomers of 2,3-Dimercapto-1-Propanesulfonate: Antidotal Activity, in Vitro and in Vivo, against Sodium Arsenite. Chin-An Hsu, H. Vasken Aposhian, Sabine Heydolph and Wolfgang Parr .......................................................... 314

Effects of Cycloalkyl Ring Analogs of Phencyclidine on Behavior in Rodents. Harlan E. Shannon, Roy L. McQuinn, D. Bruce Vaupel and Edward J. Cone .............................................. 327

Suppression of Behavior by Intravenous Injections of Nicotine or by Electric Shocks in Squirrel Monkeys: Effects of Chlordiazepoxide and Mecamylamine. Steven R. Goldberg and Roger D. Spearman .......................................................... 334

Effects of Four H2 Histamine Antagonists on Bethanechol-Stimulated Acid and Pepsin Secretion in the Dog. B. I. Hirschowitz and E. Molina .................................................................................. 341

I. Pharmacological Studies with Derivatives of 2-Aminotetralin, Benzhydro[fjquinoline and Clonidine Suggest a Pharmacological Identity between Peripheral and Central Alpha-2 Adrenoceptors. William Maixner, Turzik Verimer, Mohamed S. Abou Zeit-Har, Joseph G. Cannon and John P. Long ......................................................... 346

II. Pharmacological Studies with Derivatives of 2-Aminotetralin, Benzhydro[fjquinoline, Benzhydro[g]quinoline, Apomorphine and Clonidine Suggest a Pharmacological Dissimilarity between Peripheral Presynaptic Dopamine Receptors and Alpha-2 Adrenoceptors. William Maixner, Jan R. Flynn, Stephen P. Arneri, Joseph G. Cannon and John P. Long ......................................................... 346

Relative Involvement of Receptor Subtypes in Opioid-Induced Inhibition of Gastrointestinal Transit in Mice. Susan J. Ward and A. E. Takemori ................................................................................. 352

Effects of Pyrazinoate and p-Aminohippurate on Renal Urate Excretion by the Dog and Guinea Pig. Margarita Perez-Gonzalez and I. M. Weiner ......................................................................... 364

Thromboxane Agonism and Antagonism in a Mouse Sudden Death Model. Adam Myers, Juan Penhos, Estelle Ramey and Peter Ramwell ............................................................................ 369

Concentration and Time-Dependent Relationships between Isosorbide Dinitrate-Induced Relaxation and Formation of Cyclic GMP in Coronary Arterial Smooth Muscle. Patrick E. Galvas and Joseph DiSalvo .................................................................................................................. 373

Contents Continued on
Identification and Localization of Opioid Receptors in the Opossum Lower Esophageal Sphincter. Satish Rattan and Raj K. Goyal .................................................. 391
Marijuana: Interaction with the Estrogen Receptor. Mark A. Sauer, Safa M. Rifka, Richard L. Hawks, Gordon B. Cutler, Jr. and D. Lynn Loriaux .................................................. 404
Activation of Central Nervous System Cholecystokinin Receptors Stimulates Respiration in the Cat. Richard A. Gillis, John A. Quest, Francis D. Pagani, Janette Dias Souza, Angelo M. Taveira Da Silva, Robert T. Jensen, Thomas Q. Garvey III and Paul Hamosh .................................................. 408
Alterations of the [4Fe] Ferric Citrate Biodistribution in Hyperferremic Mice after the Administration of Pyrophosphate and Desferrioxamine. Christine Sawa-Dimopoulou and Claire Soulpi .................................................. 415
Prolonged Excretion of Morphine in Rats during Protracted Abstinence: Lack of Effect of Naltrexone. A. Wayne Jones, Aldo Neri and Erik Anggård .................................................. 419
Evaluation of Ocular Toxicity of Two Beta Blocking Drugs, Carteolol and Practolol, in Beagle Dogs. Nobuyuki Tanaka, Tadashi Ohkawa, Takashi Hiyama and Akira Nakajima .................................................. 424
Mechanism of Morphine in Increasing Plasma Cyclic GMP Level in Male Mice. Takamura Muraki, Kunio Ishii and Ryuichi Kato .................................................. 431
Effects of the Sympathoadrenal System on Vagally Induced Gastric Acid Secretion and Mucosal Blood Flow in Rats. Kunihiko Yokotani, Ikunobu Muramatsu, Motohatsu Fujiwara and Yoshitsugu Osumi .................................................. 436
Actions of Nifedipine on Calcium Fluxes and Contraction in Isolated Rat Arteries. T. Godfraind .................................................. 443
Calcium Antagonism of an Opiate Drug Effect on an Excitable Cell Membrane. Farrokh Rohani and George B. Frank .................................................. 459
Acute Postnatal Exposure to Triethyltin in the Rat: Effects on Specific Protein Composition of Subcellular Fractions from Developing and Adult Brain. James P. O’Callaghan, Diane B. Miller and Lawrence W. Reiter .................................................. 466
Effects of Carbamazepine on Muscle Tone in the Decerebrate Cat. Norman Hershkowitz, Thomas M. Mahany and Arthur Raines .................................................. 473
