

What are the implications of recent advances in cellular and molecular biology for pharmacologists and toxicologists?

WORKSHOP ON CELLULAR AND MOLECULAR TOXICOLOGY

Edited by **Don Fawcett & James Newberne**

That's the subject addressed in this new book, the product of a symposium organized by the Pharmaceutical Manufacturer's Association Foundation. The **Workshop** brings together leading authorities from cell biology, pharmacology, pathology, and toxicology to consider the implications of recent advances in cellular and molecular biology for you and your colleagues.

The **Workshop** covers the following topics:

- Current concepts of *molecular organization of the cell membrane*... plus surface specialization related to cell-to-cell communication
- *Nature of surface receptors* and their interaction with hormones... plus experimental studies on the induction of acetylcholine receptors on muscle
- *Membrane systems of the cytoplasm*, including their role in detoxification & metabolism of drugs... along with changes in these functions with advancing age
- *Important section on the nucleus*... includes recent progress in defining the structure of chromatin, mechanisms of DNA damage and repair, nature of interaction between steroid hormones and the nucleus
- Discussion of relative advantages of *microbial methods and sister chromatid exchange in mammalian cells for the assessment and mutagenicity of drugs and environmental toxins*... plus methods of protection against the mutagenic effect of certain drugs
- Section on *lysosomes and their destabilization by drugs*... plus approaches to the treatment of lysosomal disease

Now the results of this unique study are available to you in a hardbound overprint from *Pharmacological Reviews*. If you want the latest information on advances in toxicology, this is one meeting you can't afford to miss.

1980/300 pages/92 illustrations/\$20.00 [U.S.] (#3047-7)

Handy manual highlights most frequently used drugs

MANUAL OF CLINICAL PHARMACOLOGY

Edited by **David H. Robertson, MD**, Assistant Professor of Medicine and Pharmacology, Vanderbilt University School of Medicine, and **Craig R. Smith, MD**, Acting Director, Division of Internal Medicine, The Johns Hopkins University School of Medicine

A handy new manual supplements the large, more unwieldy references that are probably already part of your library. It gives you the most thorough understanding possible of the several dozen *key drugs* that are most commonly used in clinical practice. An annotated bibliography on these drugs is supplied as a point of access to the more detailed pharmacological literature. The discussion sections aren't intended to be complete reviews... but they *identify for you quickly which drugs are practical... or difficult... or new*.

This manual will supplement your knowledge of the many thousands of drugs on the market by giving you a very thorough understanding of the few dozen drugs that are most frequently used, highlighting those areas that are most important to you.

1981/about 368 pages/about \$17.00 [U.S.] (#7300-1)

RETURN THIS COUPON TO GET YOUR NEW BOOKS ON 20-DAY FREE TRIAL

SEND ME _____ copies of Fawcett & Newberne's **WORKSHOP ON CELLULAR AND MOLECULAR TOXICOLOGY** (#3047-7) at \$20.00 per copy [U.S. price].

AND send me _____ copies of Robertson & Smith's **MANUAL OF CLINICAL PHARMACOLOGY** (#7300-1) at \$17.00 per copy [U.S. price].

Send me these books to examine for 20 days without obligation.

INFORMATION TO SUBSCRIBERS

THE JOURNAL OF PHARMACOLOGY AND EXPERIMENTAL THERAPEUTICS is issued monthly. Four volumes are published each year. Each volume contains three numbers.

Correspondence concerning business matters should be addressed to The Williams & Wilkins Company, Publishers of Books and Periodicals in Medicine and the Allied Sciences, 428 East Preston St., Baltimore, Maryland 21202 U.S.A.

Annual Subscription Rates—U. S. A. AND POSSESSIONS: personal, \$140.00; institutional, \$185.00; single copy, \$14.00. FOREIGN: personal, \$165.00; institutional, \$210.00; single copy, \$17.00. Institutional (multiple reader) rate applies to libraries, schools, hospitals, clinics, group practices, and federal, commercial, and private institutions and organizations.

Change of address: Publisher must be notified 60 days in advance. Journals undeliverable because of incorrect address will be destroyed. Duplicates can be obtained (if available) from the publisher at the regular price of single issues.

New subscriptions and renewals are entered to begin with the January or July issue.

To avoid a break in your series, subscriptions should be renewed promptly. The publisher cannot guarantee to supply back issues on belated renewals.

Reprints of individual articles are available *only* from authors.

Microfilm. For availability, inquire of The Williams & Wilkins Company.

Japanese Yen price is available from our sole agent: U.S.-Asiatic Co. Ltd., 13-12 Shimbashi 1-Chome, Minato-Ku, Tokyo 105, Japan, telephone 03-502-6471.
