

INDEX TO VOLUME XXIII

Abel, John J., and Geiling, E. M. K. Some hitherto undescribed properties of the constituents of Witte's peptone.....	1
Acid fuchsin, Factors affecting the susceptibility of frogs to the convulsant action of.....	307
—, plant nucleic, Artificial pyrexia induced in rabbits by injections of....	87
Adrenalin and hydrogen ion concentration, The response of the.....	373
Albino rats, Studies of chronic intoxications on.....	449
Albumose, primary, Pharmacological action of, in unanesthetized dogs.....	29
Alcohol, The effect of, on the patellar tendon reflex.....	163
Alkaloids, opium, A quantitative comparison of some.....	261
American mistletoe (<i>Phoradendron flavescens</i>), The pharmacology of.....	269
— Society for Pharmacology and Experimental Therapeutics, Scientific Proceedings of the.....	135
Anaphylactoid phenomena, Effects from the intraperitoneal injection of various agents causing.....	243
— phenomena from various agents injected intravenously, Further observations on.....	173
— phenomena, Treatment of, from some agents by hypertonic sugar and salt solution.....	237
Anemia, experimental, The effect of compounds related to hydrazine in producing anhydremia and.....	127
Anesthetic gases propylene, methane, dimethyl-ether, Experiments with....	485
Anesthetics, Local; morphine group; chloral.....	449
Anhydremia and experimental anemia, The effect of compounds related to hydrazine in producing.....	127
Arsenic, On drug-resistance of trypanosomes with particular reference to....	55
Arsenical compounds, certain organic, The relation of the chemical constitution of, to their action on the optic tract.....	107
Bacon, Franklin J., and Leake, Chauncey D. A preliminary note on the properties of an alleged erythropoietic hormone.....	353
Bills, Charles E., and Macht, David I. A quantitative protozoöcidal comparison of some opium alkaloids.....	261
Bodansky, Meyer. The effect of compounds related to hydrazine in producing anhydremia and experimental anemia.....	127
Brown, W. Easson. Experiments with anesthetic gases propylene, methane, dimethyl-ether.....	485
Caffein, Decreased renal response to theobromin and theophyllin in rabbits tolerant toward.....	477
—, Renal toleration of.....	465

Clark, A. J. Some active principles of peptone.....	45
Cocain, The seat of the mydriatic action of.....	365
Cori, Carl F. The influence of insulin on phlorhizin poisoning.....	99
Cross tolerance: Decreased renal response to theobromin and theophyllin in rabbits tolerant toward caffein.....	477
Dimethyl-ether, methane, propylene, Experiments with anesthetic gases....	485
Dogs, unanesthetized, Pharmacological action of primary albumose in.....	29
Drug-resistance of trypanosomes with particular reference to arsenic.....	55
Dyer, Helen A., Voegtlin, Carl, and Miller, D. Wright. On drug-resistance of trypanosomes with particular reference to arsenic.....	55
Erythropoietic hormone, an alleged, A preliminary note on the properties of..	353
Excretion of tryparsamide, The.....	461
Fatigue, Studies in.....	335
French, W. O., and Hanzlik, P. J. The pharmacology of <i>Phoradendron</i> <i>flavescens</i> (American mistletoe).....	269
Frog heart, isolated, The response of the, to changes in hydrogen ion concen- tration and adrenalin.....	373
Frogs, Factors affecting the susceptibility of, to the convulsant action of acid fuchsin.....	307
Geiling, E. M. K., and Abel, John J. Some hitherto undescribed properties of the constituents of Witte's peptone.....	1
—, and Kolls, A. C. Pharmacological action of primary albumose in un- anesthetized dogs.....	29
Gold, Harry. The seat of the mydriatic action of cocain.....	365
Gruber, Charles M. Studies in fatigue. XIV. The effect of adrenalin on the duration of the latent, the contraction and relaxation periods of skeletal muscle at rest and undergoing fatigue.....	335
Hanzlik, P. J., and French, W. O. The pharmacology of <i>Phoradendron</i> <i>fla-</i> <i>vescens</i> (American mistletoe).....	269
—, and Karsner, Howard T. Effects from the intraperitoneal injection of various agents causing anaphylactoid phenomena.....	243
—, and Karsner, Howard T. Further observations on anaphylactoid phe- nomena from various agents injected intravenously.....	173
—, and Karsner, Howard T. Treatment of anaphylactoid phenomena from some agents by hypertonic sugar and salt solutions.....	237
Hardikar, S. W. The action of quinine on protein metabolism, respiratory exchange and heat function. I. Protein metabolism.....	395
Heart, isolated frog. The response of the, to changes in hydrogen ion concen- tration and adrenalin.....	373
Heat function, protein metabolism and respiratory exchange, The action of quinine on.....	395
Hill, Florence McCoy. Artificial pyrexia induced in rabbits, by injections of plant nucleic acid.....	87

Hydrazine, The effect of compounds related to, in producing anhydremia and experimental anemia.....	127
Hydrogen ion concentration and adrenalin, The response of the isolated frog heart to changes in.....	373
Hypertonic sugar and salt solutions, Treatment of anaphylactoid phenomena from some agents by.....	237
Insulin, The influence of, on phlorhizin poisoning.....	99
Intoxications, Studies of chronic, on albino rats.....	449
Intraperitoneal injection of various agents causing anaphylactoid phenomena, Effects from the.....	243
Johnston, R. L., and Salant, William. The response of the isolated frog heart to changes in hydrogen ion concentration and adrenalin.....	373
Karsner, Howard T., and Hanzlik, Paul J. Effects from the intraperitoneal injection of various agents causing anaphylactoid phenomena.....	243
—, and Hanzlik, Paul J. Further observations on anaphylactoid phenomena from various agents injected intravenously.....	173
—, and Hanzlik, Paul J. Treatment of anaphylactoid phenomena from some agents by hypertonic sugar and salt solutions.....	237
Kolls, A. C., and Geiling, E. M. K. Pharmacological action of primary albumose in unanesthetized dogs.....	29
Leake, Chauncey D., and Bacon, Franklin J. A preliminary note on the properties of an alleged erythropoietic hormone.....	353
Liver function, A new method of testing, with phenoltetrachlorphthalein....	385
— tissue, normal, The relation of impaired function to the amount of....	385
Loevenhart, A. S., and Young, A. G. The relation of the chemical constitution of certain organic arsenical compounds to their action on the optic tract.....	107
Macht, David I., and Bills, Charles E. A quantitative protozoöcidal comparison of some opium alkaloids.....	261
Methane, propylene, dimethyl-ether, Experiments with anesthetic gases....	485
Metabolism (protein), respiratory exchange and heat function, The action of quinine on.....	395
Miller, D. Wright, Voegtlin, Carl, and Dyer, Helen A. On drug-resistance of trypanosomes with particular reference to arsenic.....	55
Mistletoe, American (<i>Phoradendron flavescens</i>), The pharmacology of.....	269
Muehlberger, C. W., and Young, A. G. The excretion of tryparsamide.....	461
Mydriatic action of cocain, The seat of the.....	365
Myers, Harold B. Cross tolerance: Decreased renal response to theobromin and theophyllin in rabbits tolerant toward caffein.....	477
— Renal toleration of caffein.....	465
Nucleic acid, plant, Artificial pyrexia induced in rabbits by injections of....	87

Opium alkaloids, A quantitative comparison of some.....	261
Optic tract, The relation of the chemical constitution of certain organic arsenical compounds to their action on the.....	107
Patellar tendon reflex, The effect of alcohol on the.....	163
Peptone, Some active principles of.....	45
—, Witte's, Some hitherto undescribed properties of the constituents of.....	1
Pharmacological action of primary albumose in unanesthetized dogs.....	29
Phenoltetrachlorphthalein, A new method of testing liver function with.....	385
Phlorhizin poisoning, The influence of insulin on.....	99
Phoradendron flavescens (American mistletoe), The pharmacology of.....	269
Plant nucleic acid, Artificial pyrexia induced in rabbits by injections of.....	87
Poisoning, phlorhizin, The influence of insulin on.....	99
Primary albumose in unanesthetized dogs, Pharmacological action of.....	29
Proceedings, Scientific, of the American Society for Pharmacology and Experimental Therapeutics.....	135
Organotherapy in Addison's disease. J. G. Rowntree.....	135
The pharmacological assay of insulin. J. J. R. MacLeod.....	137
Some factors concerned in the deterioration of pituitary extracts. Maurice I. Smith and Wm. T. McClosky.....	138
A problem in adrenal therapy, Carl H. Greene.....	139
Laboratory and clinical experiments with certain germicides. Hugh H. Young, E. C. White and J. H. Hill.....	139
A new and delicate method of determining carbon monoxide in blood. David I. Macht and Margaret Swigart.....	140
Experimental contribution to the treatment of carbon monoxide poisoning. David I. Macht and S. S. Blackman, Jr.....	142
The antiseptic efficiency of silver compounds in saline and cellular fluids. J. D. Pilcher and Torald Sollmann.....	142
Reactions of partially asphyxiated intestine to oxygen and to epinephrin. R. G. Hoskins and Edgar S. Hunter.....	143
Experimental studies of factors modifying the action of drugs. William Salant and R. L. Johnston.....	143
Further studies of epinephrin hyperglycemia. A. L. Tatum and K. V. Carpenter.....	144
Studies with some of the newer local anesthetics. H. McGuigan and W. J. R. Heinekamp.....	144
The morphine skin reaction. J. D. Pilcher and Torald Sollmann.....	144
The effect of morphine on the respiratory center. S. J. Cohen and Hugh McGuigan.....	145
The relation of dosage to effect. L. E. Shackell.....	146
Resistance of chickens and pigeons to strychnine. W. J. R. Heinekamp.....	146
Further studies on cotton seed meal injury. Icie H. Macy and Julia P. Outhouse.....	147
Arsenic resistance of trypanosomes. Carl Voegtlin, Helen A. Dyer, and D. W. Miller.....	148
On the nature of the so-called "arseno receptor." Carl Voegtlin, Helen A. Dyer, and C. Leonard.....	148

Further observations on the homopoietic action of red bone marrow and spleen. Chauncey D. Leake.....	148
The effect of benzyl-alcohol and its esters benzyl-benzoate and benzyl-acetate, upon kidney function. Charles M. Gruber.....	149
The elimination of tryparsamide. Albert G. Young and Cliff S. Hamilton.....	149
Peripheral paralysis as a cause of respiratory failure in acute nicotin poisoning. J. E. Thomas and F. E. Franke.....	150
Blood diastases in relation to blood sugar. S. J. Cohen.....	151
Concerning the pharmacology of strophanthidin. M. Dresbach and K. C. Waddell.....	152
A method of bloodless decerebration. Torald Sollmann.....	153
The effect of caffeine, theocin and diuretin on the daily output of urine in rabbits. Florence B. Seibert and H. Gideon Wells.....	154
Some factors concerned in the polycythemia produced by epinephrine and physostigmine. Erwin E. Nelson and C. W. Edmunds.....	154
The concentration of ether administered to patients during anesthesia. T. K. Kruse.....	155
Some special features of sympathomimetic action. Oliver G. Chance and D. E. Jackson.....	156
The effect of alcohol on the patellar reflex. W. W. Tuttle.....	157
The effect of adrenalin on the durations of the latent, the contraction and relaxation periods of skeletal muscle at rest and when undergoing fatigue. Charles M. Gruber.....	157
The oxygen and nitrous oxide content of the blood of dogs during nitrous oxide anesthesia. C. W. Greene.....	158
Retention and excretion of lead. A. S. Minot and J. C. Aub.....	159
The influence of ether anesthesia upon water exchange in dogs under controlled atmospheric conditions. H. G. Barbour and Wesley Bourne.....	159
The effect of some drugs on experimentally produced mis-reference of cutaneous sensory stimuli in normal guinea-pig. John Auer.....	159
Studies in the toxicity of alkylester. J. C. Munch and E. W. Schwartz.....	161
Further studies on the effects of intraperitoneal injections of fixed oils. E. W. Schwartz and J. C. Munch.....	161
Physiological, chemical and clinical studies of the infundibular portion of the pituitary gland. John J. Abel, C. A. Rouiller and E. M. K. Geiling.....	161
Some similarities and differences in the physiological action of albumoses and histamine. John J. Abel and E. M. K. Geiling.....	161
Propylene, methane, dimethyl-ether, Experiments with anesthetic gases.....	485
Protein metabolism, respiratory exchange and heat function, The action of quinine on.....	395
Protozoöcidal comparison, A quantitative, of some opium alkaloids.....	261
Pyrexia, Artificial, induced in rabbits by injections of plant nucleic acid.....	87
Quinine, The action of, on protein metabolism, respiratory exchange and heat function.....	395

- Rabbits, Artificial pyrexia induced in, by injections of plant juice nucleic acid 87
 — tolerant toward caffein, Decreased renal response to theobromin and theophyllin in..... 477
- Rats, albino, Studies of chronic intoxications on..... 449
- Renal response, Decreased, to theobromin and theophyllin in rabbits tolerant toward caffein..... 477
 — toleration of caffein..... 465
- Respiratory exchange, protein metabolism and heat function, The action of quinine on..... 395
- Rosenthal, Sanford M. A new method of testing liver function with phenol-tetrachlorophthalein. IV. The relation of impaired function to the amount of normal liver tissue..... 385
- Salant, William, and Johnston, R. L. The response of the isolated frog heart to changes in hydrogen ion concentration and adrenalin..... 373
- Salt solutions, hypertonic sugar and, Treatment of anaphylactoid phenomena from some agents by..... 237
- Sollmann, Torald. Studies of chronic intoxications on albino rats. VII. Local anesthetics; morphine group; chloral..... 449
- Sugar and salt solutions, hypertonic, Treatment of anaphylactoid phenomena from some agents by..... 237
- Theobromin and theophyllin, Decreased renal response to, in rabbits tolerant toward caffein..... 477
- Theophyllin and theobromin, Decreased renal response to, in rabbits tolerant toward caffein..... 477
- Thomas, J. E. Factors affecting the susceptibility of frogs to the convulsant action of acid fuchsin..... 307
- Toleration, Renal, of caffein..... 465
- Trypanosomes, On drug-resistance of, with particular reference to arsenic... 55
- Tryparsamide, The excretion of..... 461
- Tuttle, W. W. The effect of alcohol on the patellar tendon reflex..... 163
- Voegtlin, Carl, Dyer, Helen A., and Miller, D. Wright. On drug-resistance of trypanosomes with particular reference to arsenic..... 55
- Witte's peptone, Some hitherto undescribed properties of the constituents of 1
- Young, A. G., and Loevenhart, A. S. The relation of the chemical constitution of certain organic arsenical compounds to their action on the optic tract..... 107
 —, and Muehlberger, C. W. The excretion of tryparsamide..... 461
