

Newsworthy and timely  
articles in your field

# MOLECULAR PHARMACOLOGY

Editor: **Joel G. Hardman, PhD**, Vanderbilt University, Nashville, Tennessee

Is your special interest receptors and neurotransmitters... drug metabolism... antibiotic and anticancer drug actions... or other areas related to the molecular basis of drug action? If so, you should be subscribing to **MOLECULAR PHARMACOLOGY**.

The editor's and editorial board's high standards ensure that the papers you read in **MOLECULAR PHARMACOLOGY** are on the cutting edge of research on drug action and selective toxicity at the molecular level. Original applications of biochemistry, biophysics, genetics, and molecular biology are juxtaposed with innovative pharmacologic research to elucidate basic problems in pharmacology and toxicology, including such areas as molecular mechanisms involved in drug receptor-effector coupling, xenobiotic metabolism, and antibiotic and anticancer drug action. Start your subscription today to ensure access to the most newsworthy papers in your field.

## Pesticides Studied In Man

Wayland J. Hayes, MD, PhD

Companion volume to the author's *Toxicology of Pesticides* (1975). This brand new book focuses on compounds about which we have direct information concerning effects on man.

**1982/686 pages/51 illustrations/#3896-6/\$50.95**

**NEW!**

## Manual of Clinical Pharmacology

Edited by David Robertson, MD and Craig R. Smith, MD

Highlights the 100 most commonly used drugs, pinpointing drugs that are especially practical...or difficult...or new.

**1981/350 pages/#7300-1/\$20.00**

## Drugs and Anesthesia

Pharmacology for Anesthesiologists

Edited by Margaret Wood, MB, ChB, FFARCS and  
Alastair J.J. Wood, MB, ChB, MRCP

Takes into account the complexity of current therapeutic medical management before and after surgery as it can complicate the administration of clinical anesthesia and analgesia.

**1982/about 703 pages/173 illustrations/#9251-0/\$60.00**

## THE JOURNAL OF NEUROSCIENCE

*The Official Journal of the Society for Neuroscience*

Editor-in-Chief:

**W. Maxwell Cowan, MD, PhD**

Neuroscience is the most rapidly growing branch of biological science. And you'll find this dynamic energy reflected in **The Journal of Neuroscience**... a dependable source for the latest trends and discoveries within your field.

**The Journal** is interdisciplinary, bringing together findings in all areas of neuroscience, molecular to clinical. So it mirrors the objectives and scope of the Society for Neuroscience and the societies in Europe and Japan. The five areas covered by **The Journal** are molecular neuroscience, cellular neuroscience, developmental neuroscience, behavioral neuroscience, and neural systems.

**Published monthly**

*Nature* gave **The Journal of Neuroscience** high marks for its quality and stature in the field:

“Although the number of new journals one encounters in the library each year seems staggering, it is fair to say that many of these never amount to much. JN is an exception. It has rapidly become a major publication in neurobiology, one to rival the established *Brain Research* and *Neuroscience*...

“High scientific standards have been ensured by having an editorial advisory board that reads like a *Who's Who* in neurobiology.

“It is quite clear from an examination of the journal over the past year that major workers in each of these fields are using the journal for the publication of their best work.

“JN is highly recommended; I am sure it will flourish.”

**ORDER FREE BY PHONE**... Just call 1-800-638-6423 from anywhere in the U.S. except AK and HI. Maryland residents call 528-4105 collect.

**Drug Analysis by Gas Chromatography**

David B. Jack

November 1984, c. 218 pp., in preparation  
ISBN: 0-12-378250-3

**CONTENTS:** Characterization of Stationary Phase and Drug. Derivatization. The Control of Purity and Stability of Pharmaceuticals. Analysis of Excipients, Preservatives, and Related Compounds in Pharmaceutical Preparations. The Determination of Therapeutically Active Substances in Pharmaceutical Preparations. Measurement of Drugs in Body Fluids. Measurement of Metabolites. Drug Screening. Envoi. Index.

**Spin Labeling in Pharmacology**

Edited by

Jordan L. Holtzman

December 1984, c. 218 pp., in preparation  
ISBN: 0-12-354050-X

**CONTENTS:** J.F.W. Keana, Synthesis and Chemistry of Nitroxide Spin Labels. R.P. Mason, Spin Trapping Free Radical Metabolites of Toxic Chemicals. C.F. Chignell, Use of Spin Labels as Enzyme Probes. J.R. Trudell, Use of Spin Labels in the Study of Drug Effects on Membranes. E.J. Rauckman, G.M. Rosen, and L.K. Griffith, Enzymatic Reactions of Spin Labels. J.L. Holtzman, Application of Spin Labeling to the Study of Protein Binding of Drugs. Each chapter includes references. Index.

**Macrolide Antibiotics  
Chemistry, Biology, and Practice**

Edited by

Satoshi Omura

September 1984, 640 pp., \$89.50  
ISBN: 0-12-526450-X

**CONTENTS (Section Headings and Chapter Titles):**  
**Macrolide Antibiotics:** Production and Antimicrobial Activity of Macrolides. Structure and Stereochemistry of Macrolides. Chemical Modification and Structure-Activity Relationship of Macrolides. Total Synthesis of Macrolides. Biochemistry, Regulation, and Genetics of Macrolide Production. Mode of Action and Resistance Mechanisms of Macrolides. Macrolides in Clinical Practice. Macrolides in Veterinary Practice.  
**Polyene Macrolides and Other Macrolide-Like Antibiotics:** Production, Structure, and Antifungal Activity of Polyene Macrolides. Biosynthesis, Regulation, and Genetics of Polyene Macrolide Antibiotics. Mode of Action and Resistance Mechanisms of Polyene Macrolides. Polyene Macrolides in Clinical Practice: Pharmacology and Adverse and Other Effects. Production, Structure, and Biological Properties of Macrolide-Like Antibiotics. The Avermectin Family of Macrolide-Like Antibiotics. Each chapter includes references. Subject Index.

A Volume in the **PHYSIOLOGIC AND PHARMACOLOGIC BASES OF DRUG THERAPY** Series . . .

**The Physiology and Pharmacology of the Microcirculation**

*Volume 2*

Edited by

Nicholas A. Mortillaro

November 1984, c. 410 pp., in preparation  
ISBN: 0-12-508302-5

**TENTATIVE CONTENTS:** F.P. Chinard and D.O. DeFouw, Microcirculation of the Lungs. E.D. Jacobson and B.L. Tepperman, Microcirculation of the Stomach. N.A. Mortillaro, Microcirculation of the Small Intestine. P.R. Kviety, Microcirculation of the Large Intestine. D.N. Granger and P.D.I. Richardson, Microcirculation of the Liver and Spleen. B. Fagrell, Microcirculation of the Skin. H.J. Granger, G.A. Meininger, J.L. Borders, R.J. Morff, and A.H. Goodman, Microcirculation of Skeletal Muscle. P.J. Kelly, E.A. Williams, and R.H. Fitzgerald, Jr., Microcirculation of Bone. L.H. Smaje and J.R. Henderson, Microcirculation of the Exocrine Glands. G.G. Pietra, Pathophysiology Involving the Microcirculation. Each chapter includes references. Index.

**Drugs and Pregnancy  
Maternal Drug Handling—Fetal Drug Exposure**

Edited by

B. Krauer F. E. Hytten  
F. Krauer E. del Pozo

September 1984, c. 270 pp., in preparation  
ISBN: 0-12-425960-X

Topics discussed in this volume include: the epidemiological situation regarding drug intake during pregnancy; pregnancy-specific modifications and their effects on drug handling; detoxification and metabolism in relation to fetal drug exposure and drug response; and effects of change in the genetic make-up of the individual on drug metabolism. Specific chapters on the use of anti-convulsive drugs, psychotropics, antidiabetics, drugs used in cardiovascular disease, antibiotics, antimitotic and immuno-suppressives as well as radioisotopes are also highlighted.

**Drug Design, Fact or Fantasy?**

Edited by

G. Jolles K. R. H. Wooldridge

1984, 276 pp., £18.00/ISBN: 0-12-388180-3

*Proceedings of the Third Rhone-Poulenc Round Table Conference held in Eastbourne, England, November 1982.*

The participants at the meeting gave up-to-date accounts of the role of QSAR in drug design, drug targeting, pattern recognition, role of receptors and three-dimensional graphics. These topics among others were fully and critically discussed and their conclusions are recorded in the volume.
