CONTENTS

Adenosine Selectively Attenuates H₂ and Beta-Mediated Cardiac Responses to Histamine and Norepinephrine: An Unmasking of H₂ and Alpha-Mediated Responses. Yuichi Hattori and Roberto Levi .................................................. 215

Pharmacological and Biochemical Evidence for Metabolism of Peptide Leukotrienes by Guinea-Pig Airway Smooth Muscle In Vitro. D. W. Snyder, D. Aharony, P. Dobson, B. S. Tsai and R. D. Krell .................................................. 224

Arachidonic Acid Metabolism By Rat Liver Cells (The C-9 Cell Line). Anastasia Rigos and Lawrence Levine .................................................. 230

Effects of Acetylcholine in the Pulmonary Circulation of Rabbits. John D. Catravas, Jerry J. Bucafulo and Hassan El Kashef .................................................. 236

Pharmacokinetics of the Poly-g-Glutamyl Metabolites of Methotrexate in Skin and Other Tissues of Rats and Hairless Mice. Cheryl L. Zimmerman, Thomas J. Franz and John T. Slattery .................................................. 242

Inhibition of Urinary Bladder Contractions by a Spinal Action of Morphine and Other Opioids. A. Bray and R. Metach .................................................. 254

A Comparison between Classes of Drugs Having Phencyclidine-Like Behavioral Properties on Dopamine Efflux In Vitro and Dopamine Metabolism In Vivo. Lawrence D. Snell, Zarena L. Mueller, Robert L. Gannon, Peter B. Silverman and Kenneth M. Johnson .................................................. 261

Kappa Opioid Analgesia is Dependent on Serotonergic Mechanisms. P. F. VonVoigtländer, R. A. Lewis and G. L. Neff .................................................. 270

Pharmacological Characterization of Dopamine Autoreceptors in the Rat Ventral Tegmental Area: Microiontophoretic Studies. Francis J. White and Rex Y. Wang .................................................. 275

Autoregulation of Cardiac Cycle Length: Role of Catecholamines. Jerod M. Loeb, John M. deTarnowsky, Sarah H. Doerschu and Christopher C. Whitson .................................................. 281

The Application of Second Order Polynomial Equations to the Study of Pharmacodynamic Interactions: The Effect of Flecaainide Acetate and Propranolol on Cardiac Output and Vascular Resistance. Jordan L. Holtzman, Donald A. Berry, Donald C. Kvam, Linda Mottonen and Gary Borrell .................................................. 286

Hepatic and Pulmonary Microsomal Metabolism of Naphthalene to Glutathione Adducts: Factors Affecting the Relative Rates of Conjugate Formation. Alan R. Buckpitt, Linda S. Bahnson and Ronald B. Franklin .................................................. 291

Genotype-Dependent Behavioral Sensitivity to Mu vs. Kappa Opiate Agonists. II. Antinociceptive Tolerance and Physical Dependence. Germaine J. Gwy and Edward F. Domino .................................................. 312

Effects of Thioridazine and Its Metabolites on Dopaminergic Function: Drug Metabolism as a Determinant of the Antidopaminergic Actions of Thioridazine. Clinton D. Kiita, David L. Knight, Richard B. Mailman, Erik Widerlöv and George R. Breese .................................................. 334

Behavioral Differences between Neonatal and Adult 6-Hydroxydopamine-Treated Rats to Dopamine Agonists: Relevance to Neurological Symptoms in Clinical Syndromes with Reduced Brain Dopamine. George R. Breeze, Alan A. Baumeister, Thomas J. McCown, Susan G. Emerick, Gerald D. Frye, Karen Crotty and Robert A. Mueller .................................................. 343

Effect of Age on Adrenergic Neuronal Uptake in Rat Heart. Margaret Spika Kreider, Paula Brustystn Goldberg and Jay Roberts .................................................. 367

Contents Continued on iv
Disposition and Anticoagulant Activity of Biologically Active Heparin Fragments in the Rat. Annette K. Larsen, Stella Hetelekidis and Robert Langer .................................................. 373
Effects of Adrenoceptor Antagonists and Neuronal Uptake Inhibitors on Dimethylyphenylpiperazinium-Induced Release of Catecholamines from the Rabbit Isolated Adrenal Gland and Guinea-Pig Atria. Anthony R. Collett and David F. Story .......................................................... 379
Mechanism of Reversal of Toxic Effects of Amitriptyline on Cardiac Purkinje Fibers by Sodium Bicarbonate. Betty I. Sasyniuk and Vija Jhamandas ........................................... 387
Inhibitory Presynaptic Effect of Noradrenaline on the Hypogastric Ganglion of the Guinea Pig. Fujio Abe .......................................................... 395
Pharmacological Characterization of Alpha Adrenoceptors in the Rat Gastric Fundus. Peter A. Verplanken, Romain A. Lefebvre and Marc G. Bogaert .......................................................... 404
Individual and Combined Antiepileptic and Neurotoxic Activity of Carbamazepine and Carbamazepine-10,11-Epoxide in Mice. B. F. D. Bourgeois and N. Wad ........................................ 411
Effect of Ethanol Tolerance on Norepinephrine-Ethanol Inhibition of (Na+ + K+)-Adenosine Triphosphatase in Various Regions of Rat Brain. N. I. Rangaraj and H. Kalant .......... 416
Is Acute Morphine Hyperthermia of Unrestrained Rats Due to Selective Activation of Brown Adipose Tissue Thermogenesis? J. A. Thornhill and M. Desautels ........................................ 422
Treatment of Ventricular Tachyarrhythmias Resulting from Amitriptyline Toxicity in Dogs. Stanley Nattel and Murray Mittleman .......................................................... 430
Serotonin Regulation of the Canine Migrating Motor Complex. Herbert S. Ormsbee, III, David A. Silber and Franklin E. Hardy, Jr. .......................................................... 436
Arachidonic Acid Metabolism in a Cell Suspension Isolated from Rabbit Renal Outer Medulla. N. R. Ferreri, M. Schwartzman, N. G. Ibrham, P. N. Chander and J. C. McGiff ................. 441
Renal Metabolism of Sulindac: Functional Implications. Mark J. S. Miller, Martin M. Bednar and John C. McGiff .......................................................... 449
Cardiovascular Control by Cholinergic Mechanisms in the Rostral Ventrolateral Medulla. Robert N. Willette, Susan Punnan, Abbott J. Krieger and Hready N. Sapru ........................................ 457
Erratum ........................................................................... 472
