

Newsworthy and timely
articles in your field

MOLECULAR PHARMACOLOGY

Editor: **Joel G. Hardman, PhD**, Vanderbilt University, Nashville, Tennessee

Is your special interest receptors and neurotransmitters . . . drug metabolism . . . antibiotic and anticancer drug actions . . . or other areas related to the molecular basis of drug action? If so, you should be subscribing to **MOLECULAR PHARMACOLOGY**.

The editor's and editorial board's high standards ensure that the papers you read in **MOLECULAR PHARMACOLOGY** are on the cutting edge of research on drug action and selective toxicity at the molecular level. Original applications of biochemistry, biophysics, genetics, and molecular biology are juxtaposed with innovative pharmacologic research to elucidate basic problems in pharmacology and toxicology, including such areas as molecular mechanisms involved in drug receptor-effector coupling, xenobiotic metabolism, and antibiotic and anticancer drug action. Start your subscription today to ensure access to the most newsworthy papers in your field.

“Already required reading for anybody who seriously considers [himself] to be a neuroscientist.”

Nature

THE JOURNAL OF NEUROSCIENCE

The Official Journal of the Society for Neuroscience

Editor-in-Chief:

W. Maxwell Cowan, MD, PhD

Neuroscience is the most rapidly growing branch of biological science. And you'll find this dynamic energy reflected in **The Journal of Neuroscience**... a dependable source for the latest trends and discoveries within your field.

The Journal is interdisciplinary, bringing together findings in all areas of neuroscience, molecular to clinical. So it mirrors the objectives and scope of the Society for Neuroscience and the societies in Europe and Japan. The five areas covered by **The Journal** are molecular neuroscience, cellular neuroscience, developmental neuroscience, behavioral neuroscience, and neural systems.

Published monthly

Nature gave **The Journal of Neuroscience** high marks for its quality and stature in the field:

“Although the number of new journals one encounters in the library each year seems staggering, it is fair to say that many of these never amount to much. JN is an exception. It has rapidly become a major publication in neurobiology, one to rival the established *Brain Research* and *Neuroscience*...”

“High scientific standards have been ensured by having an editorial advisory board that reads like a *Who's Who* in neurobiology.

“It is quite clear from an examination of the journal over the past year that major workers in each of these fields are using the journal for the publication of their best work.

“JN is highly recommended; I am sure it will flourish.”

In Japan, please contact USACO to start your subscription: USACO; 13-12, Shimbashi 1-chome, Minato-ku, Tokyo, 105, JAPAN.

ORDER FREE BY PHONE.... Just call 1-800-638-6423 from anywhere in the US except AK and HI. In MD call 528-4105 collect.

Quarterly journal devoted
entirely to in-depth review articles

PHARMACOLOGICAL REVIEWS

Editor: **James A. Bain, PhD**, Emory University,
Atlanta, Georgia

PHARMACOLOGICAL REVIEWS is a showcase for important
review articles in your field, featuring longer papers on topics of
high current interest. Recent major reviews have included:

Substance P, *by Bengt Pernow*
Pharmacology of Mesocortical Dopamine Neurons, *by Michael J.
Bannon and Robert H. Roth*
Agonist-Induced Desensitization of the Beta-Adrenergic
Receptor-Linked Adenylate Cyclase, *by T. Kendall Harden*
Pharmacology of Opioids *by William R. Martin*

The areas covered in review papers published by **PHARMACO-
LOGICAL REVIEWS** have included:

- biochemical and cellular pharmacology
- drug metabolism and disposition
- renal pharmacology
- neuropharmacology
- behavioral pharmacology
- clinical pharmacology
- toxicology

PHARMACOLOGICAL REVIEWS continues to publish the
important, longer papers of interest to pharmacologists, physiologists,
toxicologists, and biological chemists. No library serving the
pharmacologic community should be without a subscription.
