EVALUATIONS OF DRUG INTERACTIONS

EDI

Evaluations
of
Drug
Interactions

By Arthur F. Shinn, Pharm.D.
Vice President and Director, Medical Affairs, Professional Drug Systems
Produced and developed by Professional Drug Systems, Inc. under the editorship of Arthur F. Shinn, Pharm.D. along with seventeen contributors from both the academic and clinical environment, the loose-leaf edition of EDI provides a comprehensive, authoritative, and current source enabling the clinician to determine the significance of a potential drug interaction.

Organized into 18 chapters based on therapeutic class, each monograph:
—presents the interacting drugs by generic name
—signals potential interaction with single severity code
—signals potential harm, frequency of occurrence, and degree of documentation
—summarizes the overall effect of the interaction
—discusses mechanism of interaction
—is fully referenced

Available as a loose-leaf with bi-monthly updates.
1985. 1,056 pages. Available in 3 formats: Bound version (4602-2) \$26.95; Looseleaf notebook with bi-annual updates for clinicians (4046-6) \$49.95; Looseleaf notebook with annual updates for students (4044-X) \$39.95

A computerized version is available for personal and larger computers as part of the comprehensive Medical Information Databases produced by Professional Drug Systems, Inc., 2388 Scheutz Rd., Suite C-85, St. Louis, MO 63146, (314) 432-0242.

RESOURCES FOR RESEARCHERS

New 2nd Edition!
LECTURE NOTES ON CLINICAL PHARMACOLOGY

By John L. Reid, D.M., M.F.R.C.P.; Peter C. Rubin, D.M., F.R.C.P.; and Brian Whiting, M.D., F.R.C.P.

"...this is an excellent aid to clinical pharmacology, which will find a wide and eager readership, not only among medical and pharmacy students but also among doctors anxious to keep abreast of current concepts of therapeutics in a concise form."(BRITISH MEDICAL JOURNAL, on the first edition). It emphasizes such important contemporary areas as drug level monitoring, drugs in pregnancy and drugs in the elderly, and the rapidly growing sub-specialties like oncology and anti-arrhythmic therapy.

August, 1985. Approx. 376 pages. (B-4110-1) Mosby distributes this Blackwell Scientific Publication. About \$15.50
