## BOEHRINGER INGELHEIM

### CENTENNIAL FELLOWSHIPS

### IN CLINICAL PHARMACOLOGY

**T**o advance research and knowledge in this vital field of medical science, Boehringer Ingelheim Pharmaceuticals, Inc. will award fellowships for terms of up to two years.

**Q**ualified applicants will usually be licensed physicians; however, consideration will be given to applicants in disciplines that come within the general scope of Clinical Pharmacology.

**F**ellowships will be awarded to provide training at U.S. universities that have established training facilities in Clinical Pharmacology. Competitive stipends will be available.

For further information, contact:

William Wardell, M.D., Ph.D.

Vice President—Medical Director

Boehringer Ingelheim Pharmaceuticals, Inc.

90 East Ridge

P.O. Box 368

Ridgefield, CT 06877

## TWO OUTSTANDING OPPORTUNITIES OFFERED BY MAJOR UPSTATE NEW YORK PHARMACEUTICAL COMPANY

Due to the success of our current research programs, Norwich Eaton Pharmaceuticals, Inc., a wholly-owned subsidiary of The Procter & Gamble Company, has two newly created Senior Staff Scientist positions available in its Research and Development Department for highly-motivated professionals in the area of cardiac disease pathophysiology and drug discovery.

**Cardiac Physiologist/Pharmacologist.** This position will involve the design, preparation and execution of studies to determine the pathophysiology of congestive heart failure and the mechanism of action of novel cardioactive drugs. The preferred candidate will have a Ph.D. and/or M.D. degree in cardiovascular physiology/pharmacology, with 0-5 years of post-doctoral experience. Experience in whole animal hemodynamic studies, especially conscious models, would be particularly relevant.

**Cardiac Physiologist/Pharmacologist.** This position will involve the design, preparation and execution of studies to determine the pathophysiology of cardiac arrhythmias, and the mechanism of action of novel antiarrhythmic drugs. The preferred candidate will have a Ph.D. and/or M.D. degree in cardiovascular physiology/pharmacology with 0-5 years of postdoctoral experience. Experience in conscious animal models of arrhythmia would be particularly relevant.

Norwich Eaton is in a beautiful rural location in Central New York State in the Syracuse-Binghamton-Utica triangle, 250 miles northwest of New York City. Besides offering a stimulating environment for professional growth, the Company provides a competitive employment package including paid relocation, and company-paid health, dental, and retirement benefits. Some of Norwich Eaton Rx products include Macrochantin, Dantrium, Sarenin, Vivonex, Entex LA and Buprenex. Resumes and inquiries should be addressed to:

Susan M. Finch  
Personnel Representative  
Norwich Eaton Pharmaceuticals, Inc.  
A Procter & Gamble Company  
17 Eaton Avenue  
Norwich, NY 13815 U.S.A.

Newsworthy and timely  
articles in your field

# MOLECULAR PHARMACOLOGY

Editor: **William A. Catterall, PhD**, University of Washington, Seattle, Washington

Is your special interest receptors and neurotransmitters... drug metabolism... antibiotic and anticancer drug actions... or other areas related to the molecular basis of drug action? If so, you should be subscribing to **MOLECULAR PHARMACOLOGY**.

The editor's and editorial board's high standards ensure that the papers you read in **MOLECULAR PHARMACOLOGY** are on the cutting edge of research on drug action and selective toxicity at the molecular level. Original applications of biochemistry, biophysics, genetics, and molecular biology are juxtaposed with innovative pharmacologic research to elucidate basic problems in pharmacology and toxicology, including such areas as molecular mechanisms involved in drug receptor-effector coupling, xenobiotic metabolism, and antibiotic and anticancer drug action. Start your subscription today to ensure access to the most newsworthy papers in your field.
