

The Journal of PHARMACOLOGY AND EXPERIMENTAL THERAPEUTICS

CONTENTS

Characterization of the Antihypertensive Activity of SK&F 86466, a Selective <i>Alpha</i>-2 Antagonist, in the Rat. Judith M. Roesler, James P. McCafferty, Robert M. DeMarinis, William D. Matthews and J. Paul Hieble	1
Independent Central and Peripheral Mediation of Morphine-Induced Inhibition of Gastrointestinal Transit in Rats. Debra E. Gmerek, Alan Cowan and James H. Woods	8
Desensitization within and between Secretagogues of Canine Gastric Acid and Pepsin Secretion. Basil I. Hirschowitz	14
Genetic Influence on the Regulation of <i>Beta</i> Adrenergic Receptors in Mice. James A. Severson, Randall N. Pittman, Joseph Gal, Perry B. Molinoff and Caleb E. Finch	24
Dissimilarities between Methylene Blue and Cyanide on Relaxation and Cyclic GMP Formation in Endothelium-Intact Intrapulmonary Artery Caused by Nitrogen Oxide-Containing Vasodilators and Acetylcholine. Louis J. Ignarro, Richard G. Harbison, Keith S. Wood and Philip J. Kadowitz	30
<i>In Vivo</i> Dephosphorylation of WR-2721 Monitored by ³¹P NMR Spectroscopy. S. A. Knizner, A. J. Jacobs, R. C. Lyon and C. E. Swenberg	37
Effects of Nimodipine on Cerebral Blood Flow in Conscious Rat. Kohichi Kanda and Stephen F. Flaim	41
Kinetic Definition of Agonist Efficacy at a 5-Hydroxytryptamine (5-HT₂) Receptor in the Isolated Rabbit Aorta. Robert N. Cory, Roman Osman and Saul Maayani	48
Role of the Alveolar Macrophage in the Induction of Pulmonary Phospholipidosis by Chlorphentermine. I. Drug and Phospholipid Levels. Catherine A. Heyneman and Mark J. Reasor	55
Role of the Alveolar Macrophage in the Induction of Pulmonary Phospholipidosis by Chlorphentermine. II. Drug Uptake into Cells <i>in Vitro</i>. Catherine A. Heyneman and Mark J. Reasor	60
Pharmacological Characterization of Dopamine Receptors in the Stellate Ganglia with Selective DA₁ and DA₂ Receptor Agonists and Antagonists. Majd H. Sabouni, Karim A. Alkadhi and Mustafa F. Lokhandwala	65
Effect of Age on <i>Beta</i> Adrenergic Relaxation of the Rat Jugular Vein. Sue Piper Duckles and J. Steve Hurlbert	71
Effects of the Diethylamino Analog of Ethmozin (Ethacizin) upon Sympathetic and Parasympathetic Efferent Activity to the Canine Heart. Gilbert R. Hageman, Brett H. Neely, Ferdinand Urthaler and Leonid V. Rosenshtaukh	75
Denervation-Induced Supersensitivity to Calcium of Chemically Skinned Smooth Muscle of the Guinea-Pig Vas Deferens. Kenneth Ramos, William T. Gerthoffer and David P. Westfall	80
Antimuscarinic Activities of Hycanthone Analogs: Possible Relationship with Animal Toxicity. Richard K. Gordon and Peter K. Chiang	85
Selective <i>Alpha</i>-2 Adrenoceptor Blockade by SK&F 86466: <i>In Vitro</i> Characterization of Receptor Selectivity. J. Paul Hieble, Robert M. DeMarinis, Philip J. Fowler and William D. Matthews	90
Extrahepatic Extraction of Salicylamide in Dogs. Robert M. Fielding, James A. Waschek, David J. Effenev, Anton C. Pogany, Susan M. Pond and Thomas N. Tozer	97
Antiarthritic and Immunoregulatory Activity of Spirogermanium. M. J. DiMartino, J. C. Lee, A. M. Badger, K. A. Muirhead, C. K. Mirabelli and N. Hanna	103
Antinociceptive Profiles of <i>Mu</i> and <i>Kappa</i> Opioid Agonists in a Rat Tooth Pulp Stimulation Procedure. George F. Steinfelds and Leonard Cook	111
Dissociation Constants of Serotonin Agonists in the Canine Basilar Artery Correlate to <i>K_i</i> Values at the 5-HT_{1A} Binding Site. Ethan Will Taylor, Sue Piper Duckles and David L. Nelson	118
[³H]Leukotriene B₄ Binding to the Guinea-Pig Spleen Membrane Preparation: A Rich Tissue Source for a High-Affinity Leukotriene B₄ Receptor Site. John B. Cheng, Emily I-P. Cheng, Fumikazu Kohi and Robert G. Townley	126
Role of Glutathione Turnover in Drug Sulfation: Differential Effects of Diethylmaleate and Buthionine Sulfoximine on the Pharmacokinetics of Acetaminophen in the Rat. Raymond E. Galinsky	133

Contents Continued on *iv*

Effect of Portuguese Man-of-War Venom on Isolated Vascular Segments. Jose S. Loreda, Ramon R. Gonzalez, Jr. and David A. Hessinger	140
Rabbit Pulmonary Cytochrome P-450 Monooxygenase System: Isozyme Differences in the Rate and Stereoselectivity of Styrene Oxidation. Craig Harris, Richard M. Philpot, Oscar Hernandez and John R. Bend	144
Glucuronidation and Sulfation in Rabbit Kidney. J. T. Hjelle, G. A. Hazelton, C. D. Klaassen and J. J. Hjelle	150
Mianserin Attenuates Naloxone-Precipitated Withdrawal Signs in Rats Acutely or Chronically Dependent upon Morphine. Bethany S. Neal and Sheldon B. Sparber	157
Oxytocin Causes Endothelium-Dependent Relaxations of Canine Basilar Arteries by Activating V₁-Vasopressinergic Receptors. Zvonimir S. Katusic, John T. Shepherd and Paul M. Vanhoutte	166
Effects of Caffeine and 8-Phenyltheophylline on the Actions of Purines and Opiates in the Guinea-Pig Ileum. Michael K. Ahlijanian and A. E. Takemori	171
Clearance of Furosemide by the Gastrointestinal Tract. John F. Valentine, D. Craig Brater and Guenter J. Krejs	177
Effect of Halothane on Myocardial cyclic AMP and cyclic GMP Content of Mice. Yvonne Vulliemoz, Mariagnes Verosky and Lubos Triner	181
Effects of Fenoldopam on Regional Vascular Resistance in Conscious Spontaneously Hypertensive Rats. R. W. Lappe, J. A. Todt and R. L. Wendt	187
Stimulation of Cardiac Slow Ca⁺⁺ Current by High Concentration of Cimetidine. Akihiko Sawamura, Nick Sperelakis, Junichi Azuma, Hisato Harada and Kanji Fukuda	192
Doxorubicin Cardiotoxicity: Contractile Changes after Long-Term Treatment in the Rat. Richard A. Jensen	197
Cardiac and Coronary Effects of Prazosin and Phenoxybenzamine during Coronary Hypotension. Carl E. Jones, Isabella Y. S. Liang and Michael R. Maulsby	204
Effects of Ouabain on the Nerve Stimulation-Evoked Release of Norepinephrine from the Isolated Perfused Guinea-Pig Heart. Robert L. Panek, Ronald R. Gaddis and Walter R. Dixon	212
Stabilization of Antagonist Binding to Cardiac Muscarinic Acetylcholine Receptors by Gallamine and Other Neuromuscular Blocking Drugs. J. Nedoma, S. Tuček, A. F. Danilov and S. A. Shelkovich	219
Alpha Adrenoceptor Subtype Mediating Sympathetic Mobilization of Blood from the Hepatic Venous System in Anesthetized Cats. Ron Segstro and Clive Greenway	224
Noradrenergic Modulation of Cortical Acetylcholine Release is Both Direct and γ-Aminobutyric Acid-Mediated. L. Beani, S. Tanganelli, T. Antonelli and C. Bianchi	230
Inactivation of Cytochrome P-450 by the Drug Methoxsalen. Helene Fouin-Fortunet, Marina Tinel, Veronique Descatoire, Philippe Letteron, Dominique Larrey, Jean Geneve and Dominique Pessayre	237
Sulfide and Sulfoxide Derivatives of Substituted Benzimidazoles Inhibit Acid Formation in Isolated Gastric Glands by Different Mechanisms. Jan Fryklund and Björn Wallmark	248
Gentamicin-Induced Alterations in Pig Kidney Epithelial (LLC-PK₁) Cells in Culture. Dorie W. Schwertz, Jeffrey I. Kreisberg and Manjeri A. Venkatachalam	254
New, Simple Models to Evaluate Zone-Specific Damage due to Hypoxia in the Perfused Rat Liver: Time Course and Effect of Nutritional State. Blair U. Bradford, Mark Marotto, John J. Lemasters and Ronald G. Thurman	263
Cytochrome P-450 Isoenzyme Content and Monooxygenase Activities in Rat Liver: Effect of Ontogenesis and Pretreatment by Phenobarbital and 3-Methylcholanthrene. T. Cresteil, P. Beaune, C. Celier, J. P. Leroux and F. P. Guengerich	269
Antimalarial Activity of Neplanocin A with Perturbations in the Metabolism of Purines, Polyamines and S-Adenosylmethionine. June M. Whaun, George A. Miura, Nesbitt D. Brown, Richard K. Gordon and Peter K. Chiang	277
Autoradiographic Localization of Benzodiazepine Receptor Downregulation. Elizabeth I. Tietz, Howard C. Rosenberg and Ted H. Chiu	284
Kynurenic Acid and Quinolinic Acid Act at N-Methyl-D-Aspartate Receptors in the Rat Hippocampus. Alan H. Ganong and Carl W. Cotman	293
Erratum	300
