Newsworthy and timely
articles in your field

MOLECULAR PHARMACOLOGY

Editor: **William A. Catterall, PhD**, University of Washington, Seattle, Washington

Is your special interest receptors and neurotransmitters... drug metabolism... antibiotic and anticancer drug actions... or other areas related to the molecular basis of drug action? If so, you should be subscribing to **MOLECULAR PHARMACOLOGY**.

The editor's and editorial board's high standards ensure that the papers you read in **MOLECULAR PHARMACOLOGY** are on the cutting edge of research on drug action and selective toxicity at the molecular level. Original applications of biochemistry, biophysics, genetics, and molecular biology are juxtaposed with innovative pharmacologic research to elucidate basic problems in pharmacology and toxicology, including such areas as molecular mechanisms involved in drug receptor-effector coupling, xenobiotic metabolism, and antibiotic and anticancer drug action. Start your subscription today to ensure access to the most newsworthy papers in your field.

**A new edition of the classic
reference...now, when you need it most**

Clinical Toxicology of Commercial Products

Fifth Edition

**Robert E. Gosselin, MD, PhD, Roger P. Smith, PhD, and
Harold C. Hodge, PhD, DSc**

This *new fifth edition* incorporates all the important research and major developments that have occurred since publication of the previous edition in 1976. Every section has been extensively revised to bring you up-to-the-minute information.

You'll find new material on subacute and chronic intoxication. New examinations of "reference congeners" (*i.e.*, representative members of groups of toxicologically related compounds) include cocaine, acetaminophen, botulinal toxin, diazepam, and tri-*o*-cresyl phosphate. New bibliographic citations guide you to the latest studies. These are just a few of the

additions that make the *new fifth edition* the most complete ever.

The size and scope of this work sets it above all other books on the topic. You get • toxicity data for 1,642 substances or classes, referenced by more than 6,500 names • more than 7,000 bibliographic references • composition information about more than 16,000 consumer products • and much, much more.

For today's toxicology, you need today's standard. Order your copy of **Clinical Toxicology of Commercial Products, 5th Edition** today.

Leading Pharmacology Journals

Publications of the American Society for Pharmacology and Experimental Therapeutics, Inc.

THE JOURNAL OF PHARMACOLOGY AND EXPERIMENTAL THERAPEUTICS

Editor: **Eva King Killam, PhD**

JPET is respected the world over as one of the leading research journals in the field of pharmacology. Readers find broad coverage of all aspects of the interactions of chemicals with biological systems, including autonomic, behavioral, cardiovascular, cellular, clinical, developmental, gastrointestinal, immuno-, neuro-, pulmonary, and renal pharmacology, as well as analgesics, drug abuse, metabolism and disposition, chemotherapy, and toxicology. **Monthly**

DRUG METABOLISM AND DISPOSITION

The Biological Fate of Chemicals

Editor: **Vincent G. Zannoni, PhD**

DRUG METABOLISM AND DISPOSITION publishes *in vitro* and *in vivo* experimental results that bring readers significant and original information on xenobiotic metabolism and disposition, including metabolism of all pharmacologic agents or drugs and environmental chemicals, reactants, and preservatives. The areas covered are • pharmacokinetics, pharmacodynamics, and mechanisms • genetic, nutritional, or hormonal factors affecting the biological fate of chemicals • toxicological consequences of xenobiotic metabolism. **Bimonthly**

PHARMACOLOGICAL REVIEWS

Editor: **James A. Bain, PhD**

PHARMACOLOGICAL REVIEWS is a showcase for important review articles in your field, featuring longer papers on topics of high current interest. The areas covered in review papers have included biochemical and cellular pharmacology, drug metabolism and disposition, renal pharmacology, neuropharmacology, behavioral pharmacology, clinical pharmacology, and toxicology. No library serving the pharmacologic community should be without a subscription. **Quarterly**
