# ***There's something new at Hazleton . . .***

## ***Catechol Testing Services***

***Dopamine. Epinephrine. Norepinephrine. Dopa.  
Dihydroxyphenylglycol (DHPG, DOPEG). Dihydroxyphenylacetic acid (DOPAC).***

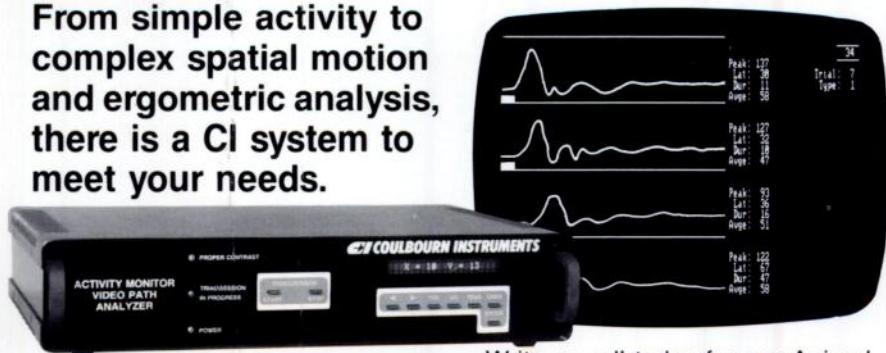

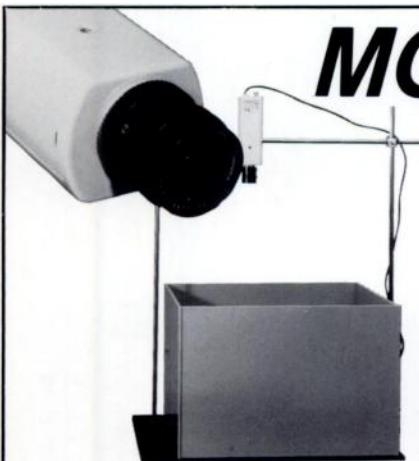

Catechols are the latest addition to Hazleton's wide variety of assay services. Analyzed by HPLC with electrochemical detection, every chromatograph is reviewed by a neurochemist who is an expert in the field of catechols. We even will help you determine which catechols need measuring.

Hazleton has been offering competitively priced assay services for twenty years. For more information on any of our services, call 1-800-RIA-TEST.

## **MOVEMENT ANALYSIS**

From simple activity to complex spatial motion and ergometric analysis, there is a CI system to meet your needs.

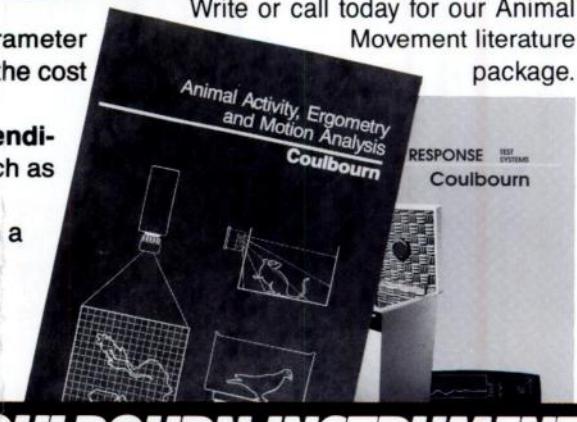

Use our **Video Path Tracking System** for multi-parameter spatial and temporal **movement analysis** at a fraction of the cost of any other system.

Precisely measure acceleration-derived **energy expenditure**, **tremors**, or stimulus related **kinetic responses**, such as **startle**, with our ergometric platforms.

Monitor and analyze data from **32 animals** at a time on a single IBM-PC with our **Home Cage Activity Monitor System** for less than \$700.00 per cage.

Write or call today for our Animal Movement literature package.

**COULBOURN INSTRUMENTS**

Box 2551 • LEHIGH VALLEY, PA • 18001 • (215) 395-3771 • FAX (215) 391-1333

## EXECUTIVE OFFICER OF THE SOCIETY

Kay A. Croker

THE JOURNAL OF PHARMACOLOGY AND EXPERIMENTAL THERAPEUTICS (ISSN 0022-3565) is an official publication of The American Society for Pharmacology and Experimental Therapeutics and is published monthly by Williams & Wilkins, 428 E. Preston Street, Baltimore, MD 21202-3993. Second class postage paid at Baltimore, MD and at additional mailing offices. POSTMASTER: Send address changes to THE JOURNAL OF PHARMACOLOGY AND EXPERIMENTAL THERAPEUTICS, 428 E. Preston St., Baltimore, MD 21202-3993. Indexed by *Current Contents*, *Index Medicus* and *BioSciences Information Service*. Subscription rates \$170.00 (\$235.00 foreign), institutions \$285.00 (\$350 foreign), single copy \$18.00 (\$22.00 foreign). Prices are subject to change. Copyright © 1991 by The American Society for Pharmacology and Experimental Therapeutics.

## **Interdisciplinary Scientist U.S. Government Food and Drug Administration**

**Position Description:** The Food and Drug Administration is seeking an interdisciplinary research scientist with specialty training and experience in cardiovascular and pulmonary pathology. Responsibility include: assistance in the design of cardiovascular and pulmonary investigations which lead to new and scientifically important findings, the development and application of appropriate techniques in studies requiring cardiovascular and pulmonary evaluation; the evaluation of cardiovascular and pulmonary tissues from experimental animals for pathologic alteration of various types but with emphasis on changes produced as a result of administration of drugs; and use of his/her pathological expertise to extrapolate from the histologic findings (cardiovascular-pulmonary) in tissues to mechanisms of drug toxicity in animals and humans.

**Highly Desirable:** Well trained scientist with a medical degree with pathology training or Ph.D. degree in pathology with minor in pharmacology of toxicology and specialty training in pathology of cardiovascular and pulmonary tissues. Must be able to carry out the evaluation of cardiovascular and pulmonary tissues using techniques of histopathology, histochemistry, immunohistochemistry (including monoclonal antibodies studies). Must have training in electron microscopy. Such training should have demonstrated the ability to independently operate transmission and scanning electron microscopes, take photos with both of these instruments and interpret the resulting images. Must also have training in morphometry.

**Salary:** Ranges from \$35,825.00 to \$55,381 depending on qualifications.

**Positions Available:** The positions available may be filled under one of the following: the Civil Service System which requires U.S. citizenship; under the Service Fellowship Program that requires U.S. permanent residency and eligibility for U.S. citizenship within 4 years of appointment or under the Visiting Associate Program which does not require U.S. permanent residency. Commission in the U.S. Public Health Service, and commensurate pay scale may also be possible.

**Applications:** Submit current curriculum vitae or U.S. Government application form (SF-171) to:

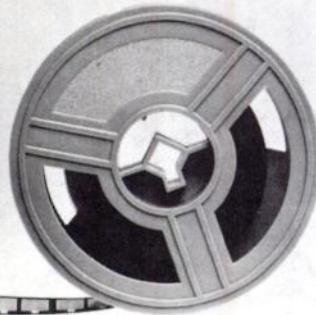

**DEPARTMENT OF HEALTH  
AND HUMAN SERVICES**  
**Public Health Service**  
**Food and Drug Administration**  
Division of Human Resources Management  
Room 4B18  
5600 Fishers Lane  
Rockville, MD 20857

# LAB ANIMAL RESEARCH EQUIPMENT

## INEXPENSIVE EXERCISER

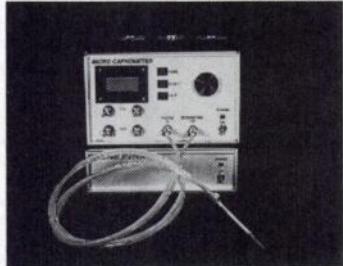

- \* For rats and mice -- 4-lane exerciser.
- \* Electronically controlled speed.
- \* Electric stimulation grids.

## GRIP STRENGTH METER for rats and mice

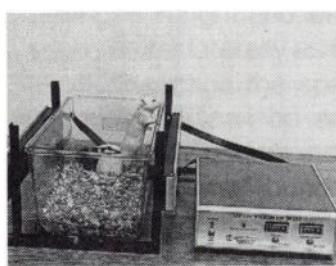

- \* Objectively measures animal deficiency in strength.

## END TIDAL CO<sub>2</sub> METER

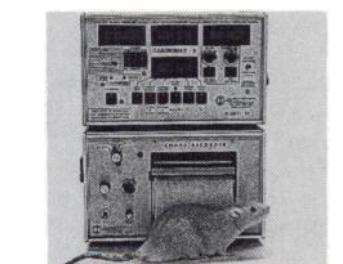

- \* Can be used for Rats
- \* Extremely small air sample flow -- 5ml/min.
- \* Analog output to most recorders.
- \* Digital display N<sub>2</sub>O measurements.

## INEXPENSIVE ANIMAL ACTIVITY METERS

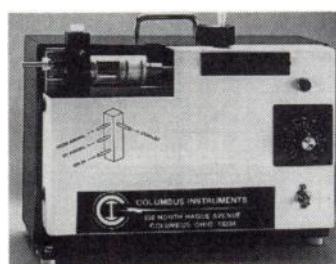

- \* "Mini" activity meter uses standard plastic cages.
- \* Can be used with rats or mice.
- \* 15 Infrared sensors.
- \* Separates ambulatory from total activity.
- \* Multi-cage system available w/ IBM-PC interface.

## CARDIAC OUTPUT FOR RATS

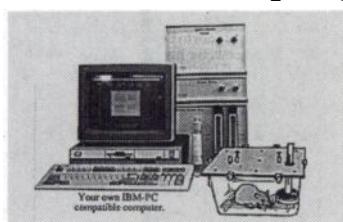

- \* Thermodilution method using 1/3 mm temp. microprobes.
- \* Can be interfaced to an IBM-PC.
- \* Measures: CO, S.V. BP, Mean Transit Time, Ejection Fraction and much more.

## VENTILATORS

- \* Mechanical (piston) positive pressure ventilators for rodents and larger animals.

## ECONOMICAL O<sub>2</sub>/CO<sub>2</sub> METABOLIC SYSTEM

systems for rats, mice, bacteria, horses, and humans.

- \* O<sub>2</sub> Consumption/CO<sub>2</sub> production computer (IBM-PC).
- \* Open-circuit indirect calorimeter.
- \* Completely computerized .
- \* Single channel.
- \* Also available-multi-channel

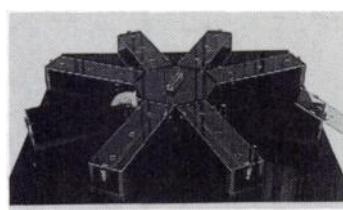

## 256 POINT THERMOMETER

*FDA registered for human use*

- \* Interface to IBM-PC for 1 to 256 thermocouples.
- \* Variety of temp. probes (rectal, skin, implantable).
- \* Software provides graphics and real-time plotting.
- \* Also special software for Pyrogenic Activity studies.

## MAZES -- "FIGURE 8" AND "RADIAL ARM"

- \* Computerized system with universal maze software (for IBM-PC) monitors interruption of 128 IR sensors.
- \* Data LOTUS 1-2-3 compatible.

## VIDEO TRACKERS FOR WATER MAZES

- \* Measures activity, distance traveled, pattern of movement, & rotations of multiple animals w/ 1 TV camera.
- \* Vertical activity (3-D) measurements w/ 2 cameras.
- \* Ideal for water maze, human and animal gait analysis.
