INDEX

Volume 268, January–March, 1994

A-57282, effects on phosphoinositide breakdown and amylase secretion, in rodents, 996
A-68930, cardiovascular and renal hemodynamic effects of, in dog, 565
A-70874, effects on phosphoinositide breakdown and amylase secretion, in rodents, 996
9-AA, *see* 9-Aminoacridine
Abassi, Z. A., Kelly, G., Golomb, E., Klein, H. and Keiser, H. R.: Losartan improves the natriuretic response to ANF in rats with high-output heart failure, 224
ABBOTT-81988, antihypertensive activity in renal hypertensive rat, 427
Abdel-Latif, A. A., *see* El-Mowafy, A. M., 1343
Abe, S., Nishimura, J., Nakamura, M. and Kanaide, H.: Effects of nicorandil on cytosolic calcium concentrations and on tension development in the rabbit femoral artery, 762
Abstinence, U-50,488H, effects on β-endorphin levels, in rats, 856
Acara, M., *see* Mahajan, M. A., 1311, 1316
Accomazzo, M. R., *see* Oliva, D., 159
ACE, *see* Angiotensin I-converting enzyme
Acetylcholine
  ganglionic activation by nebracetam, in dog, 396
  mediation of methamphetamine arousal by, in rats, 311
  modulation by opiates, 965
  nicotinic receptors, inhibition by BTMPS, 718
Acute adaptation, to hypoxia, *delta*-1 receptor dependence of, 74
Acute immunosuppression, due to morphine, 1129
Acute tolerance, induced by cocaine, in male rats, 916
Adachi, H.: Effects of E4080, a novel bradycardic agent with a coronary vasodilating property, on coronary and systemic hemodynamics in conscious dogs, 133
Adaptation, *see also* Tolerance
  acute hypoxic, *delta*-1 receptor dependence of, 74
Adenosine
  blood-brain barrier transport and brain metabolism of, 14
  effects on water and sodium excretion, 826
  hippocampal, extracellular concentrations, 537
  opioid interactions, in mice, 943
Adenosine receptors
  A_1
    activation of, and cardioprotective effects of R 75231 and lidoflazine, 90
    agonists, chronic effects of, in rat, 1506
    bronchoconstriction and airway contraction induced by, in allergic rabbits, 90
  A_1/A_2 response distinction *in vivo*, 1166
  A_2, agonists, chronic effects of, in rat, 1506
Adenosine triphosphate
  contraction of guinea pig trachea by, 1321
  effects on submucosal neurons, in guinea pig, 1396
  endothelial receptors, mediation of relaxation of bovine aortic collateral rings by, 881
  metabolism of, effects of isoflurane on, in anoxic rat hepatocytes, 625
  modulation of norepinephrine release by, 985
Adenosine triphosphate-sensitive potassium channels, cardiac, effects of HOE-234 on, 818
Adkison, K.D.K., Artru, A. A., Powers, K. M. and Shen, D. D.: Contribution of probenecid-sensitive anion transport processes at the brain capillary endothelium and choroid plexus to the efficient efflux of valproic acid from the central nervous system, 77
Adler, M. W., *see* Handler, C. M., 847
Adolf, M. A., *see* Rubin, R. P., 600
Adrenal gland
  cocaine-induced HSP70 expression in, mechanisms of, 522
  lack of involvement in acute morphine immunosuppression, 1129
Adrenal medullary cells, mediation of catecholamine synthesis by CNP in, bovine, 584
Adrenoceptors
  alpha
    amplification of 5-HT-induced contractile responses by, in dog mesenteric artery and vein, 779
    prostatic, in canine, 1063
  alpha-1
    in hypertensive mesenteric rat artery, 576
    inotropic effects in cardiac muscle, in rat, 1174
    in Madin-Darby canine kidney cells, 1588
    in mesenteric vasculature, in rat, 1153
  alpha-1A, mediation of intracellular calcium release by, in rat portal vein, 167
  alpha-2, [^{3}H]RX821002 binding to, 1362
  beta
    lack of, in canine saphenous vein at birth, 990
    modulation of eosinophil secretion by, 139
  beta-3
    effects on cutaneous blood flow, in dog, 1444
    peripheral vascular effects of, in dogs, 466
  mRNA for, in rat kidney, 1605
Adrien, J., *see* Jolas, T., 1432
Afferent response, to rectal distention in IBS, octreotide inhibition of, 1206
Aging, effects on phenobarbital effects, in male rats, 531
Ahluwalia, A. and Perretti, M.: Anti-inflammatory effect of prostanoids in mouse and rat skin: Evidence for a role of EP_3-receptors, 1526
Ahmed, M. S., *see* Cemerikic, B., 971
AIDS, murine model, therapeutic studies in, 10
Airways
  contraction of
    adenosine-induced, in allergic rabbits, 1328
    anti-IgE, effects of BAY x1005 on, 868
    nonadrenergic noncholinergic, modulation by bradykinin, in guinea pigs, 482
    PGD_2 and 9α,11β-PGF_2, antagonism by atropine, SK&F 88046 and SQ 29, 548, in guinea pig, 304
    purine and pyrimidine agonist, in guinea pig, 1321
    resiniferatoxin and capsaicin, inhibition by capsazepine, in guinea pig, 85
  hyper-reactivity of, mediation by leukotrienes, in guinea pigs, 353
  relaxation of
    by *S*-nitrosothiols, in human, 978
    by WAY-PDA-641, 888
Akedagerlind, *see* Meister, B., 1605
Aksu, F., *see* Rady, J. J., 1222
Akunne, H. C., Dersch, C. M., Cadet, J. L., Char, G. U., Partilla, J. S., de Costa, B. R., Rice, K. C., Carroll, F. I. and Rothman, R. B.: Studies of the biogenic amine transporters. III. Demonstration of two binding sites for [^{3}H]GBR12935 and [^{3}H]BTCP in rat caudate membranes, 1462
[Ala^{25,26,27}]hPTH(1–34), *see* Human [Ala^{25,26,27}]parathyroid hormone fragment(1–34)
Albumin, effects on myocardial quinidine uptake, in rat, 283
Albuquerque, E. X., *see* Costa, A.C.S., 503
Ali, S., Mustafa, S. J. and Metzger, W. J.: Adenosine-induced bronchoconstriction and contraction of airway smooth muscle from allergic rabbits with late-phase airway obstruction: Evidence for an inducible adenosine A_1 receptor, 1328
Allergic asthma, adenosine-induced bronchoconstriction and airway contraction in, in rabbits, 1328
Altura, B. M., *see* He, G.-Q., 1532
Altura, B. T., *see* He, G.-Q., 1532
Ambient temperature, effects on opioid agonist thermoregulation, 847
Ambrus, J. L., *see* Stadler, S., 10
6-Amidino-2-naphtyl p-guanidinobenzoate

dimethanesulfonate, *see* Nafamostat mesilate
9-Aminoacridine, effects on glutamate receptors, concentration-jump studies of, in rat, 503
γ-Aminobutyric acid, endogenous, mediation of ethanol inhibition of baroreflex by, 1057
γ-Aminobutyric $acid_A$ receptors
effects of NSAIDs on, 806
inhibitory postsynaptic currents, potentiation by ethanol, 1388
2-(Aminocarboxyl)-N-(4-amino-2,6-dichlorophenyl)-4-[5,5-bis(4-fluorophenyl) pentyl]-1-piperazinelacetamide trihydrochloride-2,5 hydrate, *see* R 75231
Amlodipine, cardiac effects of, 1232
Amylase
regulation by cyclic AMP, in rat parotid cell, 600
secretion of, effects of phosphoinositide breakdown on, in rodents, 996
An, T., *see* Asano, T., 1032
Analgesia
kappa opioid, in rhesus monkeys, 47
reduction by dynorphin A, in spinal mice, 873
tetrahydrocannabinol, modulation by nor-binaltorphimine, 1381
Anderson, B., *see* French, J. F., 180
Anesthesia, effects on coronary vascular effects of cocaine in rats, 97
Anesthetics, local, effects in healthy humans and rat hypothalamic CRH release *in vitro*, 1548
ANF, *see* Atrial natriuretic factor
Angiotensin I-converting enzyme, dual inhibitor for, 180
Angiotensin II, type 1 receptor antagonist, prevention of TxA_2 receptor-mediated pulmonary hypertension by, 747
Angiotensin III, cardiovascular effects in brainstem nuclei, in rats, 558
Anions, superoxide, generation of, modulation in Kupffer cells, 238
Anion transport
biliary, multiple systems for, 65
probenecid-sensitive transporters at brain capillary endothelium for, role in valproic acid clearance from CNS, 797
Anoxia, ATP metabolism in, effects of isoflurane on, in rat hepatocytes, 625
Anthony, E. W., *see* Nevins, M. E., 248
Antianalgesia, dynorphin A, in spinal mice, 873
Antiarrhythmics, class I, inhibition of [^{3}H] batrachotoxinin binding to rat cardiac sodium channels by, 187
Antibody
antidrug, fragments, optimization of intraperitoneal drug therapy with, 734
anti-IgE, contraction of airways by, effects of BAY x1005 on, 868
anti-transferrin receptor, transport of NGF across blood-brain barrier with, 448
Anticonvulsants, tolerance to, effects on brain benzodiazepine receptors, in rat, 675
Antidepressants
effects on response duration, 1335
serotonin-reuptake-inhibitor
chronic treatment with, effects on 5-HT_{1A} receptors, in rats, 1432
inhibition of desipramine hydroxylation *in vitro* by, 1278
Antinociception
capsaicin, mediation by substance P NH_2-terminus, in mouse, 785
by coadministration of adenosine and opioids, in mice, 943
effects of spinal *delta* opioids in, 701
6-monoacetylmorphine, in mice, 1222
SC-39566, in rodent, 607
tetrahydrocannabinol, modulation by nor-binaltorphimine, 1381
Antipsychotics, binding to 5-HT_6 and 5-HT_7 receptors, 1403
Antipyrine, metabolism of, effects of phenobarbital on, effects of aging on, in male rats, 531
Antisense, D_2, inhibition of D_2 behavior by, 1015
Aorta
cocaine-induced HSP70 expression in, mechanisms of, 522
relaxation of
influence of cytochrome P450 inhibitors on, in rabbit, 262
mediation by P_{2Y} purinoceptor and nucleotide receptors, bovine, 881
Aposhian, H. V., *see* Hurlbut, K. M., 662
Arachidonic acid
metabolism of
effects of scalaradial on, in polymorphonuclear leukocytes, 709
effects of THC on, in human peripheral blood mononuclear cells, 1289
modulation of superoxide generation in Kupffer cells by, 238
release of, mediation by *alpha*-1 adrenoceptors, in MDCK cells, 1588
Archer, S., *see* Jiang, Q., 1107
Arnaudeau, S., *see* Lepretre, N., 167
Arousal, methamphetamine, dopaminergic-cholinergic mechanism of, in rats, 311
Artru, A. A., *see* Adkison, K.D.K., 797
Asano, T., McWatters, A., An, T., Matsushima, K. and Kleinerman, E. S.: Liposomal muramyl tripeptide up-regulates interleukin-1α, interleukin-1β, tumor necrosis factor-α, interleukin-6 and interleukin-8 gene expression in human monocytes, 1032
Asthma, allergic, adenosine-induced bronchoconstriction and airway contraction in, in rabbits, 1328
Atherosclerosis, coronary artery, serotonin receptors in, in rabbit, 124
ATP, *see* Adenosine triphosphate
Atrial cells, selective blocker for T-type Ca^{++} channels in, guinea pig, 1135
Atrial natriuretic factor
neuromodulatory effects of, effects of K^+ channels on, in rabbit vas deferens, 117
renal response during CHF, effects of losartan on, in rats, 224
Atropine, antagonism of airway contractile responses to PGD_2 and 9α,11β-PGF_2 by, in guinea pig, 304
Audebert, F., Urtizberea, M., Sabouraud, A., Scherrmann, J.-M. and Bon, C.: Pharmacokinetics of *Vipera aspis* venom after experimental envenomation in rabbits, 1512

Vascular resistance, systemic, dose- and time-dependent effects of ethanol on, 78
Vas deferens
  effects of K^+ channels on ANF neuromodulatory effects in, in rabbit, 117
  [^{3}H]NTI binding to *delta* receptors in, in mouse, 836
Vasoactive intestinal peptide, myocardial preservation by, 952
Vasoconstriction
  alpha-1 adrenoceptor, in hypertensive rat artery, 576
  flow- and potassium-induced, of rabbit facial vein, Ca^{++} entry pathway for, 25
  5-HT-induced, of mesenteric arteries, amplification by 5-HT receptors and *alpha*-adrenoceptors, in dog, 779
  kinin, in rat portal vein, mechanisms of, 902
Vasodilation
  coronary, E4080, in dogs, 133
  mesenteric artery
    inhibition by IFN-γ, in bovine, 910
    opioid sensory neuromodulation of, in rat, 772
  peripheral
    beta-3 adrenergic, in dogs, 466
    E4080, in dogs, 133
Vasodilator nerves, CGRP-containing, pharmacological characterization of presynaptic CGRP receptors on, in rat, 59
Vasodilators, effects on human internal mammary artery, 434
Vasorelaxation
  aortic
    influence of cytochrome P450 inhibitors on, in rabbit, 262
    mediation by P_{2Y} purinoceptor and nucleotide receptors, bovine, 881
  coronary, peroxynitrite, in dogs, 1114
  interleukin-1-induced, in rabbit mesenteric artery, 1419
  nicorandil-induced
    mechanisms of, 1411
    in rabbit femoral artery, 762

The top ranking journal in the field...

Pharmacological REVIEWS

A Publication of the American Society for Pharmacology and Experimental Therapeutics, Inc.

Robert E. Stitzel, PhD, Editor
West Virginia University Medical Center

Pharmacological Reviews is a show-case for important review articles in your field, featuring more comprehensive papers on topics of high current interest.

The Journal continues to publish the important, longer papers of interest to pharmacologists, physiologists, toxicologists, and biological chemists. No library serving the pharmacologist should be without a subscription.

Published Quarterly

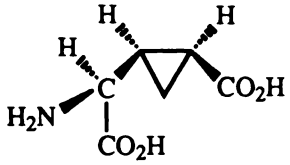
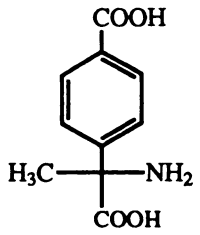
RBI THE RESEARCHER'S GOLD STANDARD

(2S,3R,4S)-α-(Carboxy-cyclopropyl)-glycine
L-CCG-IV



Potent NMDA receptor agonist.
Kawai et al. *Eur. J. Pharmacol.* **211(2)**, 195 (1992).
Cat. No. C-195

(±)-α-Methyl-4-carboxyphenylglycine
(±)-MCPG



Competitive metabotropic glutamate receptor antagonist.
Bashir et al. *Nature* **363(6427)**, 347 (1993).
Cat. No. M-172

Guanosine-5'-O-(2-thiodiphosphate) trilithium salt
GDP-β-S
Non-hydrolyzable GTP analog that inhibits guanosine triphosphate (GTP) activation of adenylate cyclase.
Budson et al. *Brain Res.* **548(1-2)**, 346 (1991).
Cat. No. G-122

Guanosine-5'-O-(3-thiotriphosphate) tetralithium salt
GTP-γ-S
Non-hydrolyzable GTP analog that stimulates phosphoinositide hydrolysis in membranes.
Clark et al. *Proc. Natl. Acad. Sci. USA* **90(9)**, 3782 (1993).
Cat. No. G-123

5'-Guanylyl-imidodiphosphate tetralithium salt
GMP-PNP
Non-hydrolyzable GTP analog that binds to G_s or G_i to stimulate or inhibit adenylate cyclase activity.
Steinberg et al. *Biochem. Pharmacol.* **36(5)**, 757 (1987).
Cat. No. G-124

Have you received the February, 1994 issue of *Neurotransmissions?* It features "MK-801 (Dizocilpine Maleate) - NMDA Receptor Antagonist" by Leslie L. Iversen.
