The authors regret the following errors appeared in the Methods section on page 706.

**Drug administration** subsection, line 8.

$0.120 \pm 0.001 \mu\text{g/ml}$

Should have been shown as:

$1.20 \pm 0.01 \mu\text{g/ml}$

**Membrane preparation** subsection, lines 14–16.

“The supernatant was centrifuged for 30 min at  $23,640 \times g$ . The pellet was resuspended in 10 ml of solution B and adjusted to  $750 \mu\text{g}$  of protein/ml.”

Should have read as:

“The supernatant was centrifuged for 20 min at  $6500 \times g$ . The pellet was resuspended in 10 ml of solution B and centrifuged at  $4000 \times g$  for 15 min, resuspended in solution B and adjusted to  $750 \mu\text{g}$  of protein/ml.”
