

CONTENTS

I. Ueber Curarin. By Hans H. Meyer.....	1
II. On Optical Isomers. VIII. The Influence of Configuration on the Activity of Tropeines. By Arthur R. Cushny.....	5
III. Some Effects of Betaine Esters and Analogous Compounds on the Autonomic Nervous System. By Reid Hunt and R. R. Renshaw.....	17
IV. Contributions to the Pharmacology of Posture and of Labyrinthine Reflexes. The Nineteenth Communication: Pyramidon, Veramon and Veronal, with Special Reference to the Quantitative Evaluation of Stimulant and Depressive Actions upon the Central Nervous System of Mammals. By R. Magnus.....	35
V. The Pharmacology of Denervated Mammalian Muscle. Part I. The Nature of the Substances Producing Contracture. By H. H. Dale and H. S. Gasser.....	53
VI. On the Chemotherapy of Neurosyphilis and Trypanosomiasis. By A. S. Loevenhart and W. K. Stratman-Thomas.....	69
VII. Ueber die Adstringierwirkung des Aluminium-Acetates. By Walther Straub.....	83
VIII. The Reaction between Serum and Alkaloids. By R. Beutner.....	95
IX. Biological Significance of Cystine and Glutathione. II. Sensitization of an Isolated Intestinal Segment to Cysteine. By Carl Voegtlin and Helen A. Dyer.....	105
X. Wirkt Quecksilbersulfid toxisch? By Helmer Niklasson und C. G. Santesson.....	117
XI. The Effects on Mammals of the Administration of Excessive Quantities of Water. By Leonard G. Rowntree.....	135
XII. The Heat Production of Nerve. By A. V. Hill.....	161
XIII. Studies on the Cardiac Output of the Dog. II. The Influence of Atropine and Carbon Dioxide on the Circulation of the Unanesthetized Dog. By E. K. Marshall, Jr.....	167
XIV. The Pituitary (Posterior Lobe) Principle in Circulating Blood. By August Krogh.....	177
XV. Early Cirrhosis of the Liver Produced in Dogs by Carbon Tetrachloride. By Paul D. Lamson and Raymond Wing.....	191
XVI. Sur le Mécanisme de la Bradycardie Consécutive à l'Injection de Digitale, Strophantine et Cymarine. By J. F. Heymans et C. Heymans..	203
XVII. β -Iminazolyl-4(or 5)-Pyruvic Acid. By George Barger and Corbet Page Stewart.....	223
XVIII. The Concentration of Vitamin B. III. By P. A. Levene and B. J. C. van der Hoeven.....	227
XIX. The Relation of Depressant and Stimulant Actions of Epinephrine on the Frog Heart. By Torald Sollmann and O. W. Barlow.....	233

XX. Beiträge zur Toxikologie der Oxalsäure und Oxalate. By E. Rost.....	257
XXI. The Theory of Anesthesia and the Problem of Toxicity. By V. E. Henderson and W. Easson Brown.....	269
XXII. Studies on Quinin. By Robert A. Hatcher and Soma Weiss.....	279
XXIII. The Action of Phenol on the Circulatory System. By J. W. C. Gunn.....	297
XXIV. A New Classification of Mycetismus (Mushroom Poisoning). By William W. Ford.....	305
XXV. The Mode of Action of Potassium Chloride on Muscles. By A. J. Clark.....	311
XXVI. The Action of Histamine on the Heart and Coronary Vessels. By J. A. Gunn.....	325
XXVII. The Rate of Filtration of Protein Solutions, Particularly of Mucin. By Samuel Amberg and Frances Sawyer.....	339
XXVIII. Zur Pharmakologie der Purkinjeschen Fäden. By Makoto Ishihara und Ernst P. Pick.....	355
XXIX. Blood Studies in Dogs after Adrenalectomy. By G. N. Stewart...	373
XXX. Studies Concerning the Value of a Solution of Glucose in Maintaining the Acid-Base Equilibrium of the Blood in Pregnant Animals. I. The Effect of a Period of Ether Anesthesia in Pregnant Animals. The Protection Conferred by a Solution of Glucose. By Wm. deB. MacNider.....	381
XXXI. The Anti-Diuretic Effects of the Caffein Group in the Dog. By George B. Wallace and E. J. Pellini.....	397
XXXII. The Physiological Assay of Preparations of Digitalis. By Erik Knaffl-Lenz.....	407
XXXIII. Heat Regulation and Water Exchange. XI. Blood and Plasma Changes in Cocaine and B. Coli Fevers and Aspirin Antipyresis. By Henry G. Barbour.....	427
XXXIV. A Physico-Chemical Study of the Antagonistic Action of Magnesium and Calcium Salts and the Mode of Action of Some Analgesic Drugs. By A. D. Hirschfelder and E. R. Serles.....	441
XXXV. Variations in Blood Pressure Induced by Repeated Injections of Extracts of the Posterior Lobe of the Pituitary Gland. By E. M. K. Geiling and David Campbell.....	449
XXXVI. A Phyto-Pharmacological Study of Pernicious Anemia. By David I. Macht.....	461
XXXVII. The Pharmacological Action of Mercury in Organic Combination. By D. E. Jackson.....	471
XXXVIII. Permeability of the Liver to Dyes in Shock Conditions and Under the Influence of Certain Agents. By P. J. Hanzlik and F. De Eds.....	485
XXXIX. Studies upon the Combining Power of Proteins with Rose Bengal. By Sanford M. Rosenthal.....	521
XL. Studies of the Infra-Red Absorption Spectra of the Alkaloids. I. Tropan Derivatives. By Frederick K. Bell.....	533
Index.....	551
