THE JOURNAL
OF
PHARMACOLOGY
AND
EXPERIMENTAL THERAPEUTICS

VOLUME XXIX

Contributions to Pharmacology
In Honor of
JOHN J. ABEL
Founder of This Journal
and
Professor of Pharmacology
The Johns Hopkins University

Baltimore, Maryland
1926

Property of the Library
New York Homeopathic Medical College
and
Flower Hospital
DEDICATED BY
FRIENDS AND PUPILS
TO
JOHN J. ABEL
ON
THE OCCASION
OF
THE FIFTIETH ANNIVERSARY
OF
THE FOUNDING OF
THE JOHNS HOPKINS UNIVERSITY
TITLES OF PAPERS BY JOHN J. ABEL

Bemerkungen über die thierischen Melanine und das Hämosiderin. Virchow’s Archiv, 1890, cxx, 204-217.

The methods of pharmacology; with experimental illustrations. Pharmaceutical Era, 1891.

A method of detecting and registering minute movements. University of Michigan Record, 1891, i, 35. (Title only.)

On the use of the trichloride of acetic acid as an anesthetic for the laboratory, with some account of its fate in the organism (With T. B. Aldrich). Science, 1895, N. S. i, 113

On epinephrin and its compounds, with especial reference to epinephrin hydrate.

The function of the suprarenal glands and the chemical nature of their so-called active principle. Contributions to Medical Research, dedicated to Victor C. Vaughan, 1903, 138-165.

On the decomposition products of epinephrin hydrate (With R. deM. Taveau).

On the pharmacological action of some phthaleins and their derivatives, with especial reference to their behavior as purgatives (With L. G. Rowntree).

Experimental and chemical studies of the blood with an appeal for more extended chemical training for the biological and medical investigator. Mellon Lecture, University of Pittsburgh, 1915.

TITLES OF PAPERS BY JOHN J. ABEL

The chemistry and function of the pituitary gland. Ind. and Eng. Chem. 1924, xvi, 1031.

Physiological, chemical and clinical studies on pituitary principles. Harvey Lecture, delivered April 12, 1924, Reprinted from Harvey Society Lectures, 1923–24.
