Improving research protections means improving research quality.

Demonstrate your organization’s commitment to human research protections through accreditation.

AAHRPP accreditation…

• improves your human research protection program
• assists your organization in achieving regulatory compliance
• helps your organization compete for sponsored research
• “raises the bar” in overall research quality
• builds and enhances public trust

No more frequent injections, since ALZET® Osmotic Pumps provide continuous delivery for up to 4 weeks. These small, implantable infusion pumps allow you to predictably sustain compounds at therapeutic levels, avoiding potentially toxic or misleading side effects. With sizes small enough for mice or even young rats, and large enough for primates or livestock, these pumps also come in a variety of release rates.

In use for nearly 30 years, and in 9,000+ published references, implantable ALZET Osmotic Pumps have a proven history of creating better science.

Learn about delivery at constant rates by visiting www.alzet.com.
