Pharmacology Journals from Nature Publishing Group

Clinical Pharmacology & Therapeutics

The newest addition to the Nature Publishing Group portfolio, this journal focuses on primary investigations in pharmacology and pharmacy as well as the most exciting advances in drug discovery, development, regulation and utilization.

The Pharmacogenomics Journal

*Journal Citation Reports, Thompson, 2006

The Pharmacogenomics Journal publishes original research on basic pharmacogenomics research and its clinical applications. Key areas of coverage include the effects of genetic variability on drug toxicity and efficacy, characterization of polymorphisms relevant to drug action, identification of novel genomic targets for drug development, and potential benefits of pharmacogenomics.

Neuropsychopharmacology

Celebrating its 20th year in publication. Neuropsychopharmacology advances the understanding of the brain and behavior with a focus on molecular, cellular, physiological and psychiatric properties of agents and the identification of new molecular targets for drug development.

Constant delivery is CONTINUOUS SUCCESS

No more frequent injections, since ALZET® Osmotic Pumps provide continuous delivery for up to 4 weeks. These small, implantable infusion pumps allow you to predictably sustain compounds at therapeutic levels, avoiding potentially toxic or misleading side effects. With sizes small enough for mice or even young rats, and large enough for primates or livestock, these pumps also come in a variety of release rates.

In use for over 30 years, and in over 10,000 published references, implantable ALZET Osmotic Pumps have a proven history of creating better science.

Learn about delivery at constant rates by visiting www.alzet.com.
