A Publication of the American Society for Pharmacology and Experimental Therapeutics
Your mission: **Conquering cancer.**

Our mission: **Providing the tools.**

Oncology researchers look to us for the tools they need to advance their research faster. These tools include one of the industry’s broadest, deepest portfolios of xenograft models for immediate delivery... as well as new and exclusive products like the Pirc rat for colon cancer and the CIEA NOG mouse® for humanization studies. Taconic also offers a wide range of contract research solutions — from xenograft studies to *in vivo* bioluminescent imaging — that complement and add value to your studies. Visit our website to learn more about our scientific expertise — and discover our values. [www.taconic.com/oncology](http://www.taconic.com/oncology)
Rush University Medical Center is seeking candidates for the Chairperson of the Department of Pharmacology that will play a pivotal role in the growth and development of research and education at Rush. The Department has 11 primary, 4 adjunct and 9 conjoint faculty members conducting cutting edge research in oncology, vascular biology, and neurosciences. The department has well-established graduate and doctoral programs and fosters excellence in mentoring and teaching.

Candidates must have a PhD or MD/PhD (or equivalent) with a strong record of scientific achievement, commitment to education, and leadership. The Chair should be an established researcher who can provide an energetic and creative vision for building a departmental research program. The Chair must also build strategic interdisciplinary research teams within and across departments for the purpose of securing external funding through innovative and traditional sources. Successful candidates should also have strong administrative and interpersonal communication skills to effectively manage the department and facilitate interactions with constituents. Rush is an equal opportunity employer.

Interested candidates should submit a curriculum vitae, description of research interests, educational involvement, leadership experience, and three reference letters electronically to:

Courtney Kammer, Director of Faculty Recruitment
Courtney_Kammer@rush.edu (312) 942-7376

FASEB Summer Research Conferences (SRC) are a continuing series of intimate inter-disciplinary conferences that explore new approaches in research areas undergoing rapid scientific changes.

Who should attend? Those heavily engaged in research or are in ancillary fields where an accurate understanding of allied scientific advances is important. Join over 3,700 fellow attendees!

2011 Conference Venues
- Saxtons River, Vermont
- Carefree, Arizona
- Steamboat Springs, Colorado
- Snowmass Village, Colorado
- Barga (Lucca), Italy
- Crete, Greece

2011 Conference Topics
- Hematopoietic Malignancies
- Ion Channel Regulation
- NAD Metabolism & Signaling
- Translational Neuromunology
- Mobile DNA in Mammalian Genomes
- And over 30 more cutting-edge topics!

(SRCs run June 5 - Sept. 16, 2011. Visit www.FASEB.org/SRC for a detailed schedule. CME credits available.)
