

The Journal of

PHARMACOLOGY

And Experimental Therapeutics

**A Publication of the American Society for
Pharmacology and Experimental Therapeutics**

Your mission: **Conquering cancer.**

Our mission:
Providing the tools.

Oncology researchers look to us for the tools they need to advance their research faster. These tools include one of the industry's broadest, deepest portfolios of xenograft models for immediate delivery... as well as new and exclusive products like the Pirc rat for colon cancer and the CIEA NOG mouse® for humanization studies. Taconic also offers a wide range of contract research solutions — from xenograft studies to *in vivo* bioluminescent imaging — that complement and add value to your studies. Visit our website to learn more about our scientific expertise — and discover our values. www.taconic.com/oncology

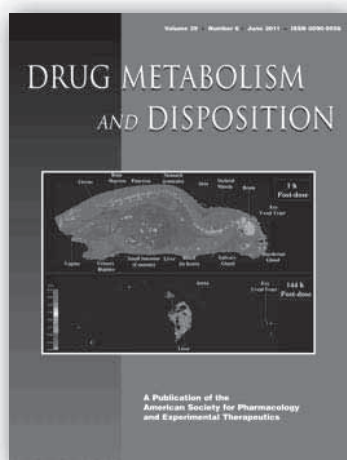

Taconic

Smart. Very Smart.

ASPET Journals

ASPET Journals Online Only Starting in 2012

Starting in 2012, all ASPET journals will be available online only. If you are an institutional print subscriber or a member print subscriber, you already have online access. If you have not already activated your online access, you should do so. For assistance, please email subscriptions@aspet.org.

For more information on the change to the online only format, or to subscribe to an ASPET journal, visit us online at www.aspetjournals.org.
