

The Journal of PHARMACOLOGY

And Experimental Therapeutics

A Publication of the American Society for Pharmacology and Experimental Therapeutics

July 2014

Vol. 350, No. 1

Contents

HIGHLIGHTED PAPERS

1

COMMENTARY

Therapeutic Efficacy of a H₄ Receptor Antagonist in Humans: A Milestone in Histamine Research

2

Roland Seifert

The article associated with this Commentary can be found on page 181.

BEHAVIORAL PHARMACOLOGY

Effects of Pharmacologic Dopamine β -Hydroxylase Inhibition on Cocaine-Induced Reinstatement and Dopamine Neurochemistry in Squirrel Monkeys

144

Debra A. Cooper, Heather L. Kimmel, Daniel F. Manvich, Karl T. Schmidt, David Weinschenker, and Leonard L. Howell

Potent Inhibition of Alcohol Self-Administration in Alcohol-Preferring Rats by a κ -Opioid Receptor Antagonist

171

John R. Cashman and Marc R. Azar

CARDIOVASCULAR

Ramipril Protects the Endothelium from High Glucose-Induced Dysfunction through CaMKK β /AMPK and Heme Oxygenase-1 Activation

5

Shiliu Tian, Xinfu Ge, Ke Wu, Huabing Yang, and Yu Liu

☐ The Biological Actions of 11,12-Epoxyeicosatrienoic Acid in Endothelial Cells Are Specific to the *R/S*-Enantiomer and Require the G_s Protein

14

Yindi Ding, Timo Frömel, Rüdiger Popp, John R. Falck, Wolf-Hagen Schunck, and Ingrid Fleming

CELLULAR AND MOLECULAR

☐ Inhibition of Phosphatidylinositol 3-Kinase/AKT Signaling by NVP-BKM120 Promotes ABT-737-Induced Toxicity in a Caspase-Dependent Manner through Mitochondrial Dysfunction and DNA Damage Response in Established and Primary Cultured Glioblastoma Cells

22

Esther P. Jane, Daniel R. Premkumar, Alejandro Morales, Kimberly A. Foster, and Ian F. Pollack

DRUG DISCOVERY AND TRANSLATIONAL MEDICINE

☐ SOMG-833, a Novel Selective c-MET Inhibitor, Blocks c-MET-Dependent Neoplastic Effects and Exerts Antitumor Activity

36

Hao-tian Zhang, Lu Wang, Jing Ai, Yi Chen, Chang-xi He, Yin-chun Ji, Min Huang, Jing-yu Yang, Ao Zhang, Jian Ding, and Mei-yu Geng

☐ Pharmacology of a Central Nervous System Delivered 2'-*O*-Methoxyethyl-Modified Survival of Motor Neuron Splicing Oligonucleotide in Mice and Nonhuman Primates

46

Frank Rigo, Seung J. Chun, Daniel A. Norris, Gene Hung, Sam Lee, John Matson, Robert A. Fey, Hans Gaus, Yimin Hua, John S. Grundy, Adrian R. Krainer, Scott P. Henry, and C. Frank Bennett

☐ Semisynthetic Bile Acid FXR and TGR5 Agonists: Physicochemical Properties, Pharmacokinetics, and Metabolism in the Rat

56

Aldo Roda, Roberto Pellicciari, Antimo Gioiello, Flavia Neri, Cecilia Camborata, Daniela Passeri,

Francesca De Franco, Silvia Spinozzi, Carolina Colliva, Luciano Adorini, Marco Montagnani, and Rita Aldini

- S GSK356278, a Potent, Selective, Brain-Penetrant Phosphodiesterase 4 Inhibitor That Demonstrates Anxiolytic and Cognition-Enhancing Effects without Inducing Side Effects in Preclinical Species 153
A. Richard Rutter, Alessandro Poffe, Palmina Cavallini, T. Gregg Davis, Jessica Schneck, Michele Negri, Elena Vicentini, Dino Montanari, Roberto Arban, Frank A. Gray, Ceri H. Davies, and Paul B. Wren
- The Histamine H₄ Receptor Antagonist, JNJ 39758979, Is Effective in Reducing Histamine-Induced Pruritus in a Randomized Clinical Study in Healthy Subjects 181
Alexa Kollmeier, Klaus Francke, Bin Chen, Paul J. Dunford, Andrew J. Greenspan, Yichuan Xia, Xie L. Xu, Bei Zhou, and Robin L. Thurmond
The Commentary associated with this article can be found on page 2.

GASTROINTESTINAL, HEPATIC, PULMONARY, AND RENAL

- S Novel Orally Available Salvinorin A Analog PR-38 Inhibits Gastrointestinal Motility and Reduces Abdominal Pain in Mouse Models Mimicking Irritable Bowel Syndrome 69
M. Salaga, P. R. Polepally, M. Sobczak, D. Grzywacz, W. Kamysz, A. Sibaev, M. Storr, J. C. Do Rego, J. K. Zjawiony, and J. Fichna
- S Ameliorative Effect of Mepenzolate Bromide against Pulmonary Fibrosis 79
Shota Kurotsu, Ken-ichiro Tanaka, Tomomi Niino, Teita Asano, Toshifumi Sugizaki, Arata Azuma, Hidekazu Suzuki, and Tohru Mizushima
- Hypercontractility of Intestinal Longitudinal Smooth Muscle Induced by Cytokines Is Mediated by the Nuclear Factor- κ B/AMP-Activated Kinase/Myosin Light Chain Kinase Pathway 89
Ancy D. Nalli, Divya P. Kumar, Sunila Mahavadi, Othman Al-Shboul, Reem Alkahtani, John F. Kuemmerle, John R. Grider, and Karnam S. Murthy

INFLAMMATION, IMMUNOPHARMACOLOGY, AND ASTHMA

- S Role of microRNAs in Resveratrol-Mediated Mitigation of Colitis-Associated Tumorigenesis in *Apc*^{Min/+} Mice 99
Ibrahim Altamemi, E. Angela Murphy, James F. Catroppo, Elizabeth E. Zumbun, Jiajia Zhang, Jamie L. McClellan, Udai P. Singh, Prakash S. Nagarkatti, and Mitzi Nagarkatti

NEUROPHARMACOLOGY

- S Structure of the LINGO-1–Anti-LINGO-1 Li81 Antibody Complex Provides Insights into the Biology of LINGO-1 and the Mechanism of Action of the Antibody Therapy 110
R. Blake Pepinsky, Joseph W. Arndt, Chao Quan, Yan Gao, Omar Quintero-Monzon, Xinhua Lee, and Sha Mi
- Ractopamine, a Livestock Feed Additive, Is a Full Agonist at Trace Amine–Associated Receptor 1 124
Xuehong Liu, David K. Grandy, and Aaron Janowsky

TOXICOLOGY

- Macitentan Does Not Interfere with Hepatic Bile Salt Transport 130
Alexander Treiber, Päivi Äänismaa, Ruben de Kanter, Stephane Delahaye, Marianne Treher, Patrick Hess, and Patricia Sidharta
- S Trovafloxacin Enhances Lipopolysaccharide-Stimulated Production of Tumor Necrosis Factor- α by Macrophages: Role of the DNA Damage Response 164
Kyle L. Poulsen, Jesus Olivero-Verbel, Kevin M. Beggs, Patricia E. Ganey, and Robert A. Roth

S Supplemental material is available at <http://jpet.aspetjournals.org>.

About the cover: Possible assemblies of LINGO-1–Li81 Fab complex based on crystal symmetry. See the article by Pepinsky et al. ([dx.doi.org/10.1124/jpet.113.211771](https://doi.org/10.1124/jpet.113.211771)).
