Acetone diacetic acid, dilactone of, and beta angelica lactone in cats, The toxicity and vermicial properties of the	355
Acid, acetone diacetic, dilactone of, and beta angelica lactone in cats, The toxicity and vermicial properties of the	355
Acids, organic, ammonium salts of, The administration of large amounts of	525
Adrenalin, Effects of long continued administration of	301
Adrenaline-like substance, an, ephedrine sulphate and epinephrine chloride, A comparative study of the effect upon rat and rabbit tissues of	519
Affleck, A. M. Effects of long continued administration of adrenalin	301
Alkaloids, ergot, on the sympathetic nervous system, The specific action of	657
—, some opium, on intestinal movements in cats, Effect of	477
Ammonia reflex in the rabbit, The nature of the strychnin reversal of the	419
Ammonium salts of organic acids, The administration of large amounts of	525
— salicylate, Actions of, compared with sodium salicylate	319
Anthelmintics, Dilactone and beta angelica lactone as	355
Atropine, The antagonisms of pilocarpine and, and of pilocarpine and hyoscyamine on the isolated intestine of the cat	411
Austin, V. Thomas, and Myers, Harold B. Nitrite toleration	227
Bailey, Percival, Van Dyke, H. B., and Bucy, Paul C. The oxytocic substance of cerebrospinal fluid	595

Belk, W. P., Karr, W. G., and Petty, O. H. The toxicity of synthalin	611
Belladonna extract, The physiological assay of a	411
Beta angelica lactone, Dilactone and, as anthelmintics	355
— angelica lactone in cats, The toxicity and vermicial properties of the dilactone of acetone diacetic acid and	355
Biological assay of ergot preparations, The	85
Bischoff, Fritz, and Maxwell, L. C. The solubility of lead salts in physiological salt solutions	279
—, Long, M. Louisa, and Sahyun, Melville. Investigation of the hypoglycemic properties of reglykol, pancrepatine, and papaw	311
Blood and cerebro-spinal fluid, sugar in, Experimental study on the	231
Blood-coagulation time, normal human, The effect of ceanothyn extract on the	173
Blood pressure in unanesthetized animals as affected by "vasopressin," "oxytocin," pituitary extract and other drugs	155
— pressure, pulse and respiration, comparative effects of ephedrine and epinephrine on, with reference to their alteration by cocaine	569
