

INDEX TO VOLUME XXXIX

Acute intoxication, The prevention of, from local anesthetics.....	397
Alcohol, caffeine, and tobacco, The action of, on the cardiac output (and its related functions) of normal man.....	313
Alcohols, twenty-three isomeric octyl, Pharmacological studies of.....	71
Alkaloidal product, The action of an, from the leaf of <i>Solanum pseudocapsicum</i> , L.....	387
Alkaloids, levorotatory, of the cinchona series, Idiosyncrasy to quinine, cinchonidine and ethylhydrocupreine and other: Further chemical delimitation of the idiosyncrasy; alteration in sensitiveness.....	417
American Society for Pharmacology and Experimental Therapeutics, The Scientific Proceedings of the.....	245
Amytal as an anesthetic for laboratory animals, Some observations on the suitability of.....	129
Analgesics and hypnotics.....	177
Anesthesia, nitrous oxide, A comparison of the premedication values of several barbituric acid derivatives in relation to.....	165
Anesthetic, Some observations on the suitability of amytal as an, for laboratory animals.....	129
Anesthetics, Local, derived from dialkylamino propandiols.....	457
—, local, The prevention of acute intoxication from.....	397
—, local, The testing of.....	329
Animals, laboratory, Some observations on the suitability of amytal as an anesthetic for.....	129
Antiperistalsis, peristalsis and, in excised ureters, The effect of epinephrine upon the rate of contraction and upon the conduction time of.....	449
Antisepsis and chemotherapy, Studies on the colloid chemistry of.....	13
— and chemotherapy, Studies on the colloid chemistry of.....	39
Antiseptics, certain, The ultramicroscopic examination of neoarsphenamine and of, and their effects upon protein solutions.....	13
Aqueous humor, The influence of drugs on the transmission of arsenic into the.....	153
Aromatic-aliphatic lactones, various, On the pharmacological action of....	59
Arsenic and crystalline glutathione, Biological and chemical studies of the relationship between.....	347
—, The influence of drugs on the transmission of, into the aqueous humor....	153
Atropine and epinephrine, Mydriatic actions of.....	187
Banerjea, Radhakrishna, Maity, Bibhuti Bhusan, Bhattacharyya, Tarapada, and Brahmachari, Upendranath. Chemotherapy of quinoline compounds. Part I. A preliminary report on the action of certain quinoline compounds on paramoecia.....	413
Barbituric acid derivatives, A comparison of the premedication values of several, in relation to nitrous oxide anesthesia.....	165

- Barlow, O. W., Lampe, I., and Stormont, M. F. A comparison of the pre-medication values of several barbituric acid derivatives in relation to nitrous oxide anesthesia. 165
- Bhattacharyya, Tarapada, Banerjea, Radhakrishna, Maity, Bibhuti Bhusan, and Brahmachari, Upendranath. Chemotherapy of quinoline compounds. Part I. A preliminary report on the action of certain quino ine compounds on paramoecia. 413
- Biometric methods, The application of, to digitalis standardization. 99
- Bischoff, Fritz, Long, M. Louisa, and Hill, Elsie. Studies in cancer chemotherapy. IX. The reaction of the blood in cancer. 425
- Blood pressure, human, An apparatus for continuously recording. 141
- pressure, pulse rate and respiration, Observations on the effect of pitressin on, in dogs. 275
- , The reaction of the, in cancer. 425
- Brahmachari, Upendranath, Bhattacharyya, Tarapada, Banerjea, Radhakrishna, and Maity, Bibhuti Bhusan. Chemotherapy of quinoline compounds. Part I. A preliminary report on the action of certain quinoline compounds on paramoecia. 413
- Bufo regularis, The action of the "parotid" gland secretion of. 1
- Bunnell, W. W., Hughson, D. T., Krause, A. C., Yudkin, A. M., and Stevens, M. A. The influence of drugs on the transmission of arsenic into the aqueous humor. 153
- Burn, J. H. The estimation of digitalis by pigeon-emesis and other methods. 221
- Caffeine, tobacco, and alcohol, The action of, on the cardiac output (and its related functions) of normal man. 313
- Calcium ions, hydrogen ions and digitalis, The relationships of. 111
- Cancer chemotherapy, Studies in. 425
- , The reaction of the blood in. 425
- Carbo animalis and carbo ligni, Pharmacological note on. 343
- ligni and carbo animalis, Pharmacological note on. 343
- Cardiac output (and its related functions) of normal man, The action of alcohol, caffeine, and tobacco, on the. 313
- Cardiovascular system, Some observations on the effect of pitressin upon the. 435
- Cavity, right ventricular, The absorption of drugs from the. 209
- Chemical constitution and pharmacological action, Studies on. 59
- Chemistry, colloid, of antiseptics and chemotherapy, Studies on the. 13
- , colloid, of antiseptics and chemotherapy, Studies on the. 39
- Chemotherapy, antiseptics and, Studies on the colloid chemistry of. 13
- , antiseptics and, Studies on the colloid chemistry of. 39
- , cancer, Studies in. 425
- , combination, The duplication in vitro of the "interference phenomenon" in. 39
- of quinoline compounds. 413
- Cinchona series, Idiosyncrasy to quinine, cinchonidine and ethylhydrocupreine and other levorotatory alkaloids of the: Further chemical delimitation of the idiosyncrasy; alteration in sensitiveness. 417
- Cinchonidine, quinine, and ethylhydrocupreine and other levorotatory alkaloids of the cinchona series, Idiosyncrasy to: Further chemical delimitation of the idiosyncrasy; alteration in sensitiveness. 417

- Colloid chemistry of antiseptics and chemotherapy, Studies on the 13
 — chemistry of antiseptics and chemotherapy, Studies on the 39
 Continuous-recording pens 137
- Dawson, W. T., and Garbade, Francis A. Idiosyncrasy to quinine, cinchonidine and ethylhydrocupreine and other levorotatory alkaloids of the cinchona series: Further chemical delimitation of the idiosyncrasy; alteration in sensitiveness 417
- De Lawder, A. M., and Geiling, E. M. K. Studies on crystalline insulin. XI. Does insulin cause an initial hyperglycemia? 369
- Detoxification of nicotine by ultraviolet rays 241
- Dialkylamino propandiols, Local anesthetics derived from 457
- Digitalis, calcium ions and hydrogen ions, The relationships of 111
 — standardization, The application of biometric methods to 99
 —, The estimation of, by pigeon-emesis and other methods 221
- Dogs, normal, trained, The effect of ergotamine on the oxygen consumption of 201
 —, Observations on the effect of pitressin on blood pressure, pulse rate and respiration in 275
- Drugs, Studies on the duration of action of 177, 187
 —, The absorption of, from the right ventricular cavity 209
 —, The influence of, on the transmission of arsenic into the aqueous humor. 153
- DuBois, Louis, and Nyiri, William. Experimental studies on heart tonics. II. The application of biometric methods to digitalis standardization. . 99
 —, and Nyiri, William. Experimental studies on heart tonics. III. The relationships of calcium ions, hydrogen ions and digitalis 111
- Ephedrine on the ureter 301
- Epinephrine and atropine, Mydriatic actions of 187
 —, The effect of, upon the rate of contraction and upon the conduction time of peristalsis and antiperistalsis in excised ureters 449
- Epstein, David, and Gunn, J. W. C. The action of the "parotid" gland secretion of *Bufo regularis* 1
- Ergotamine, Experimental and clinical studies of 201
 —, The effect of, on the oxygen consumption of normal, trained dogs 201
- Ethylhydrocupreine, quinine and cinchonidine and other levorotatory alkaloids of the cinchona series, Idiosyncrasy to: Further chemical delimitation of the idiosyncrasy; alteration in sensitiveness 417
- Garbade, Francis A., and Dawson, W. T. Idiosyncrasy to quinine, cinchonidine and ethylhydrocupreine and other levorotatory alkaloids of the cinchona series: Further chemical delimitation of the idiosyncrasy; alteration in sensitiveness 417
- Garry, R. C. Some observations on the suitability of amytal as an anesthetic for laboratory animals 129
- Geiling, E. M. K., and De Lawder, A. M. Studies on crystalline insulin. XI. Does insulin cause an initial hyperglycemia? 369
- Gland, "parotid," secretion of *Bufo regularis*, The action of the 1

Glutathione, crystalline, arsenic and, Biological and chemical studies of the relationship between.	347
Grollman, Arthur. The action of alcohol, caffeine, and tobacco, on the cardiac output (and its related functions) of normal man.	313
Gruber, Charles M. IV. The effect of epinephrine upon the rate of contraction and upon the conduction time of peristalsis and antiperistalsis in excised ureters.	449
—, and Kountz, William B. Observations on the effect of pitressin on blood pressure, pulse rate and respiration in dogs.	275
—, and Kountz, William B. Some observations on the effect of pitressin upon the cardiovascular system.	435
Gunn, J. W. C., and Epstein, David. The action of the "parotid" gland secretion of <i>Bufo regularis</i>	1
Heart tonics, Experimental studies on.	99
— tonics, Experimental studies on.	111
Heimann, H. L., Watt, J. M., and Meltzer, E. The action of an alkaloidal product from the leaf of <i>Solanum pseudocapsicum</i> , L.	387
Herwick, R. P., Knoefel, P. K., and Loevenhart, A. S. The prevention of acute intoxication from local anesthetics.	397
Hill, Elsie, Bischoff, Fritz, and Long, M. Louisa. Studies in cancer chemotherapy. IX. The reaction of the blood in cancer.	425
Hirschfelder, Arthur D., and Wright, Harold N. Studies on the colloid chemistry of antiseptics and chemotherapy. III. The ultramicroscopic examination of neoarsphenamine and of certain antiseptics, and their effects upon protein solutions.	13
—, and Wright, Harold N. Studies on the colloid chemistry of antiseptics and chemotherapy. IV. The duplication in vitro of the "interference phenomenon" in combination chemotherapy.	39
