

## INDEX TO VOLUME XLVI

Acid anterior pituitary extracts with KI, Armour's anterior pituitary with KI, and KI with thyroid substance, The effects of combinations of, upon basal metabolism in guinea pigs . . . . .	293
Alkaloids, the miotic, and atropine, The non-parasympathetic antagonism between . . . . .	395
Anesthesia in the rat, The use of sodium amytal in the production of . . . . .	125
—, nitrous oxide, in the rat, The pre-anesthetic value of scopolamine and mixtures of scopolamine and morphine in relation to . . . . .	131
—, nitrous oxide, The premedication values of morphine, codeine, papaverine, narcotine and pantopon in relation to . . . . .	141
Antidote, The use of basic sodium phosphate as an, for hypercalcemia in dogs. . . . .	431
Antisepsis, intestinal, The problem of—experimental observations on mice . . . . .	273
Armour's anterior pituitary with KI, acid anterior pituitary extracts with KI, and KI with thyroid substance, The effects of combinations of, upon basal metabolism in guinea pigs . . . . .	293
Arterial disease, hypertensive, Therapeutic results with bismuth subnitrate in. . . . .	343
Arteries, coronary, The influence of the heart beat upon the flow of blood into the . . . . .	477
Atropine and the miotic alkaloids, The non-parasympathetic antagonism between . . . . .	395
Barbital, iso-amyl-ethyl-barbituric acid (amytal), pentobarbital and phenobarbital, Concerning the relative pre-anesthetic values of the sodium salts of . . . . .	387
Barlow, O. W. The pre-anesthetic value of scopolamine and mixtures of scopolamine and morphine in relation to nitrous oxide anesthesia in the rat. . . . .	131
—, and Stormont, M. F. The premedication values of morphine, codeine, papaverine, narcotine and pantopon in relation to nitrous oxide anesthesia. . . . .	141
Barron, D. H., and Nicholas, J. S. The use of sodium amytal in the production of anesthesia in the rat . . . . .	125
Basal metabolism in guinea pigs, The effects of combinations of KI with acid anterior pituitary extracts, KI with Armour's anterior pituitary, and KI with thyroid substance upon . . . . .	293
Behrend, Allen, and Thienes, C. H. Chronic nicotinism in young rats and rabbits. Effect on growth and estrus . . . . .	113
Bischoff, Fritz, and Maxwell, L. C. Hormones in cancer. V. The effect of glandular extirpation upon the growth of transplantable tumors. . . . .	51
—, and Maxwell, L. C. Hormones in cancer. VI. The effect of glandular extirpation upon resistance to tumor tissue grafts . . . . .	59
Bismuth subnitrate, Therapeutic results with, in hypertensive arterial disease. . . . .	343

Blood, flow of, into the coronary arteries, The influence of the heart beat upon the.....	477

Sodium iodobismuthite and iodobismitol, Local, irritant and toxic actions of	1
— phosphate, basic, The use of, as an antidote for hypercalcemia in dogs	431
— salts, Concerning the relative pre-anesthetic values of the, of iso-amyl-ethyl-barbituric acid (amytal), pentobarbital, phenobarbital and barbital	387
Sommer, H., Prinzmetal, M., and Leake, C. D. The pharmacological action of "mussel poison"	63
Stehle, R. L. A method for studying variations in coronary inflow during a series of cardiac cycles, or for determining inflow rates generally	471
—, and Melville, K. I. The influence of the heart beat upon the flow of blood into the coronary arteries	477
Stewart, Jean F., and Boldyreff, Ephraim B. A study of gastric secretion caused by insulin	419
— and Boldyreff, Ephraim B. Vagus control of pancreatic function. Experimental insulin resistance	407
Stieglitz, Edward J. Therapeutic results with bismuth subnitrate in hypertensive arterial disease	343
Stormont, M. F., and Barlow, O. W. The premedication values of morphine, codeine, papaverine, narcotine and pantopon in relation to nitrous oxide anesthesia	141
Strophanthus and digitalis, On the biological assay of	229
Swanson, Edward E. Concerning the relative pre-anesthetic values of the sodium salts of iso-amyl-ethyl-barbituric acid (amytal), pentobarbital, phenobarbital and barbital	387
Synergism and antagonism of drugs, Studies on the	395
Tainter, M. L. The influence of cocainization and ergotaminization on the pressor responses to musculotropic agents	27
Thermic changes, Vasodilator action of sodium ethyl-(1-methyl-butyl)-barbiturate (nembutal "844"), as measured by	335
Thienes, C. H., and Behrend, Allen. Chronic nicotinism in young rats and rabbits. Effect on growth and estrus	113
Thurston, Eric W., and Siebert, Walter J. The effects of combinations of KI with acid anterior pituitary extracts, KI with Armour's anterior pituitary, and KI with thyroid substance upon basal metabolism in guinea pigs	293
Thyroid substance with KI, acid anterior pituitary extracts with KI, and KI with Armour's anterior pituitary, The effects of combinations of, upon basal metabolism in guinea pigs	293
Tolerant and non-tolerant animals, Excretion of morphine in	201
Tumor tissue grafts, The effect of glandular extirpation upon resistance to	59
Tumors, transplantable, The effect of glandular extirpation upon the growth of	51
Tyramine and ephedrine, The action of	75
Unanesthetized dog, normal, The action of quinidine on the heart in the	357
Uric acid eliminants, various, On the action of, upon experimetal uric acid storage in the kidney	461

Uric acid storage, experimental, in the kidney, On the action of various uric acid eliminants upon .....	461
Vagus control of pancreatic function.....	407
Vasodilator action of sodium ethyl-(1-methyl-butyl)-barbiturate (nembutal "844"), as measured by thermic changes .....	335
Vomiting, Studies on.....	97
