

INDEX TO VOLUME XLVII

Acetyl choline, pituitrin, certain pituitary fractions, pitressin, pitocin, histamine, and pilocarpine injected into the cerebral ventricles of monkeys.	17
Adenosine, The action on cardiac musculature and the vagomimetic behavior of.	365
Adonis vernalis, A contribution to the pharmacology of.	217
Adrenalin on isolated strips from the turtle's heart, Distribution of thoracic sympathetic motor fibers in the divisions of the heart determined by the action of.	237
—, The action of pituitary extract upon the blood pressure of the normal unanesthetized animal and the effects of ephedrine or, thereupon.	355
Aldehydes, aliphatic, Comparative pharmacology of some condensation products of phenols with.	377
Aliphatic aldehydes, Comparative pharmacology of some condensation products of phenols with.	377
Alles, Gorden A. The comparative physiological actions of dl- β -phenylisopropylamines. I. Pressor effect and toxicity.	339
Amytal (sodium isoamyl-ethyl barbiturate) and ethylene, ether, ethylene, and ethylene and tribromethyl alcohol (avertin), Effect on kidney function of.	141
Anaphylactic and histamine shock in the guinea pig, A comparison of the bronchodilating action of several anti-asthmatic agents after.	111
Anesthesia, experimental spinal, Observations on.	151
—, The influence of, on the cerebrospinal fluid pressure response to histamine and epinephrine.	95
Anesthetic, a new local, Piperidinopropanediol di-phenylurethane hydrochloride.	255
— action of divinyl oxide in animals, The.	5
— action of divinyl oxide on humans, The.	1
Anesthetics, local, of urethane type.	69
Animals, The anesthetic action of divinyl oxide in.	5
Anterior lobe of the pituitary body, Further observations on the gonad-stimulating principle of the.	163
— lobe of the pituitary body, The inhibition of oestrus by extracts of the.	269
Anti-asthmatic agents after anaphylactic and histamine shock in the guinea pig, A comparison of the bronchodilating action of several.	111
Avertin (tribromethanol) narcosis in the treatment of lung edema induced by chemical irritation.	47
— (tribromethyl alcohol) and ethylene, ether, ethylene, and ethylene and sodium isoamyl-ethyl barbiturate (amytal), Effect on kidney function of.	141

- Barlow, O. W., and Beams, Argyl J. A comparison of the bronchodilating action of several anti-asthmatic agents after anaphylactic and histamine shock in the guinea pig. 111
- Beams, Argyl J., and Barlow, O. W. A comparison of the bronchodilating action of several anti-asthmatic agents after anaphylactic and histamine shock in the guinea pig. 111
- Bell, Irving R., and Gelfan, Samuel. The anesthetic action of divinyl oxide on humans. 1
- Bishop, Courtney C., Light, Richard U., and Kendall, Lee G. The response of the rabbit to pilocarpine administered into the cerebrospinal fluid. . . . 37
- Blood and the cerebrospinal fluid, The chemistry of, in the cataleptoid state induced by bulbocapnine. 131
- pressure, The action of pituitary extract upon the, of the normal unanesthetized animal and the effects of ephedrine or adrenaline thereupon. . . 355
- Brain extract, The effect of sodium isoamylethylbarbiturate (sodium amytal) upon the depressor action of. 107
- Bronchodilating action of several anti-asthmatic agents, A comparison of the, after anaphylactic and histamine shock in the guinea pig. 111
- (*Bufo bufo bufo*), common European toad, The physiological action of the principles isolated from the secretion of the. 307
- (*Bufo valliceps*), Relative susceptibility of the nebulous toad, and the leopard frog (*Rana pipiens*) to different substances. 295
- Bulbocapnine and some other drugs, The combined effect of. 131
- , The chemistry of the blood and the cerebrospinal fluid, in the cataleptoid state induced by. 131
- Bysse, Stanley M., and Light, Richard U. The administration of drugs into the cerebral ventricles of monkeys: pituitrin, certain pituitary fractions, pitressin, pitocin, histamine, acetyl choline, and pilocarpine. 17
- Calcium, effect of, on the chemistry of the blood and the cerebrospinal fluid in the cataleptoid state induced by bulbocapnine. 131
- gluconate and Scillaren-B, Some inter-relationships of the cardiac activities of. 183
- , Studies on. VI. Some inter-relationships of the cardiac activities of calcium gluconate and Scillaren-B. 183
- Carbazol derivatives. 69
- Cardiac activities of calcium gluconate and Scillaren-B, Some inter-relationships of the. 183
- musculature, The action on, and the vagomimetic behavior of adenosine. 365
- Cataleptoid state induced by bulbocapnine, The chemistry of the blood and the cerebrospinal fluid in the. 131
- Cerebral ventricles of monkeys, The administration of drugs into the. . . . 17
- Cerebrospinal fluid and the blood, The chemistry of, in the cataleptoid state induced by bulbocapnine. 131
- fluid pressure response to histamine and epinephrine, The influence of anesthesia on the. 95
- fluid, The response of the rabbit to pilocarpine administered into the. 37

- Chemopharmacodynamic relationships: Comparative pharmacology of some condensation products of phenols with aliphatic aldehydes..... 377
- Chen, A. Ling, and Chen, K. K. Notes on the poisonous secretions of twelve species of toads..... 281
- , and Chen, K. K. Relative susceptibility to the nebulous toad (*Bufo valliceps*) and the leopard frog (*Rana pipiens*) to different substances.. 295
