

INDEX TO VOLUME V

Abel, John J., Rowntree, Leonard G., and Turner, B. B. On the removal of diffusible substances from the circulating blood of living animals by dialysis.....	275, 611
Abel, John J., Rowntree, L. G., and Turner, B. B. Plasma removal with return of corpuscles (Plasmapheresis).....	625
Action of certain drugs on the bronchioles.....	479
Action of certain drugs on the uterus of the guinea-pig and of the rat.....	527
Action of muscarine on the electrical response of the heart.....	425
Action of nitrites and drugs of the digitalis group on the isolated coronary artery.....	77
Action of serum on the perfused heart of the rabbit.....	1
Adrenaline, The reversible action of, on the bronchioles.....	87
Alcohol, The absorption of.....	185
Alkaloids of quebracho.....	341
Alsberg, C. L., and Smith, C. S. Studies upon the long continued feeding of saponin (Proceedings).....	517
American Society for Pharmacology and Experimental Therapeutics. Scientific proceedings of the.....	511
Anaesthetic tension of ether vapor in man, The determination of the.....	379
Antipyrin, Paradoxical action of, in partially and completely decerebrate rabbits.....	149
Apparatus for the perfusion of isolated organs especially the isolated mammalian heart.....	57
Atophan and novatophan, The effect of, on the endogenous uric acid excretion of normal men.....	63
Atropin, Quantitative studies of vagus stimulation and.....	317
Auer, John, and Meltzer, S. J. Effect of ether inhalation upon the skeletal motor mechanism (Proceedings).....	521
Auer, John and Meltzer, S. J. Fatal action of magnesium sulphate by absorption from the intestines (Proceedings).....	524
Barbour, Henry G. Two types of periodic respiration due to morphin....	393
Barbour, Henry G., and Deming, Clyde L. II. Paradoxical action of antipyrin in partially and completely decerebrate rabbits.....	149
Barbour, Henry G., and Wing, Elihu S. I. The direct application of drugs to the temperature centers.....	105
Becht, F. C., and McGuigan, Hugh. The site of the action of strychnine....	469
Beri-beri, The treatment of experimental, with extracts of spinal cord....	67
Boothby, Walter M. The determination of the anaesthetic tension of ether vapor in man.....	379
Boothby, Walter M. and Sandiford, I. The calibration of the Waller gas balance and the Connell anaesthetometer.....	369

Bronchioles, The action of certain drugs on the.....	479
Bronchioles, The reversible action of adrenaline and some kindred drugs on the.....	87
Buck, Leonard W. Effects of chloroform and of ether anesthesia on the protein contents of the blood serum of rabbits.....	553
Calibration of the Waller gas balance and the Connell anaesthetometer...	369
Camphor, Experiments on the cardiac action of.....	571
Cardiac action of camphor, Experiments on the.....	571
Cardiac action of drugs, A note on the efficiency of the Knowlton-Starling isolated heart-lung preparation for testing the.....	603
Cardiac tissue, Mode of action of strophanthin upon.....	215
Carlson, A. J., and Woelfel, A. The solubility of lead sulphide ores and of lead sulphide in human gastric juice.....	549
Chloroform and ether anesthesia on the protein contents of the blood serum of rabbits, Effects of.....	553
Circulatory system, Observations on the changes in the, in periodic respiration.....	357
Clark, A. J. The mode of action of strophanthin upon cardiac tissue.....	215
Clark, A. J., and Hamill, P. Observations on the changes in the circulatory system in periodic respiration.....	357
Closson, Oliver E. Time recorder for kymograph tracings.....	235
Cohn, A. E. and Fraser, F. R. Certain effects of digitalis on the heart (Proceedings).....	512
Collins, Russell J and Hanzlik, Paul J. Quantitative studies on the gastrointestinal absorption of drugs. III. The absorption of alcohol.....	185
Colloids, The swelling of, and hydrogen ion concentration.....	449
Connell anaesthetometer, The calibration of the Waller gas balance and the.....	369
Coronary artery, The action of nitrites and drugs of the digitalis group on the isolated.....	77
Corpuscles, Plasma removal with return of.....	625
Cow, Douglas. The alkaloids of quebracho.....	341
Cushny, A. R., and Gunn, J. A. The action of serum on the perfused heart of the rabbit.....	
Deming, Clyde L., and Barbour Henry G. II. Paradoxical action of anti-pyrim in partially and completely decerebrate rabbits.....	149
Determination of the anaesthetic tension of ether vapor in man.....	379
Dialysis, Removal of diffusible substances from the circulating blood of living animals by.....	275, 611
Direct application of drugs to the temperature centers.....	105
Dixon, W. E., and Ransom, Fred. The effect of the respiration of altered vascular conditions in the lungs.....	539
Edmunds, C. W. Anaphylaxis in the cat and opossum (Proceedings).....	518
Edmunds, C. W. A simple liver plethysmograph (Proceedings).....	520
Effect of atophan and novatophan on the endogenous uric acid excretion of normal men.....	63
Effect of certain oxidizing substances and of acids and alkalies on the isolated mammalian heart.....	21

Effect on the respiration of altered vascular conditions in the lungs.....	539
Effects of chloroform and of ether anesthesia on the protein contents of the blood serum of rabbits.....	553
Eggleston, Cary, and Hatcher, Robert A. Studies in the absorption of drugs. (Proceedings).....	516
Electrical response of the heart, The action of muscarine on.....	425
Experiments on the cardiac action of camphor.....	571
Eyster, J. A. E., and Loevenhart, A. S. An apparatus for the perfusion of isolated organs especially the isolated mammalian heart.....	57
Eyster, J. A. E., and Loevenhart, A. S. The effect of certain oxidizing substances and of acids and alkalis on the isolated mammalian heart.....	21
Fraser, F. R., and Cohn, A. E. Certain effects of digitalis on the heart (Proceedings).....	512
Gasser, H. S., and Loevenhart, A. S. The mechanism of stimulation of the medullary centers by decreased oxidation.....	239
Gastric juice, The solubility of lead sulphide ores and of lead sulphide in human.....	549
Gastro-intestinal absorption of drugs, Quantitative studies on the.....	185
Githens, T. S., and Meltzer, S. J. The irritability of motor nerves in chloroform anesthesia (Proceedings).....	523
Githens, T. S. and Meltzer, S. J. The nature of the cessation of respiration in deep ether anesthesia (Proceedings).....	523
Golla, F. L., and Symes, W. L. The reversible action of adrenaline and some kindred drugs on the bronchioles.....	87
Gunn, James A., and Cushny, A. R. The action of serum on the perfused heart of the rabbit.....	1
Gunn, James A., and Gunn, John W. C. The action of certain drugs on the uterus of the guinea-pig and of the rat.....	527
Hamill, P., and Clark, A. J. Observations on the changes in the circulatory system in periodic respiration.....	357
Hanzlik, Paul J. The liberation of formaldehyde from hexamethylenamin in pathological fluids (Proceedings).....	518
Hanzlik, Paul J., and Collins, Russell J. Quantitative studies on the gastro-intestinal absorption of drugs. III. The absorption of alcohol.....	185
Haskins, Howard D. The effect of atophan and novatophan on the endogenous uric acid excretion of normal men.....	63
Hatcher, Robert A., and Eggleston, Cary. Studies in the absorption of drugs (Proceedings).....	516
Heart of the rabbit, The action of serum on the perfused.....	1
Hecht, Selig and Salant, William. Further observations on the action of ergot (Proceedings).....	517
Henderson, Lawrence J., Palmer, Walter W., and Newburgh, L. H. The swelling of colloids and hydrogen ion concentration.....	449
Hiss, Philip Hanson, Jr. Obituary (Proceedings).....	511
Hydrogen ion concentration, The swelling of colloids and.....	449
Isolated coronary artery, The action of nitrites and drugs of the digitalis group on the.....	77

Isolated mammalian heart, Apparatus for the perfusion of isolated organs, especially the.....	57
Isolated mammalian heart, The effect of certain oxidizing substances and of acids and alkalies on the.....	21
Jackson, D. E. The action of certain drugs on the bronchioles.....	479
Jackson, D. E. The pharmacological action of certain substances on the bronchioles (Proceedings).....	519
Kahn, Max, and Salant, William. Further observations on caffein glycosuria (Proceedings).....	512
Kahn, Max, and Sallant, William. Production of glycosuria by zinc (Proceedings).....	512
Knowlton-Starling isolated heart-lung preparation for testing the cardiac action of drugs, A note on the efficiency of the.....	603
Kymograph tracings, Time recorder for.....	235
Lead sulphide ores and lead sulphide, The solubility of, in human gastric juice.....	549
Loevenhart, A. S. Action of tetramethyl ammonium chloride on the respiration and circulation (Proceedings).....	515
Loevenhart, A. S., and Eyster, J. A. E. Apparatus for the perfusion of isolated organs especially the isolated mammalian heart.....	57
Loevenhart, A. S., and Eyster, J. A. E. Effect of certain oxidizing substances and of acids and alkalies on the isolated mammalian heart.....	21
Loevenhart, A. S., and Gasser, H. S. The mechanism of stimulation of the medullary centers by decreased oxidation.....	239
Lungs, The effect on the respiration of altered vascular conditions in the...	539
McGuigan, Hugh, and Becht, F. C. The site of the action of strychnine...	469
Macht, D. I. Action of the iodides on the heart and blood-vessels (Proceedings).....	514
Macht, D. I., and Voegtlin, Carl. The action of nitrites and drugs of the digitalis group on the isolated coronary artery.....	77
MacNider, Wm. de B. The vascular response of the kidney in acute uranium nephritis. The influence of the vascular response on diuresis (Proceedings).....	520
Mechanism of stimulation of the medullary centers by decreased oxidation.	239
Medullary centers, Mechanism of stimulation of the, by decreased oxidation	239
Meltzer, S. J., and Auer, John. Effect of ether inhalation upon the skeletal motor mechanism (Proceedings).....	521
Meltzer, S. J., and Auer, John. Fatal action of magnesium sulphate by absorption from the intestines (Proceedings).....	524
Meltzer, S. J., and Githens, T. S. The irritability of motor nerves in chloroform anesthesia (Proceedings).....	523
Meltzer, S. J., and Githens, T. S. The nature of the cessation of respiration in deep ether anesthesia (Proceedings).....	523
Mines, George Ralph. On the action of muscarine on the electrical response of the heart.....	425
Mode of action of strophanthin upon cardiac tissue.....	215
Morphin, Two types of periodic respiration due to.....	393
Muscarine, The action of, on the electrical response of the heart.....	425

Myers, H. B., and Wallace, George B. Uranium glycosuria (Proceedings) ..	511
New standard for the determination of the strength of pituitary extracts ...	559
Newburgh, L. H., Henderson, Lawrence J., and Palmer, Walter W. The swelling of colloids and hydrogen ion concentration	449
Nitrites, The action of, on the coronary artery	77
Novatophan, The effect of atophan and, on the endogenous uric acid excretion of normal men	63
Observations on the changes in the circulatory system in periodic respiration	357
Oxidizing substances, The effect of certain, on the isolated mammalian heart	21
Palmer, Walter W., Newburgh, L. H., and Henderson, Lawrence J. The swelling of colloids and hydrogen ion concentration	449
Paradoxical action of antipyrin in partially and completely decerebrate rabbits	149
Perfusion of isolated organs, Apparatus for the	57
Periodic respiration, Observations on the changes in the circulatory system in	357
Periodic respiration, Two types of, due to morphin	393
Pilcher, J. D. and Sollmann, Torald. Quantitative studies of vagus stimulation and atropin	317
Pituitary extracts, A new standard for the determination of the strength of	559
Plant, O. H. Experiments on the cardiac action of camphor	571
Plant, O. H. Experiments on the cardiac action of camphor (Proceedings).	513
Plant, O. H. A note on the efficiency of the Knowlton-Starling isolated heart-lung preparation for testing the cardiac action of drugs	603
Plasma removal with return of corpuscles (Plasmapheresis)	625
Plasmapheresis	625
Quantitative studies of vagus stimulation and atropin	317
Quantitative studies on the gastro-intestinal absorption of drugs. III. The absorption of alcohol	185
Quebracho, The alkaloids of	341
Ransom, Fred, and Dixon, W. E. The effect on the respiration of altered vascular conditions in the lungs	539
Removal of diffusible substances from the circulating blood of living animals by dialysis	275, 611
Reversible action of adrenaline and some kindred drugs on the bronchioles.	87
Roth, George B. A new standard for the determination of the strength of pituitary extracts	559
Rowntree, Leonard G., Turner, B. B., and Abel, John J. On the removal of diffusible substances from the circulating blood of living animals by dialysis	275, 611
Rowntree, L. G., Turner, B. B., and Abel, John J. Plasma removal with return of corpuscles (Plasmapheresis)	625
Salant, William, and Hecht, Selig. Further observations on the action of ergot (Proceedings)	517
Salant, William, and Kahn, Max. Further observations on caffen glycosuria (Proceedings)	512

Salant, William, and Kahn, Max. Production of glycosuria by zinc (Proceedings).....	512
Salant, William, and Smith, C. S. The influence of sodium tartrate on the circulation (Proceedings).....	515
Salant, William, and Smith, C. S. The toxicity of tin (Proceedings).....	517
Sandiford, I., and Boothby, W. M. The calibration of the Waller gas balance and the Connell anaesthetometer.....	369
Serum, The action of, on the perfused heart of the rabbit.....	1
Site of the action of strychnine.....	469
Smith, C. S., and Alsberg, C. L. Studies upon the long continued feeding of saponin (Proceedings).....	517
Smith, C. S., and Salant, William. The influence of sodium tartrate on the circulation (Proceedings).....	515
Smith, C. S., and Salant, William. The toxicity of tin (Proceedings).....	517
Sollmann, Torald, and Pilcher, J. D. Quantitative studies of vagus stimulation and atropin.....	317
Solubility of lead sulphide ores and of lead sulphide in human gastric juice.....	549
Spinal cord, The treatment of experimental beri-beri with extracts of.....	67
Strophanthin, Mode of action of, upon cardiac tissue.....	215
Strychnine, The site of the action of.....	469
Swelling of colloids and hydrogen ion concentration.....	449
Symes, W. L., and Golla, F. L. The reversible action of adrenaline and some kindred drugs on the bronchioles.....	87
Taylor, Lester. Clinical studies with caffeine (Proceedings).....	516
Temperature centers, The direct application of drugs to the.....	105
Time recorder for kymograph tracings.....	235
Towles, Caroline, and Voegtlin, Carl. The treatment of experimental beri-beri with extracts of spinal cord.....	67
Turner, B. B., Abel, John J., and Rowntree, Leonard G. On the removal of diffusible substances from the circulating blood of living animals by dialysis.....	275, 611
Turner, B. B., Abel, John J., and Rowntree, L. G. Plasma removal with return of corpuscles (Plasmapheresis).....	625
Two types of periodic respiration due to morphin.....	393
Uric acid excretion, The effect of atophan and novatophan on the endogenous, of normal men.....	63
Uterus of the guinea-pig and of the rat, The action of certain drugs on the.....	527
Vagus stimulation and atropin, Quantitative studies of.....	317
Voegtlin, Carl, and Macht, D. I. The action of nitrites and drugs of the digitalis group on the isolated coronary artery.....	77
Voegtlin, Carl, and Towles, Caroline. The treatment of experimental beri-beri with extracts of spinal cord.....	67
Wallace, George B., and Myers, H. B. Uranium glycosuria (Proceedings).....	511
Waller gas balance, The calibration of the, and the Connell anaesthetometer.....	369
Wing, Elihu S., and Barbour, Henry G. 1. The direct application of drugs to the temperature centers.....	105
Woelfel, A., and Carlson, A. J. The solubility of lead sulphide ores and of lead sulphide in human gastric juice.....	549
