INDEX

Acetanilid, Prolonged administration of large doses of, in monkeys with special reference to blood changes, 1
Acetyl choline, Nature of pilomotor response to; pharmacodynamics of the skin, 301
Alcohol, Absorption, distribution and elimination of, 482
Influence on absorption of, by glycol, 482
propylene glycol, and other glycols, Comparative effects of, on liver directly, 194
Alkalosis, Respiratory, during anesthesia. I. Effects on circulatory, respiratory, and muscular activity, 365
II. Influence on survival, 383
Alkylthiobenzoates, their surface anesthesia, toxicity and systemic effects, 395
Amytal or morphine, Effect of premedication with, on heart rate, rhythm, and blood pressure in dogs under cyclopropane anesthesia, 85
Anesthesia, local, intensity and duration of, effect of quantity on, determined by new test, 389
Respiratory alkalosis during. I. Effects on circulatory, respiratory, and muscular activity, 365
Respiratory alkalosis during. II. Influence on survival, 383
Spinal, in dog, 437
spinal, in rabbit, Prevention of blood pressure fall during, 141
surface, toxicity and systemic effects of alkyl thiobenzoates, 395
Anesthetic bases, local, action of, Rôle of changes in extracellular and intracellular hydrogen ion concentration in, 330
effects of barbituric acid derivatives, Extracellular and intracellular hydrogen ion concentration in relation to, 312
Arginase and urease, effect of selenium on, 230
Barbital, Metabolic fate of N-substituted derivatives of, 278
Barbituric acid derivatives, anesthetic effects of, Extracellular and intracellular hydrogen ion concentration in relation to, 312
Barium chloride, intravenous administration of, Cardiovascular changes following, 113
Baxter, James H., Jr., and Robbins, Benjamin H. Studies of cyclopropane. VIII. Effect of premedication with morphine or amytal on heart rate, rhythm, and blood pressure in dogs under cyclopropane anesthesia, 85
Beard, Howard H., and Koven, A. Link. Effect of parenteral injection of certain methylated purines upon creatine-creatinine metabolism, 80
de Beer, Edwin J., Buck, J. S., Fassett, D. W., and Hjort, A. M. Pharmacological properties of unsymmetrical ethyl-o-ethylphenylurea, 56
Fassett, David W., and Hjort, Axel M. Hypnotic effect of repeated injections of unsymmetrical ethyl-o-ethylphenylurea in albino rats and influence of sex thereon, 62
Fassett, David W., and Hjort, Axel M. Some tetrahydroisoquinolines. Note on relative lethal and circulatory effects of some 2-alkyl derivatives, 69
Fassett, David W., and Hjort, Axel M. Some tetrahydroisoquinolines. IV. Circulatory adrenolytic effect, 73
Bennett, A. L., McIntyre, A. R., Wagner, J. C., and Sievers, R. F. Spinal anesthesia in dog, 437
Benzedrine, Detoxication and excretion of, 419
sulphate, Responses of intestinal smooth muscle of dog to, 14
Benzylsulfanilamide and sulfanilamide, Experimental comparison of, 201
INDEX

Bieter, Raymond N., and Cranston, Elizabeth M. Prevention of blood pressure fall during spinal anesthesia in rabbit, 141
Blacktongue curative effect of pyridine-β-carboxylic acid diethylamide, 458
Blood changes in monkeys, special reference to, in Prolonged administration of large doses of acetylalil, 10
Blood pressure and intestine, effect on, of morphine, 96
fall, Prevention of, during spinal anesthesia in rabbit, 141
heart rate, and rhythm, effect on, of premedication with morphine or amytal, in dogs under cyclopropane anesthesia, 85
vagus nerve, and respiration, Effect on, of sodium diphenyl hydantoinate, 36
Brodie, B. B., and Wallace, G. B. Passage of bromide, iodide and thiocyanate into and out of cerebrospinal fluid, 50
Bromide, iodide and thiocyanate, Passage of, into and out of cerebrospinal fluid, 50
Brucellosis, experimental, of mice, therapeutic activity of sulfanilamide and allied compounds in, 406
Buck, J. S., Fassett, D. W., Hjort, A. M., and de Beer, E. J. Pharmacological properties of unsymmetrical ethyl-o-ethylphenylurea, 50
Bulbring, Edith, and Burn, J. H. Effect of sympathomimetic and other substances on contraction of skeletal muscle, 150
Burn, J. H., and Bulbring, Edith. Effect of sympathomimetic and other substances on contraction of skeletal muscle, 150
Bush, Milton T., and Butler, Thomas C. Metabolic fate of N-substituted derivatives of barbital, 278
Butler, Thomas C., and Bush, Milton T. Metabolic fate of N-substituted derivatives of barbital, 278
Calcium-potassium ratio and drug action, Relation between, in striated muscle, 494
Carbon tetrachloride poisoning, Protective action of xanthine against, 185
Cardiovascular changes following intravenous administration of barium chloride, 113
Cattell, McKeen, and Guttman, S. A. Effects of digitoxin and potassium on striated muscle, 267
Cerebrospinal fluid, Passage of bromide, iodide and thiocyanate into and out of, 50
Chen, K. K., Harris, Paul N., and Rose, Charles L. Action and toxicity of platyphilline and seneciphylline, 130
Harris, Paul N., and Schulze, Hans A. Toxicity of laciocarpine, 123
Krahl, M. E., and Keltch, A. K. Role of changes in extracellular and intracellular hydrogen ion concentration in action of local anesthetic bases, 330
Coon, Julius M., and Rothman, Stephen. Nature of pilomotor response to acetylcholine; pharmacodynamics of the skin, 301
Corbell, R. L., Jr., and Haag, H. B. Effect of age of cats on susceptibility to digitalis, 45
Cranston, Elizabeth M., and Bieter, Raymond N. Prevention of blood pressure fall during spinal anesthesia in rabbit, 141
Levine, Milton, Bieter, Raymond N., and Larson, W. P. Administration of drugs in food for chemotherapy studies in mouse pneumococcus infection, 252
Creatine-creatine metabolism, Effect upon, of parenteral injection of certain methylated purines, 80
INDEX

Cyanide poisoning, Thiocyanate formation in, as affected by methylene blue and sodium nitrite, 351

Cyclopropane, Studies of. VIII. Effect of premedication with morphine or amytal on heart rate, rhythm, and blood pressure in dogs under cyclopropane anesthesia, 85

Dameshek, William, Myerson, Abraham, Rinkel, Max, and Loman, Julius. Effect of furfuryl trimethyl ammonium iodides on various autonomic functions in man, 476

Depression, acute alcoholic, Use of pentamethylenetetrazol as respiratory stimulant in, 41

Digitalis, susceptibility to, effect of age of cats on, 45

Digitoxin and potassium, Effects of, on striated muscle, 267

Dog, Spinal anesthesia in, 437

Drake, Miles E., and Haury, Victor G. Effect of intravenous injections of sodium diphenyl hydantoinate on respiration, blood pressure, and vagus nerve, 36

Gruber, Charles M., and Haury, Victor G. Toxic actions of sodium diphenyl hydantoinate when injected intraperitoneally and intravenously in experimental animals, 433

Drug action and calcium-potassium ratio, Relation between, in striated muscle, 494

Epinephrine, Influence of, on shivering and on metabolism in cold, 247

Estrogen, Peripheral vascular action of, observed in ear of rabbit, 173

Ethyl-o-ethylphenylurea, unsymmetrical, Hypnotic effect of repeated injections of, in albino rats, and influence of sex thereon, 62

unsymmetrical, Pharmacological properties of, 56

Farah, Alfred, and Pinkston, J. O. Response of intestinal smooth muscle of dog to benzedrine sulphate, 14

Fassett, David W., Hjort, Axel M., and de Beer, Edwin J. Hypnotic effect of repeated injections of unsymmetrical ethyl-o-ethylphenylurea in albino rats and influence of sex thereon, 62

Hjort, Axel M., and de Beer, Edwin J. Some tetrahydroisoquinolines. IV. Circulatory adrenolytic effects, 73

Hjort, A. M., de Beer, E. J., and Buck, J. S. Pharmacological properties of unsymmetrical ethyl-o-ethylphenylurea, 56

Fellows, Edwin J., and Livingston, A. E. Pharmacology of certain furfuryl and tetrahydro-furfuryl ammonium iodides, 231

Fluorocarbons, saturated, Pharmacological properties of, 217

Forbes, J. C., and Outhouse, E. L. Studies on mechanism of protective action of xanthine against carbon tetrachloride poisoning, 185
