CONTENTS

NUMBER 1, JANUARY, 1941

I. The Toxicity of Strontium and Calcium. Versa V. Cole, Ben K. Harned and Roberta Hafkesbring ........................................ 1

II. The Action of Strontium and Calcium on the Uterus. Ben K. Harned and Versa V. Cole ................................................. 6

III. The Effect of Para-Aminobenzoic Acid on the Bacteriostatic Action Produced by Sodium Paranimrobenzoate on a Strain of Streptococcus Viridans. John K. Miller .................................................. 14

IV. Some Toxicological and Pharmacological Properties of the Proteolytic Enzyme, Ficin. Hans Molitor, Charles W. Mushett and Samuel Kuna 20

V. A Comparison of the Infantile and Adult Rat Methods for the Assay of the Oestrus-Inducing Gonadotrophic Substance. R. D. Heard .......... 30

VI. The Electrolytic Dissociation of Morphine Derivatives and Certain Synthetic Analgetic Compounds. Fred W. Oberst and Howard L. Andrews ................................................................. 38

VII. The Effects of Certain Chemical Changes on the Addiction Characteristics of Drugs of the Morphine, Codeine Series. C. K. Himmelsbach 42

VIII. A Comparison of the Response of Yaws and Syphilis in the Rabbit to Therapy with Mapharsen and Neoarsphenamine. B. J. Longley, N. M. Clauzen and A. L. Tatum ...................................................... 49

IX. Chemotherapeutic Activity of N-Acylsulfanilhydroxamides. Bettylee Hampil, G. W. Webster and Maurice L. Moore .......................... 52

X. The Local Anesthetic Activity and Toxicity of Alkamine Esters of p-Fluorobenzoic Acid. E. E. Campaigne, A. C. Starke, Jr., L. S. Fosdick and C. A. Dragstedt ......................................................... 59

XI. Further Study of Central Stimulation from Sympathomimetic Amines. J. W. Schulte, E. C. Reif, J. A. Bacher, Jr., W. S. Lawrence, and M. L. Tainter .............................................................. 62

XII. Pharmacological Studies in Experimental Alcoholism. I. The Effect of Sympathomimetic Substances on the Blood-Alcohol Level in Man. Max Rinkel and Abraham Myerson ............................................. 75

XIII. The Potentiation and Paralysis of Adrenergic Effects by Ergotoxine and Other Substances. Chang-Shaw Jang .............................. 87

XIV. Adrenaline Destruction in the Liver and Methylene Blue. Flora J. Philpot and G. Cantoni ..................................................... 95

NUMBER 2, FEBRUARY, 1941

XV. Experiences with the Biological Assay of Several Sympathicotonic Substances Including Epinephrine. Axel M. Hjort, Edwin J. deBeer and Lowell O. Randall ............................................. 105

XVI. Studies on Purified Digitalis Glucosides. III. The Relationship Between Therapeutic and Toxic Potency. McKeen Cattell and Harry Gold ............................................................... 114
CONTENTS

XVII. Anesthesia. III. The Pharmacology of Methyl Allyl Ether. John C.
Krantz, Jr., C. Jelleff Carr, Sylvan Forman and W. G. Harne .......... 126

XVIII. Studies of the Urinary Excretion of Guanidine Administered Orally
Normal Persons and Patients with Myasthenia Gravis. A. S. Minot
and Helen E. Frank ........................................ 130

XIX. Observations on the Toxicology of Sulfathiazole and Some Related
Compounds. H. A. Walker and H. V. van Dyke .................... 138

XX. The Enzymic Inactivation of Substituted Phenyl-propyl-(Sympa-
thomimetic)-Amines. Karl H. Beyer ............................. 151

XXI. The Enzymatic Deacetylation of Heroin and Related Morphine Deriva-
tives by Blood Serum. C. I. Wright .............................. 164

XXII. The Action of Berberine on Mammalian Hearts. Chang-Shaw Jang ... 178

XXIII. The Circulatory Action, After Atropine, of Certain Furfuryl Ammonium
Iodides and of Acetyl-Beta-Methylcholine Chloride (Mecholyl).
Edwin J. Fellows and A. E. Livingston .......................... 187

XXIV. The Toxicity of Dilaudid Injected Intravenously into Mice. M. E.
Buchwald and G. S. Eddie .................................. 197

XXV. Effect of Sulfur Compounds in the Diet on Sulfanilamide Cyanosis and
Anemia. Arthur P. Richardson .................................. 203

XXVI. Toxicity of Naphthoquinones with Vitamin K Activity in Mice.
Michael B. Shimkin ............................................ 210

XXVII. Experimental Study of Tolerance to Sulfanilamide in the Albino Rat.
Abraham D. Krems, Arthur W. Martin and James M. Dille ........... 215

XXVIII. Effects of Continued Cadmium Feeding. Robert H. Wilson, Floyd
DeEds and Alvin J. Cox, Jr ..................................... 222

XXIX. On the Role of the Liver in the Detoxification of Steroid Hormones
and Artificial Estrogens. Hans Selye ............................. 236

XXX. The Distribution of Injected Organic Diselenides in Tissues of Tumor-
Bearing Animals. Saul B. Gusberg, Paul Zameenik and Joseph C.
Aub .............................................................. 239

XXXI. The Estimation by a Manometric Method of the Activity of Choline-
esterase in Lymph. Dale G. Friend and Otto Krayer ................ 246

XXXII. The Rate of Thermal Destruction of Water Balance Principles in
Pituitary (Posterior Lobe) Extract Assayed by the Burn and Boyd-
Mack Methods. Eldon M. Boyd and Roderick W. Dingwall .......... 253

XXXIII. The Biological Estimation of Ergometrine. Edwin J. deBeer and
Paul E. Tullar ................................................ 256

XXXIV. Pharmacologic Responses of Daphnia Magna. Toral Sollmann and
Walter Webb .................................................. 261

XXXV. The Effects of Sodium Diphenyl Hydantoinate (Dilantin) on Vitamin C
Level in Tissues and Vitamin C Excretion in Rats. Miles E. Drake,
Charles M. Gruber and Victor G. Haury ........................... 268

XXXVI. The Pharmacology of Some Derivatives of Mono Alpha Secondary
Furfurylamine and of Di-Alpha Furfuryl Tertiary Amine. Michael
G. Mulinos and S. Disick ...................................... 273

XXXVII. The Action of Methylene Blue Upon Cyanide Poisoning in the Turtle.
J. M. Johlin .................................................. 280

XXXVIII. The Reliability of the Cobalt-Isopropylamine Color Reaction for Amytal.
The Evaluation of Chromogenic Substances in Urine. R. F. Krause
and Richard F. Riley ........................................ 287
XXXIX. The Effect of Histamine on the Pulmonary Blood Pressure of Various Animals With and Without Anesthesia. R. A. Woodbury and W. F. Hamilton .................................................. 293

NUMBER 4, APRIL, 1941

XL. Hans Horst Meyer, 1853-1939 ................................................... 301

XLI. Cooling Drugs and Cooling Centres. F. E. Rosenthal ................. 305

XLIII. A Note on the Pharmacology of Di(p-Cyclohexylethyl) Methylamine Hydrochloride (Cyverine Hydrochloride). Robert A. Lehman ........ 317

XLV. The Pial Circulation of Normal, Non-Anesthetized Animals. Part I. Description of a Method of Observation. Theodore P. Sohier, Gladys Lothrop and Henry S. Forbes ............................................. 325

XLVI. The Fibrillation Threshold after Administration of Digitalis and Ouabain. René Wégria, J. H. Geyer and B. S. Brown ..................... 336

XLVII. Studies in the Absorption, Distribution and Elimination of Alcohol. VIII. The Diuresis from Alcohol and Its Influence on the Elimination of Alcohol in the Urine. Howard W. Haggard, Leon A. Greenberg and Richard P. Carroll ........................................... 349

XLVIII. The Reduction of Neoprontosil by Tissues in Vitro. Frederick Bernheim ................................................................. 344

XLIX. The Electrocardiogram in Acute Emetine Intoxication. Linn J. Boyd, M.D., F.A.C.P., and David Scherf, M.D. ................................ 362

XLI. Studies on the Absorption, Distribution and Elimination of Alcohol. IX. The Concentration of Alcohol in the Blood Causing Primary Cardiac Failure. H. W. Haggard, L. A. Greenberg, L. H. Cohen and N. Rakieten .................................................. 368

LI. Effects of Morphine and Its Derivatives on Intermediary Metabolism. I. The Influence of Thiamin Deficiency on the Respiration of Skeletal Muscle and Cocarboxylase Content of Tissues of Normal and Chronically Morphinized Rats. F. E. Shideman and M. H. Seevers .................................................. 383

LII. Effects of Morphine and Its Derivatives on Intermediary Metabolism. II. The Influence of Morphine, Codeine and Thebaine on the Activity of Several Dehydrogenases and on the Respiration of Rat Cerebrum. M. H. Seevers and F. E. Shideman ........................................... 373

LIII. The Action of Vitamin C and Phenol Oxidase in the Inactivation of Beta Phenylisopropylamine (Amphetamine). Karl H. Beyer ...... 394
