CONTENTS

NUMBER 1, JANUARY, 1941

I. The Toxicity of Strontium and Calcium. Versa V. Cole, Ben K. Harned and Roberta Hafkesbring. .......................... 1

II. The Action of Strontium and Calcium on the Uterus. Ben K. Harned and Versa V. Cole. ..................................... 6

III. The Effect of Para-Aminobenzoic Acid on the Bacteriostatic Action Produced by Sodium Paraaminobenzoate on a Strain of Streptococcus Viridans. John K. Miller. ................................................ 14

IV. Some Toxicological and Pharmacological Properties of the Proteolytic Enzyme, Ficin. Hans Molitor, Charles W. Mushett and Samuel Kuna. 20

V. A Comparison of the Infantile and Adult Rat Methods for the Assay of the Oestrus-Inducing Gonadotrophic Substance. R. D. Heard. .................................................... 30

VI. The Electrolytic Dissociation of Morphine Derivatives and Certain Synthetic Analgetic Compounds. Fred W. Oberst and Howard L. Andrews. .................................................... 38

VII. The Effects of Certain Chemical Changes on the Addiction Characteristics of Drugs of the Morphin, Codeine Series. C. K. Himmelsbach. 42

VIII. A Comparison of the Response of Yaws and Syphilis in the Rabbit to Therapy with Mapharsen and Neoaarsphenamine. B. J. Longley, N. M. Claussen and A. L. Tatum. ........................................ 49

IX. Chemotherapeutic Activity of N-Acylsulfanilhydroxamides. Bettylee Hampil, G. W. Webster and Maurice L. Moore. ........................... 52

X. The Local Anesthetic Activity and Toxicity of Alkamine Esters of p-Fluorobenzoic Acid. E. E. Campagne, A. C. Starke, Jr., L. S. Fosdick and C. A. Dragstedt. ........................................ 50

XI. Further Study of Central Stimulation from Sympathomimetic Amines. J. W. Schulte, E. C. Reif, J. A. Bacher, Jr., W. S. Lawrence, and M. L. Tainter. .................................................... 62

XII. Pharmacological Studies in Experimental Alcoholism. I. The Effect of Sympathomimetic Substances on the Blood-Alcohol Level in Man. Max Rinkel and Abraham Myerson. .............................. 75

XIII. The Potentiation and Paralysis of Adrenergic Effects by Ergotoxine and Other Substances. Chang-Shaw Jang. ............................. 87

XIV. Adrenaline Destruction in the Liver and Methylene Blue. Flora J. Philpot and G. Cantoni. ................................................ 95

NUMBER 2, FEBRUARY, 1941

XV. Experiences with the Biological Assay of Several Sympathicotonic Substances Including Epinephrine. Axel M. Hjort, Edwin J. deBeer and Lowell O. Randall. ........................................ 105

XVI. Studies on Purified Digitalis Glucosides. III. The Relationship Between Therapeutic and Toxic Potency. McKeen Cattell and Harry Gold. .................................................... 114
XXXIX. The Effect of Histamine on the Pulmonary Blood Pressure of Various Animals With and Without Anesthesia. R. A. Woodbury and W. F. Hamilton .................................................. 293

XL. Hans Horst Meyer, 1853–1939 ................................................................. 301
XL. Cooling Drugs and Cooling Centres. F. E. Rosenthal ...................... 305
XLII. Clearance of the Diethylamine and Diethanolamine Salts of 3:5 Diiodo-4-Pyridone-N-Acetic Acid. D. A. K. Black, J. F. Powell, and F. H. Kemp .................................................. 315
XLIII. A Note on the Pharmacology of Di(β-Cyclohexylethyl) Methylamine Hydrochloride (Cyverine Hydrochloride). Robert A. Lehman ....... 317
XLVI. The Fibrillation Threshold after Administration of Digitalis and Ouabain. René Wégria, J. H. Geyer and B. S. Brown .......................... 336
XLVII. Studies in the Absorption, Distribution and Elimination of Alcohol. VIII. The Diuresis from Alcohol and Its Influence on the Elimination of Alcohol in the Urine. Howard W. Haggard, Leon A. Greenberg and Richard P. Carroll ........................................ 349
XLVIII. The Reduction of Neoprontosil by Tissues in Vitro. Frederick Bernheim .......................................................... 344
XLIX. The Electrocardiogram in Acute Emetine Intoxication. Linn J. Boyd, M.D., F.A.C.P., and David Scherf, M.D. ......................... 362
LI. Effects of Morphine and Its Derivatives on Intermediary Metabolism. II. The Influence of Thiamin Deficiency on the Respiration of Skeletal Muscle and Cocarboxylase Content of Tissues of Normal and Chronically Morphinized Rats. F. E. Shideman and M. H. Seevers .................................................. 383
LII. Effects of Morphine and Its Derivatives on Intermediary Metabolism. I. The Influence of Morphine, Codeine and Thebaine on the Activity of Several Dehydrogenases and on the Respiration of Rat Cerebrum. M. H. Seevers and F. E. Shideman .................. 373
LIII. The Action of Vitamin C and Phenol Oxidase in the Inactivation of Beta Phenylisopropylamine (Amphetamine). Karl H. Beyer .... 394
