

## INDEX

- Abreu, B. E., Harper, H. T., Jr., Woodbury, R. A., Hamilton, W. F., and Volpitto, Perry P. Cardiac and blood pressure effects of pitocin (oxytocin) in man, 95
- Adrenolytic and sympatholytic actions of yohimbine and ethyl yohimbine, 111
- Ahlquist, Raymond P. Contribution to pharmacology of aliphatic amines, 235
- Allantoin in mammals, Absorption and excretion of, 1  
Role of pyrogens in alleged leukocytic response to, 10
- Aliphatic amines, Contribution to pharmacology of, 235
- Allmark, M., and Bliss, C. I. Digitalis cat assay in relation to rate of injection, 378
- Alloxazine adenine dinucleotide and cozymase, Destruction of, in tissues during shock, 164
- Amides, amines and related compounds as diuretics, 84
- Amide-substituted phenyl arsenoxides and their derivatives, toxicity and treponemicidal activity of, 142
- Amino acid oxidase and lactic dehydrogenase, Inactivation of apoenzyme of, in anoxia, 240
- Anaesthesia, Changes in activity of pulmonary receptors in, and their influence on respiratory behaviour, 340
- Andrews, Howard L., and Himmelsbach, C. K. Relation of intensity of morphine abstinence syndrome to dosage, 288
- Anemia, anti-pernicious, activity, Bone marrow procedure for assay of liver extracts for, 248
- Anesthesia, spinal, in experimental animals, Local nervous tissue changes following, 209
- Anesthetic activity of *cis-trans* isomers of trichloroethylidene glycerol, 72
- Anoxemic effects, Comparative, from carbon monoxide hemoglobin and methemoglobin, 182
- Anoxia, Inactivation of apoenzyme of amino acid oxidase and lactic dehydrogenase in, 240
- Anticonvulsive action of drugs, 402
- Antimonials, some organic, Toxicity and trypanocidal activity of, 224
- Atabrine, rational use of, in treatment of malaria, Pharmacological basis for, 307
- Azide and sulfanilamide, Effects of, on oxygen consumption and cell division in egg of sea urchin, *Arbacia punctulata*, 58
- Badger, Elizabeth A., Schmidt, Ida G., Schmidt, L. H., and Hughes, Hettie B. Toxicity of sulfamerazine and sulfamethazine, 17
- Barbiturate hypnosis, Evaluation of influence of succinate and malonate on, 203
- Barcham, I., Nevin, Marshall I., Co Tui and Preiss, A. L. Local nervous tissue changes following spinal anesthesia in experimental animals, 209
- Benson, Wilbur M., Koelle, Ethel S., and Mattis, Paul A. Toxicological studies of phthalylsulfathiazole, 116
- Berliner, Robert W., Shannon, James A., Earle, David P., Jr., Brodie, Bernard B., and Taggart, John V. Pharmacological basis for rational use of atabrine in treatment of malaria, 307
- Bernheim, Frederick, and Bernheim, Mary L. C. Oxidation in vitro of morphine by rat liver slices, 374
- Bernheim, Mary L. C., and Bernheim, Frederick. Oxidation in vitro of morphine by rat liver slices, 374
- Bett, H. D., and Young, C. M. Bone marrow procedure for assay of liver extracts for anti-pernicious anemia activity, 248
- Beyer, Karl H., and Latven, Albert R. Evaluation of influence of succinate and malonate on barbiturate hypnosis, 203
- Bigelow, Nolton, and Harrison, Irving. General analgesic effects of procaine, 368
- Bliss, C. I., and Allmark, M. G. Digitalis cat assay in relation to rate of injection, 378
- Blood, Iodine in, and thyroid, 331  
pressure and cardiac effects of pitocin (oxytocin) in man, 95

- Bone marrow procedure for assay of liver extracts for anti-pernicious anemia activity, 248
- Brodie, Bernard B., Taggart, John V., Berliner, Robert W., Shannon, James A., and Earle, David P., Jr. Pharmacological basis for rational use of atabrine in treatment of malaria, 307
- Brooks, G. W., Unna, K., and Pick, E. P. Inhibitory effect of sulfonamides on action of nicotine in isolated intestine, 133
- Bülbring, E., and Whitteridge, D. Changes in activity of pulmonary receptors in anaesthesia and their influence on respiratory behaviour, 340
- Butler, Thomas C. Anesthetic activity of *cis-trans* isomers of trichloroethylidene glycerol, 72
- t*-Butyl hydrogen peroxide and simple unsaturated lactones, Effect of, on isolated frog heart, 151
- Cameron, W. M., Whitsell, L. J., Hartman, M. M., and Tainter, M. L. Clinical actions of ethylnorsuprarenin, 269
- Cantoni, G. L., and Loewi, O. Inhibition of cholinesterase activity of nervous tissues by eserine in vivo, 67
- Carbon monoxide hemoglobin and methemoglobin, Comparative anoxemic effects from, 182
- Cardiac activity, substances with, Pharmacology and chemistry of, 151 and blood pressure effects of pitocin (oxytocin) in man, 95
- Cartland, George F., and Graham, Boyd E. Comparative pharmacological actions of beta-hydroxy and methoxy phenyl-n-propylamines, 360
- Cell division and oxygen consumption, Effects on, of sulfanilamide and azide, in egg of sea urchin, *Arbacia punctulata*, 58
- Chan, L. K., and Way, E. Leong. Toxicity and trypanocidal activity of *p*-sulfonamidophenylarsonic acid and certain of its derivatives, 278
- Chase, Harold F., Lehman, Arnold J., and Yonkman, Frederick F. Antispasmodic activity of some 4-morpholinealkyl esters, 174
- Cholinesterase activity, Inhibition of, in nervous tissues by eserine in vivo, 67
- Cinchona bark, Plasma concentrations following oral administration of single doses of principal alkaloids of, 160
- Clark, William G., Strakosch, Ernest A., and Cranston, Elizabeth M. Acute toxicity for mice of "mapharsen" and sodium sulfathiazole administered separately and in combination, 284
- Co Tui, Preiss, A. L., Barcham, I., and Nevin, Marshall I. Local nervous tissue changes following spinal anesthesia in experimental animals, 209
- Cozymase and alloxazine adenine dinucleotide, Destruction of, in tissues during shock, 164
- Cranston, Elizabeth M., Clark, William G., and Strakosch, Ernest A. Acute toxicity for mice of "mapharsen" and sodium sulfathiazole administered separately and in combination, 284
- Culbertson, James T., and Rose, Harry M. Chemotherapy of filariasis in cotton rat by administration of neostam and neostibosan, 189
- Cyclopropane anesthesia, ventricular tachycardia during, Relationship to, of chemical structure of sympathomimetic amines, 197
- Digitalis cat assay in relation to rate of injection, 378
- Diuretics, Amides, amines and related compounds as, 84
- Doak, George O., Steinman, Harry G., Eagle, Harry, and Hogan, Ralph B. Toxicity and treponemicidal activity of amide-substituted phenyl arsenoxides and their derivatives, 142
- Eagle, Harry, Hogan, Ralph B., Doak, George O., and Steinman, Harry G. Toxicity and treponemicidal activity of amide-substituted phenyl arsenoxides and their derivatives, 142
- Earle, David P., Jr., Brodie, Bernard B., Taggart, John V., Berliner, Robert W., and Shannon, James A. Pharmacological basis for rational use of atabrine in malaria, 307
- Ellis, Fred W., Freedman, Goldie, and Gruber, Charles M. Toxicological and pharmacological investigation of sodium *sec*-butyl ethyl barbituric acid (butisol sodium), 254

- Eserine, Inhibition by, of cholinesterase activity in nervous tissues in vivo, 67
- Ethylorsuprarenin, Clinical actions of, 269
- Everett, Guy M., and Richards, Richard K. Comparative anticonvulsant action of 3,5,5-trimethyloxazolidine-2,4-dione (Tridione), dilantin and phenobarbital, 402
- Filariasis in cotton rat, Chemotherapy of, by administration of neostam and neostibosan, 189
- Fisher, Kenneth C., Henry, R. J., and Low, E. Effects of sulfanilamide and azide on oxygen consumption and cell division in egg of sea urchin, *Arbacia punctulata*, 58
- Freedman, Goldie, Gruber, Charles M., and Ellis, Fred W. Toxicological and pharmacological investigation of sodium sec-butyl ethyl barbituric acid (butisol sodium), 254
- Goldberg, M. L., Wakerlin, G. E., Johnson, C. A., and Moss, W. G. Treatment of experimental renal hypertension with renal extracts, 101
- Goodwin, L. G. Toxicity and trypanocidal activity of some organic antimonials, 224
- Graham, Boyd E., and Cartland, George F. Comparative pharmacological actions of beta-hydroxy and methoxy phenyl-n-propylamines, 360
- Greenberg, Leon A., and Lester, David. Comparative anoxic effects from carbon monoxide hemoglobin and methemoglobin, 182
- Greig, Margaret E. Studies on shock induced by hemorrhage. VII. Destruction of cozymase and alloxazine adenine dinucleotide in tissues during shock, 164  
VIII. Inactivation of apoenzyme of amino acid oxidase and lactic dehydrogenase in anoxia, 240
- Gruber, Charles M., Ellis, Fred W., and Freedman, Goldie. Toxicological and pharmacological investigation of sodium sec-butyl ethyl barbituric acid (butisol sodium), 254
- Hadidian, Zareh, and Lipschitz, Werner L. Amides, amines and related compounds as diuretics, 84
- Halperin, N., Salter, W. T., and Sappington, T. S. Iodine in blood and thyroid. VII. Analytical procedure for use in small samples: pharmacological range of concentrations, 331
- Hamilton, W. F., Volpitto, Perry P., Abreu, B. E., Harper, H. T., Jr., and Woodbury, R. A. Cardiac and blood pressure effects of pitocin (oxytocin) in man, 95
- Harrison, Irving and Bigelow, Nolton. General analgesic effects of procaine, 368
- Hartman, M. M., Tainter, M. L., Cameron, W. M., and Whitsell, L. J. Clinical actions of ethylorsuprarenin, 269
- Hawkins, W. W., and Young, E. Gordon. Role of pyrogens in alleged leukocytic response to allantoin, 10
- Young, E. Gordon, and Wentworth, Helen P. Absorption and excretion of allantoin in
- Heart, isolated frog, Effect on, of simple unsaturated lactones and *t*-butyl hydrogen peroxide, 151
- Hemolytic anemia in mice, Comparative activity of sulfamerazine, sulfadiazine and sulfapyridine in production of, 301
- Hemorrhage, Studies on shock induced by, 164, 240
- Henry, R. J., Low, E., and Fisher, Kenneth C. Effects of sulfanilamide and azide on oxygen consumption and cell division in egg of sea urchin, *Arbacia punctulata*, 58
- Hiatt, Edwin P. Plasma concentrations following oral administration of single doses of principal alkaloids of cinchona bark, 160
- Himmelsbach, C. K., and Andrews, Howard L. Relation of intensity of morphine abstinence syndrome to dosage, 288
- Hitchings, George H., and Randall, Lowell O. Effect of tyrosinase on phenethylamine derivatives, 77
- Hogan, Ralph B., Doak, George O., Steinman, Harry G., and Eagle, Harry. Toxicity and treponemicidal activity of amide-substituted phenyl arsenoxides and their derivatives, 142
- Hughes, Hettie B., Badger, Elizabeth A., Schmidt, Ida G., and Schmidt, L. H. Toxicity of sulfamerazine and sulfamethazine, 17

- Schmidt, L. H., and Sesler, Clara L. Chemotherapeutic activities of sulfamerazine and sulfamethazine, 43
- Hypertension, experimental renal, Treatment of, with renal extracts, 101
- Hypnosis, barbiturate, Evaluation of influence of succinate and malonate on, 203
- Iodine in blood and thyroid, 331
- Jelinek, Viola C., and Scudi, John V. Distribution method for differentiation of urinary excretion products of sulfonamides; role of these products in urolithiasis, 218
- Jeremias, Robert, Yonkman, Fredrick F., and Stilwell, Don. Adrenolytic and sympatholytic actions of yohimbine and ethyl yohimbine, 111
- Johnson, C. A., Moss, W. G., Goldberg, M. L., and Wakerlin, G. E. Treatment of experimental renal hypertension with renal extracts, 101
- Koelle, Ethol S., Mattis, Paul A., and Benson, Wilbur M. Toxicological studies of phthalylsulfathiazole, 116
