

INDEX

- Acid and alkali, effect of, on absorption and metabolism of quinine, 261
- Acidity, gastric, Neutralization of, with basic aluminum aminoacetate, 247
- Adrenaline, prostigmine, cocaine and procaine, Interaction between, on skeletal muscle, 63
- Alcohol, isopropyl: Rate of disappearance from blood stream of dogs after intravenous and oral administration, 196
- Alkali and acid, Effect of, on absorption and metabolism of quinine, 261
- Aluminum aminoacetate, basic, Neutralization of gastric acidity with, 247
- Analgesic effects of morphine during continued daily administration of small and uniform doses to dogs, 110
- Anderson, Robert C., Chen, K. K., and Steldt, Frank A. Comparison of esters of strophanthidin in cats, 98
- Andrews, James C., and Cornatzer, W. E. Effect of acid and alkali on absorption and metabolism of quinine, 261
and Cornatzer, W. E. Relative rates of absorption of quinine and other cinchona salts from isolated intestinal loops of dogs 3
- Anemia and malaria, Effect of, on distribution of quinine in tissues of fowl, 349
- Anesthesia, surface, tests of, Value of guinea-pig corneal reflex for, 203
- Anesthetized animals, Determination of isopropenyl vinyl oxide in blood of, 288
- Antibiotic substances produced by molds, Routine search for, 19
- Antidiuretic action of morphine and its mechanism, 74
- Antimonial and arsenical compounds, Protection against lethal doses of pentavalent, in rats by p-amino-benzoic acid, 254
- Antipyresis, aspirin, Role of blood, dilution in, 103
- Apomorphine, inhibition of production by brain of new aerobic metabolite, 292
- Apter, Leonard, Ashman, Richard, and Hull, Edgar. Effects of ouabain upon electrocardiogram, 227
- Arsenical and antimonial compounds, Protection against lethal doses of pentavalent, in rats by p-aminobenzoic acid, 254
- Arsenic-resistance, Spontaneous development of, in *Trypanosoma equiperdum*, and its mechanism, 137
- Arthritis, Absorption rate, retention, excretion rate of gold compounds in, 391
- Ascorbic acid, Effect of, on acute toxicity of sulfanilamide for guinea pigs, 86
- Ashman, Richard, Hull, Edgar, and Apter, Leonard. Effects of ouabain upon electrocardiogram, 227
- Aspirin antipyresis, Role of blood dilution in, 103
- Atabrine and quinine, Mechanism of elimination of, from circulation and tissues, 120
- Bacteriostatic action, *In vitro*, of some simple furan derivatives, 11
- Bauer, Robert O., and Yonkman, Fredrick F. Antispasmodic activity of some 4-morpholinealkyl esters, 23
- Bell, Frederick K., Krantz, John C., Jr., and Kibler, Dorothy V. Neutralization of gastric acidity with basic aluminum aminoacetate, 247
- Beyer, Karl H., Peters, Lawrence, Patch, Elizabeth A., and Russo, Horace F. Renal elimination of sulfamerazine, sulfamethazine, sulfadiazine and sulfathiazole by dog, 239
- Peters, Lawrence, Woodward, Roland, and Verwey, W. F. Enhancement of physiological economy of penicillin in dogs by simultaneous administration of para-aminohippuric acid II, 310
- Block, Walter D., Buchanan, O. H., and Freyberg, R. H. Absorption rate, retention, excretion rate of gold compounds in treatment of arthritis, 391
- Blood dilution, Role of, in aspirin antipyresis, 103
- Bromide, sodium, Effect of administration of, to pregnant rats, on learning ability of offspring, 215
- Buchanan, O. H., Freyberg, R. H., and Block, Walter D. Absorption rate, retention, excretion rate of gold compounds in treatment of arthritis, 391
- Bufo arenarum* Hensel, toxicity of caffeine in, Influence of temperature, liver and kidney on, 303

- Burrill, D. Y., Ivy, A. C., and Goetzl, F. R. Analgesic effect of morphine during continued daily administration of small and uniform doses to dogs, 110
- Caffeine and 1-ethyl theobromine, Comparison of actions of, in animals and man, 89
toxicity of, in *Bufo arenarum* Hensel, Influence of temperature, liver and kidney on, 303
- Callender, S. T., and Powell, J. F., N₁-dimethylacetyl sulphanilamide (irgamid), 324
- Calvery, Herbert O., Draize, John H., and Nelson, Arthur A. Percutaneous absorption of DDT in laboratory animals, 159
- Draize, John H., and Woodard, Geoffrey. Methods for study of irritation and toxicity of substances applied topically to skin and mucous membranes, 377
- Fitzhugh, O. Garth, and Nelson, Arthur A. Chronic toxicity of ergot, 364
- Woodard, Geoffrey, and Nelson, Arthur A. Acute and subacute toxicity of DDT to laboratory animals, 152
- Cantrell, William, Geiling, E. M. K., Oldham, Frances K., and Kelsey, F. E. Effect of malaria and anemia on distribution of quinine in tissues of fowl, 349
- Cardiac muscle, isolated mammalian, Influence of "heart stimulants" on contraction of, 48
- Carr, C. Jelleff, Waters, Virginia M., Krantz, John C., Jr., and Evans, William E., Jr. Determination of isopropenyl vinyl oxide in blood of anesthetized animals, 288
- Cataract, Dinitrophenol, in chick: effect of age, 301
- Cattell, McKeen, Modell, Walter, Kwit, Nathaniel T., Kramer, Milton L., Zahm, William, and Gold, Harry. Clinical studies on digitoxin, 187
- Chance, M. R. A., and Lobstein, H. Value of guinea-pig corneal reflex for tests of surface anaesthesia, 203
- Chapman, C. W., and Karel, Leonard. Effect of ascorbic acid on acute toxicity of sulfanilamide for guinea pigs, 86
- Chase, Harold F., Lehman, Arnold J., and Richards, Eleanor E. Toxicity and curarizing action of some new quinine derivatives, 266
- Yonkman, Frederick F., and Craver, Bradford N. New vasoconstrictor: 2-naphthyl-(1')-methyl-imidazoline hydrochloride (privine or naphthazoline), 275
- Chen, Graham, and Geiling, E. M. K. Mechanism of elimination of quinine and atabrine from circulation and tissues, 120
- Chen, K. K., and Scott, Charles C. Comparison of action of 1-ethyl theobromine and caffeine in animals and man, 89
- Cinchona salts and quinine, Relative rates of absorption of, from isolated intestinal loops of dogs, 3
- Circulatory action and comparative toxicity of protoveratrine, 167
- Cocaine; adrenaline; prostigmine and procaine; Interaction between skeletal muscle, 63
- Cole, Versa V., Harned, Ben King, and Hamilton, Hughbert C. Effect of administration of sodium bromide to pregnant rats on learning ability of offspring, 215
- Cornatzer, W. E., and Andrews, James C. Effect of acid and alkali on absorption and metabolism of quinine, 261
and Andrews, James C. Relative rates of absorption of quinine and other cinchona salts from isolated intestinal loops of dogs, 3
- Craver, Bradford N., Chase, Harold F., and Yonkman, Frederick F. New vasoconstrictor: 2-naphthyl-(1')-methyl-imidazoline hydrochloride (privine or naphthazoline), 275
- Curarizing action and toxicity of some new quinine derivatives, 266
- Cyanide and nicotine, Effect of hyperventilation on reflex respiratory stimulating action of, 133
- DDT (2,2,-bis(p-chlorophenyl)-1,1,1-trichloroethane), Acute and subacute toxicity of, to laboratory animals, 152
Percutaneous absorption of, in laboratory animals, 159
- deBodo, R. C. Antidiuretic action of morphine and its mechanism, 74
- 4:4'-Diamidino stilbene (stilbamidine), Absorption of, by trypanosomes and its blood concentration in animals, 31
- Digitoxin, Use of, in simple average full dose method of digitalization, 187

- Dimitrophenol cataract in chick: effect of age, 301
- Dodd, M. C., and Stillman, W. B. *In vitro* bacteriostatic action of some simple furan derivatives, 11
- Draize, John H., Nelson, Arthur A., and Calvery, Herbert O. Percutaneous absorption of DDT in laboratory animals, 159
