

INDEX

- Acetanilid, Major metabolites of, appearing in the blood, 68
 production of methemoglobinemia after, Rôle of p-aminophenol in, 150
- Administration rate, Influence of, upon lethal dose of cardiac glycosides, 304
- Alexander, Fred, Gold, Harry, Katz, Louis N., Levy, Robert L., Scott, Roy, and White, Paul D. Relative value of quinines in control of cardiac arrhythmias, 191
- Akylamino alcohol esters, 131, Local anesthetic properties of, 181
- Allen, George S., Richter, Curt P., and Dieke, Sally H. Acute toxicity of thioureas and related compounds to wild and domestic Norway rats, 260
- Alpha-naphthylthiourea, Influence of diet on susceptibility of rats to, 321
- Alstonine, Action of, 57
- Ambrose, Anthony M., and DeEds, Floyd. Effect of rutin on permeability of cutaneous capillaries, 359
- Amino acids, Action of, on heart and intestine, 293
- p-Aminobenzoic acid, Protective action of, against certain bismuth preparations, 161
- l-Amino-l-phthalidylpropane HCl, Effect of repeated administrations of, 202
 Effects of, on arterial blood pressure and respiration, 202
- p-Aminophenol, Rôle of, in production of methemoglobinemia after acetanilid, 150
- 2-Amino-6-methylheptane, Pharmacology of, 351
- Anderson, Robert C., and Chen, K. K. Digitalis-like action of some new glycosides and esters of strophanthidin, 271
- Anesthetic action of ethyl vinyl ether, 88
 properties of 131 alkylamino alcohol esters, 181
- Anesthetics and hypnotics, Synergism of, with curare and curare-like alkaloids, 1
- Antihistamine action of (N-(2-pyridyl)-N-(2-thenyl)-N',N'-dimethylethylenediamine hydrochloride, 83
- Antihistaminic activity, comparative, of six compounds, 224
- Antispasmodics with particular reference to bronchodilator drugs, 104
- Antimony, Anomalous distribution of, in white rats following administration of tartar emetic, 174
- BAL and l-thiosorbital as antidotes in phenylthiourea poisoning, 348
- Bannon, James H., Smith, Homer W., Houck, C. Riley, and Crawford, Betty. Mechanism of death in dogs after intoxication by some chloroethyl amines, 277
- Barbiturates, Detoxification of, 330
- Beef brain, extracts of, Response of penicillin-resistant strains of *Staphylococcus aureus* to, 313
- Berkman, Sam, Housewright, Riley D., and Henry, Richard J. Inactivation of streptomycin upon standing in certain culture media and human serum, 42
- Bismuth preparations, certain, Protective action against, of p-aminobenzoic acid, 161
- Blair, H. A., and Wedd, A. M. Comparison of certain digitalis glycosides, 211
- Blanchard, K. C., Buhle, Emmett L., and Marshall, E. K., Jr. Colorimetric methods for determination of streptomycin, 367
- Blood pressure and respiration, Effects on, of l-amino-l-phthalidylamino HCl, 202
- Bodansky, Oscar, and Gutmann, Helmut. Treatment of methemoglobinemia, 46
- Brady, Frederick J., Cowie, D. B., Lawton, Alfred H., and Ness, A. T. Anomalous distribution of antimony in white rats following administration of tartar emetic, 174
- Brodie, Oliver J., and Walton, Robert P. Effect of drugs on contractile force of section of right ventricle under conditions of intact circulation, 26
- Bronchodilator action of compounds structurally related to epinephrine, 254
 drugs—antispasmodics, 104
- Buhle, Emmett L., Marshall, E. K., Jr., and Blanchard, K. C. Colorimetric methods for determination of, streptomycin, 367

- Byerrum, Richard U., and DuBois, Kenneth P. Influence of diet on susceptibility of rats to alpha-naphthylthiourea, 321
- Cardiac arrhythmias, control of, Relative value in, of synthetic and commercial quinidine, quinine and dihydroquinidine, 191
glycosides, Influence of rate of administration upon lethal dose of, 304
- Capillaries, cutaneous, permeability of, Effect of rutin on, 359
- Carr, C. Jelleff, Musser, Ruth D., Sauerwald, Mary Jane, and Krantz, John C., Jr. Anesthetic action of ethyl vinyl ether, 88
- Castillo, Julio C., and deBeer, Edwin J. Antispasmodics with particular reference to bronchodilator drugs, 104
- Central nervous systems of dogs and rabbits, effects on, of fluoroacetate, 76
- Chen, K. K., and Anderson, Robert C. Digitalis-like action of some new glycosides and esters of strophanthidin, 271 and Wakim, K. G. Action of alstonine, 57
Lee, Henry M., and Dinwiddie, William G. Antihistamine action of N-(2-pyridyl) - N-(2-thenyl)-N',N'-dimethylethylenediamine hydrochloride, 83
- Chenoweth, Maynard B., and St. John, Ellen F. Effects of fluoroacetate on central nervous systems of dogs and rabbits, 76
- tris*(β -Chloroethyl)amine. Mechanism of death in dogs after systemic intoxication by intravenous injection of, 277
- Colorimetric methods for determination of streptomycin, 367
- Cowie, D. B., Lawton, Alfred H., Ness, A. T., and Brady, Frederick J. Anomalous distribution of antimony in white rats following administration of tartar emetic, 174
- Crawford, Betty, Bannon, James H., Smith, Homer W., and Houck, C. Riley. Mechanism of death in dogs after intoxication by some chloroethyl amines, 277
- Crittenden, Phoebe J., and Winbury, Martin M. Action of basic amino acids on heart and intestine, 293
- Curare and curare-like alkaloids, Synergism with, of anesthetics and hypnotics, 1
- deBeer, Edwin J., and Castillo, Julio C. Antispasmodics with particular reference to bronchodilator drugs, 104
- DeEds, Floyd, and Ambrose, Anthony M. Effect of rutin on permeability of cutaneous capillaries, 359
Wilson, Robert H., and Mortarotti, T. G. Pharmacological properties of rutin, 120
- Dertinger, B. L., Lands, A. M., Nash, V. L., McCarthy, H. M., and Granger, H. R. Pharmacology of N-alkyl homologues of epinephrine, 110
- Dibenamine, Action of, in hypertensive dogs, 215
- Dieke, Sally H., Allen, George S., and Richter, Curt P. Acute toxicity of thioureas and related compounds to wild and domestic Norway rats, 260
- Diet, Influence of, on susceptibility of rats to alpha-naphthylthiourea, 321
- Digitalis glycosides, Comparison of certain, 211
Digitalis-like action of some new glycosides and esters of strophanthidin, 271
- Dihydroergotamine methanesulfonate, Pharmacological evaluation of, 166
- Dihydroquinidine, synthetic and commercial quinidine and quinine, Relative value of, in control of cardiac arrhythmias, 191
- Dinwiddie, William G., Chen, K. K., and Lee, Henry M. Antihistamine action of N-(2-pyridyl)-N-(2-thenyl)-N',N'-dimethylethylenediamine hydrochloride, 83
- Dorfman, Albert, and Goldbaum, Leo R. Detoxification of barbiturates, 330
- Drill, Victor A., and Loomis, Ted A. Methionine therapy in experimental liver injury produced by carbon tetrachloride, 138
- DuBois, Kenneth P., and Byerrum, Richard V. Influence of diet on susceptibility of rats to alpha-naphthylthiourea, 321
- Electrical excitability of respiratory center when depressed by phenobarbital, Effect of metrazol on, 95
- Epinephrine, compounds structurally related to, Bronchodilator action of, 254

- N-alkyl homologues of, Pharmacology of, 110
Ethyl vinyl ether, Anesthetic action of, 88
- Farah, Alfred E., and Mareah, George J. Influence of rate of administration upon lethal dose of cardiac glycosides, 304
- Fellows, Edwin J. Pharmacology of 2-amino-6-methylheptane, 351
- Fluoroacetate, Effects of, on central nervous systems of dogs and rabbits, 76
- Glycols, glycol ethers, glycol esters, and phthalates, Intraperitoneal toxicity of, in mice, 338
- Gold, Harry, Katz, Louis N., Levy, Robert L., Scott, Roy, White, Paul D., and Alexander, Fred. Relative value of quinines in control of cardiac arrhythmias, 191
- Goldbaum, Leo R., and Dorfman, Albert. Detoxification of barbiturates, 330
- Granger, H. R., Dertinger, B. L., Lands, A. M., Nash, V. L., and McCarthy, H. M. Pharmacology of N-alkyl homologues of epinephrine, 110
- Lands, A. M., and Siegmund, O. H. Bronchodilator action of compounds structurally related to epinephrine, 254
- Greenberg, Leon A., and Lester, David. Major metabolites of acetanilid appearing in the blood, 68
and Lester, David. Rôle of p-aminophenol in production of methemoglobinemia after acetanilid, 150
- Gruber, Charles M., Lupton, Albert W., and Scotti, Thomas M. Effect of repeated administrations of l-amino-l-phthalidylpropane HCl. Effects of drug upon arterial blood pressure and respiration, 202
- Gutmann, Helmut, and Bodansky, Oscar. Treatment of methemoglobinemia, 46
- Harvey, Thomas S., Karel, Leonard, and Landing, Benjamin H. Intraperitoneal toxicity of some glycols and phthalates in mice, 338
- Tatum, Howard J., and Himmelfarb, Sylvia. l-Thiosorbital and BAL as antidotes in phenylthiourea poisoning, 348
- Heart, Action on, of basic amino acids, 293
isolated frog, Action on, of sulfhydryl reagents, 128
- Henry, Richard J., Berkman, Sam, and Housewright, Riley D. Inactivation of streptomycin upon standing in certain culture media and human serum, 42
- Himmelfarb, Sylvia, Harvey, Thomas S., and Tatum, Howard J. l-Thiosorbital and BAL as antidotes in phenylthiourea poisoning, 348
- Houck, C. Riley, Crawford, Betty, Bannon, James H., and Smith, Homer W. Mechanism of death in dogs after intoxication by some chloroethyl amines, 277
- Housewright, Riley D., Henry, Richard J., and Berkman, Sam. Inactivation of streptomycin upon standing in certain culture media and human serum, 42
- Hughes, Hettie B., Smith, Carl C., and Schmidt, L. H. Pharmacology of paludrine, 233
- Hypnotics and anesthetics, Synergism of, with curare and curare-like alkaloids, 1
- Intestines, Action on, of basic amino acids, 293
- Isometric systolic tension, Measurement of, by means of calibrated springs attached to myocardiograph levers, 26
- Karel, Leonard, Landing, Benjamin H., and Harvey, Thomas S. Intraperitoneal toxicity of some glycols and phthalates in mice, 338
- Katz, Louis N., Levy, Robert L., Scott, Roy, White, Paul D., Alexander, Fred, and Gold, Harry. Relative value of quinines in control of cardiac arrhythmias, 191
- Katz, L. N., Rodbard, S., Surtshin, A., and Wilburne, M. Action of dibenamine in hypertensive dogs, 215
- Krantz, John C., Jr., Carr, C. Jelleff, Musser, Ruth D., Sauerwald, Mary Jane. Anesthetic action of ethyl vinyl ether, 88
- Kuna, Samuel, and Seeler, Albert O. Local anesthetic properties of 131 alkylamino alcohol esters, 181
- Landing, Benjamin H., Harvey, Thomas S., and Karel, Leonard. Intraperitoneal toxicity of some glycols and phthalates in mice, 338
