

CONTENTS

NUMBER 1, MAY, 1949

- I. The Antispasmodic Action of Basic Nitriles. A. M. Lands, Estelle Ananenko, Gwendolyn Jones, James O. Hoppe and T. J. Becker. 1
- II. The Effect of Diethylaminoethyl Ester of 1-Phenyl-Cyclopentane-1-Carboxylic Acid Hydrochloride, "Parpanit," on Decerebrate Rigidity, Spinal Reflexes and Skeletal Muscle. Charles M. Gruber, Charles P. Kraatz, Charles M. Gruber, Jr., and Joan E. Copeland. 11
- III. Observations on the Development of Tolerance During Prolonged Oral Administration of Dihydroergocornine. F. Corbin Moister, Joseph R. Stanton and Edward D. Freis. 21
- IV. The Development of Tolerance in Rats to Some New Synthetic Analgesics. John R. Lewis. 31
- V. The Ganglionic Blocking Action of "Dibutoline." Carl C. Gruhitz and Gordon K. Moe. 38
- VI. Pharmacologic and Toxicologic Studies of Diethylaminoethyl Ester of 1-Phenyl-Cyclopentane-1-Carboxylic Acid Hydrochloride, "Parpanit." Charles P. Kraatz, Charles M. Gruber, Jr., Hubert L. Shields and Charles M. Gruber. 42
- VII. Plasma Neostigmine Levels and Cholinesterase Inhibition in Dogs and Myasthenic Patients. Avram Goldstein, Otto Krayner, Mary A. Root, George H. Acheson and Mary E. Doherty. 56
- VIII. Influence of Striated Muscle Activity on the Lethal Dose of K-Strophanthoside. E. C. Del Pozo, G. Anguiano and E. G. Pardo. 86
- IX. The Failure of 2,3 Dithiopropanol (BAL) to Affect Acute, Systemic Uranium Poisoning. W. F. Neuman and R. P. Allen. 95

NUMBER 2, JUNE, 1949

- X. A Simplified Method of Evaluating Dose-effect Experiments. J. T. Litchfield, Jr., and F. Wilcoxon. 99
- XI. The Inhibition of Acid Phosphatase of Sheep Brain. Albert M. Mattocks and Sally D. Holtan. 114
- XII. Antibiotic Lactones and Synthetic Analogs. II. Cardiotonic Effects on the Isolated Frog Heart. Nicholas J. Giarman. 119
- XIII. Studies of the Metabolism of Gallium. H. C. Dudley, G. E. Maddox and H. C. La Rue. 135
- XIV. The Effect of Liver Damage on the Activity of G-Strophanthin in the Rat. A. Farah and E. Smuskowicz. 139
- XV. Further Observations on the Effect of Prolonged Thiopental (Pentothal) Anesthesia on Metabolism of Carbohydrates and of Proteins in Dogs. Walter M. Booker, David M. French and Pedro A. Molano. 145
- XVI. The Pharmacology of 3-(N-Piperidyl)-1-Phenyl-1-Cyclohexyl-1-Propanol HCL (Artane) and Related Compounds. Raymond W. Cunningham, B. K. Harned, Mary C. Clark, Rachel R. Cosgrove, Nadine S. Daugherty, Carolyn H. Hine, Robert E. Vessey and Nicholas N. Yuda. 151
- XVII. The Effects of Naphthoquinones on Glycolysis in Muscle Extracts. Chalmers L. Gemmill. 166
- XVIII. The Effects of Amidines and Related Compounds on Glycolysis in Muscle Extracts. Chalmers L. Gemmill. 173
- XIX. Amino Aciduria in Uranium Poisoning. I. The Use of the Amino-acid Nitrogen to Creatinine Ratio in "Spot" Samples of Urine. Aser Rothstein and Harry Berke. 179

- XX. The Effect of a Nitrogen Mustard on Certain Synthetic Reactions *in vitro*.
Gordon R. McKinney..... 188
- XXI. Effects of Phenobarbital on Oxygen Consumption of Brain Slices. B. A.
Westfall..... 193
- XXII. Amino Aciduria in Uranium Poisoning. II. The Response to Different
Amounts of Uranium Given Intravenously and by Inhalation. Harry
Berke and Aser Rothstein..... 198
- XXIII. Pharmacological Studies on the Hypnotic, 2-Ethyl-3-Propylglycidamide.
Marshall R. Warren, Charles R. Thompson and Harold W. Werner.... 209

NUMBER 3, JULY, 1949

- XXIV. The Pharmacological Properties of 2-Methyl,2-n-amy1-4-hydroxymethyl-
1,3-dioxolane (Glyketal), A New Blocking Agent of Interneurons. F. M.
Berger..... 213
- XXV. Deposition of Radio Gallium (Ga^{72}) in Skeletal Tissues. H. C. Dudley and
G. E. Maddox..... 224
- XXVI. Vaso- and Bronchodilator Effects of N-isopropyl-norepinephrine in Isola-
ted Perfused Dog Lungs. C. O. Hebb and H. Konzett..... 228
- XXVII. Tuberculocidal Activity and Toxicity of Some Diphenylmethane Deriva-
tives. H. J. Florestano..... 238
- XXVIII. The Fate of Two Arsenoxides in the Dog. Thomas H. Maren..... 250
- XXIX. The Influence of the Dosage Regimen on the Therapeutic Activity of Peni-
cillin G. L. H. Schmidt, Alice Walley and Richard D. Larson..... 258
- XXX. The Preparation and Pharmacological Properties of the Acid Succinate of
3-(o-toloxyl)-1,2-propanediol (Myanesin). F. M. Berger and Richard F.
Riley..... 269
- XXXI. The Sensitivity of Frog Muscle to Potassium and Acetylcholine. I. Effect
of Curare and Physostigmine on Thiocyanate: Potassium Sensitization.
E. Vanremoortere..... 276
- XXXII. On the Mechanism of the Acute Toxic Action of Thiocyanate. Franz Gold-
stein and Ruth Robertson Holburn..... 285
- XXXIII. The Effect of Penicillin upon the Clotting Activity of Blood in Normal
Human Subjects. Ralph E. Dolkart, Bernard Halpern, Mary Larkin,
Frederick L. Dey and G. de Takats..... 291
- XXXIV. On the Antagonism between Pressor and Depressor Agents in the Frog's
Heart. Otto Loewi..... 295
- XXXV. Experimental Chemotherapy of Trypanosomiasis. I. Effect of p-Phenylene
Diguanidine and Related Compounds against Experimental Infections
with *Trypanosoma equiperdum*. R. I. Hewitt, A. Gumble, S. Kushner,
S. R. Safir, L. M. Brancone, and Y. SubbaRow..... 305
- XXXVI. The Analeptic Effect of Sodium Succinate in Barbiturate Anesthesia in
Rabbits. Jerome A. Schack and Leo R. Goldbaum..... 315
- XXXVII. The Effect of Local Anesthetics on the Respiration of Brain Homogenates.
Daniel T. Watts..... 325
- XXXVIII. The Action of Tripelennamine on Hyaluronidase in the Albino Rat. Samuel
K. Elster, Monroe E. Freeman, and Elaine L. Lowry..... 332
- XXXIX. Comparative Spasmolytic Activities of Certain Benzhydryl Alkamine
Ethers and Related Compounds. Gordon A. Alles, and Mildred A.
Redemann..... 338

NUMBER 4, AUGUST, 1949

- XL. Cardio-vascular Effects of Two Aliphatic Amines and of Ephedrine. Robert
P. Walton and Oliver J. Brodie..... 343

XL I. Further Pharmacologic Characterization of the Sympathomimetic, Aliphatic Amine 2-methylamino-6-hydroxy-6-methyl heptane. Robert P. Walton and Morris Belkin	352
XL II. Determination of Homosulfanilamide Hydrochloride (Sulfamylon Hydrochloride) with Observations on its Absorption in Dogs and Man. E. W. McChesney, M. E. Auerbach, J. P. McAuliff, and H. W. Eckert	356
XL III. The Action of Sympathomimetic Amines on the Isolated Heart of the Frog. Sydney Ellis	365
XL IV. Inotropic Synergism of Cardiac Glucoside with Calcium Acting on the Frog's Heart in Artificial Media. William T. Salter, Louis J. Sciarini and John Gemmel	372
XL V. A Comparison of the Effects of Ether and Cyclopropane Anesthesia on the Renal Function of Man. Charles H. Burnett, Esther L. Bloomberg, Gerald Shortz, David W. Compton, and Henry K. Beecher	380
XL VI. A Pharmacological Study of N-Methyl-N'-(4-Chlorobenzhydryl) Piperazine Dihydrochloride—a New Antihistaminic. Julio C. Castillo, Edwin J. de Beer and Stanislaus H. Jaros	388
XL VII. Pharmacological Actions of Tetraethylpyrophosphate and Hexaethyltetraphosphate. A. S. V. Burgen, C. A. Keele and D. Slome	396
XL VIII. A Study of the Development of Tolerance to the Actions of 1-Methyl-4-(3-Hydroxyphenyl)-4-Piperidyl Ethyl Ketone Hydrochloride in Dogs. John R. Lewis	410
XL IX. The Pharmacology of Thiocyanobenzoic Acids. Salah A. A. Tawab, C. Jelleff Carr and John C. Krantz, Jr.	416
L. Studies on Veratrum Alkaloids. VIII. Veratramine, an Antagonist to the Cardioaccelerator Action of Ephinephrine. Otto Kraye	422
LI. Effect of Detergents on Various Structures, with Special Reference to Muscle and Ganglion. E. Huidobro and P. Atria	438
LII. Biochemical Studies on Chloramphenicol (Chloromycetin). II. Tissue Distribution and Excretion Studies. Anthony J. Glazko, Loretta M. Wolf, Wesley A. Dill, and A. Calvin Bratton, Jr.	445
LIII. The Antifilarial Action of Cyanine Dyes. II. Selection of 1'-Ethyl-3,6-dimethyl-2-phenyl-4-pyrimido-2'-cyanine Chloride (#863) for Further Study as a Potential Antifilarial Agent. Lawrence Peters, Arnold D. Welch, and Aeme Higashi	460
LIV. The Effect of Cholinesterase Inhibitors on the Toxicity of Procaine in Mice. A. C. Conway, K. S. Ting, and J. M. Coon	472
LV. The Absorption, Distribution and Excretion of Isonipecaine (Demerol). E. Leong Way, Abraham I. Gimble, William P. McKelway, Helen Ross, Chen-Yu Sung, and Homer Ellsworth	477
