

CONTENTS

NUMBER 1, MAY, 1950

I. The Effect of Sodium Fluoroacetate on the Contractility and Metabolism of Intestinal Smooth Muscle. Robert F. Furchgott.....	1
II. Pharmacological Properties of some Neostigmine Analogs. Lowell O. Randall and G. Lehmann.....	16
III. Changes in Renal Function Produced by Morphine in Normal Dogs and dogs with Diabetes Insipidus. Carroll A. Handley and Allen D. Keller..	33
IV. The Levator Ani Muscle of the Rat as an Index of Myotrophic Activity of Steroidal Hormones. Eugene Eisenberg and Gilbert S. Gordan.....	38
V. The Pharmacologic Action of some Analogs of 1-(3,4-Dihydroxyphenyl)-2-Amino-1-Butanol (Ethylnorepinephrine). A. M. Lands, F. P. Luduena, J. I. Grant and Estelle Ananenko.....	45
VI. Dehydroacetic Acid (DHA). I. Acute and Chronic Toxicity. H. C. Spencer, V. K. Rowe and D. D. McCollister.....	57
VII. Dehydroacetic Acid (DHA). II. General Pharmacology and Mechanism of Action. M. H. Seevers, F. E. Shideman, L. A. Woods, J. R. Weeks and W. T. Kruse.....	69
VIII. Dehydroacetic Acid (DHA). III. Estimation, Absorption and Distribution. L. A. Woods, F. E. Shideman, M. H. Seevers, J. R. Weeks and W. T. Kruse.....	84
IX. Dehydroacetic Acid (DHA). IV. Detoxication and Effects on Renal Function. F. E. Shideman, L. A. Woods and M. H. Seevers.....	98
X. Chronic Oral Toxicity of a High Gel Point Methylcellulose (Methocel HG) in Rats and Dogs. Harold C. Hodge, Elliott A. Maynard, William G. Wilt, Jr., Harvey J. Blanchet, Jr. and Robert E. Hyatt.....	112
XI. The Effect of Fluoroacetate on the Sartorius Muscle of the Frog. Donald A. Clarke and Walter F. Riker, Jr.....	118
XII. Studies on Veratrum Alkaloids. XIII. Metabolic Action of Veratridine and of the Secondary Amine Bases Veratramine, Veratrosine, and Pseudojervine on Cardiac Tissue of the Rat. Melchior Reiter.....	132
XIII. Short-term Oral Toxicity Tests of Methoxychlor (2,2 Di-(P-Methoxy Phenyl)-1,1,1-Trichlorethane) in Rats and Dogs. Harold C. Hodge, Elliott A. Maynard, Joan F. Thomas, H. J. Blanchet, Jr., W. G. Wilt, Jr. and Karl E. Mason.....	140

NUMBER 2, JUNE, 1950

XIV. The Pharmacology of Thiomerin. Robert A. Lehman, E. E. King and Harry Taube.....	149
XV. Analgesic Action of 3-Hydroxy-N-Methyl Morphinan Hydrobromide (Dromoran). Lowell O. Randall and G. Lehmann.....	163
XVI. The Fate of Aminopyrine (Pyramidon) in Man and Methods for the Estimation of Aminopyrine and Its Metabolites in Biological Material. Bernard B. Brodie and Julius Axelrod.....	171
XVII. Species Differences in Susceptibility to Methemoglobin Formation. S. S. Spicer.....	185
XVIII. Histamine Antagonists. XV. Comparative Experimental Studies of Certain Antihistaminic Compounds. Samuel M. Feinberg, Saul Malkiel, Theodore B. Bernstein and Betty J. Hargis.....	195
XIX. Evaluation of Agents with Thyroxine-Inhibiting Effects. S. B. Barker, C. E. Kiely, Jr., H. B. Dirks, Jr., H. M. Klitgaard, S. C. Wang and S. Wawzonek.....	202

XX. Evaluation of Curarizing Drugs in Man. II. Analysis of Response Curves and Effects of Repeated Administration of d-Tubocurarine, Dimethyl-d-Tubocurarine and Decamethylene-Bis(Trimethylammonium Bromide). E. W. Pelikan, K. R. Unna, D. W. MacFarlane, R. J. Cazort, M. S. Sadove and J. T. Nelson.....	215
XXI. Evaluation of Curarizing Drugs in Man. III. Antagonism to Curarizing Effects of d-Tubocurarine and Decamethylene-Bis(Trimethylammonium Bromide). D. W. MacFarlane, K. R. Unna, E. W. Pelikan, R. J. Cazort, M. S. Sadove and J. T. Nelson.....	226
XXII. The Pharmacology of Terramycin. S. Y. P'an, J. C. Reilly, T. V. Halley, G. H. Richard, A. M. Pekich and H. A. Pollets.....	234
XXIII. Pharmacology of β -Diethylaminoethyl Xanthene-9-Carboxylate Methobromide (Banthine) and Chloride. W. E. Hambourger, Donald L. Cook, Martin M. Winbury and Homer B. Freese.....	245
XXIV. The Antagonism Between Acetylcholine and the Curare Alkaloids, d-Tubocurarine, c-Curarine-I, c-Toxiferine-II and β -Erythroidine in the Rectus Abdominis of the Frog. E. F. Van Maanen.....	255
XXV. Studies on the Inter-relationships of Certain Cholinergic Compounds. III. The Reactions Between 3-Acetoxy Phenyltrimethylammonium Methylsulfate, 3-Hydroxy Phenyltrimethylammonium Bromide and Cholinesterases. W. Clarke Wescoe, Walter F. Riker, Jr. and Vivian L. Beach.....	265
NUMBER 3, JULY, 1950	
XXVI. A New Apparatus and Procedure for Continuous Registration of Changes in Coronary Flow Concurrently with Changes in Heart Contractions. F. C. Lu and K. I. Melville.....	277
XXVII. Effects of Epinephrine, Aminophylline, Nitroglycerine and Papaverine on Coronary Inflow and on Heart Contraction, as Recorded Concurrently. K. I. Melville and F. C. Lu.....	286
XXVIII. Activity of Some Newer Spasmolytic Agents on the Biliary Tract of Man. A Comparative Study of Isopropyl-norepinephrine, Adiphenine Hydrochloride, Methylamino-iso-octene and Khellin. Edward A. Gaensler and John M. McGowan.....	304
XXIX. Studies on the Pharmacology and Toxicology of dl- α -1,3 Dimethyl-4-phenyl-4-Propionoxy Piperidine (Nu-1196). Charles M. Gruber, Jr., Kwang Soo Lee and Charles M. Gruber.....	312
XXX. A Comparison of the Actions of Meperidine, Nu-1196, Methadone, Morphine, Nu-2206, and Metopon upon the Intestine and Uterus. Charles M. Gruber, Jr., Kwang Soo Lee and Charles M. Gruber.....	317
XXXI. The Effect of Some Anticonvulsant Agents upon Agene-Induced Convulsions in Dogs. J. Belford and D. D. Bonnycastle.....	325
XXXII. Metabolism of Myanesin (3-(O-Toloxo)-1,2-Propanediol). Richard F. Riley.....	329
XXXIII. Structure-Activity Relationships of Acetylcholine and Quaternary Ammonium Ions. John H. Welsh and Rae Taub.....	334
XXXIV. Coronary Dilator Action. Martin M. Winbury, Patricia M. Michiels, W. E. Hambourger, Willard J. Stockfisch and Donald L. Cook.....	343
XXXV. d-Tubocurarine Chloride and Enzyme Activity. Herbert P. Jacobi, Paul A. Stoesz and A. R. McIntyre.....	350
XXXVI. Some Pharmacological Properties of a Series of Acetamidines and Propionamidines. Bradford N. Craver, Anne Cameron and Walter Barrett..	353
XXXVII. The Potentiating Action of Certain Xanthine Derivatives on Gastric Acid Secretory Responses in the Dog. C. R. Robertson, C. E. Rosiere, D. Blickenstaff and M. I. Grossman.....	362

XXXVIII. Effect of Carinamide (4' Carboxyphenylmethane Sulfonanilide) on the Metabolism of Thiopental in Mice. Leo R. Goldbaum and Theodore F. Hubbard.....	366
XXXIX. The Effects of Thiopental Sodium, Chloroform, and Diethyl Ether on the Metabolism and Toxicity of Procaine. H. R. Hulpieu and Versa V. Cole..	370
XL. Studies on the Toxicity and Pharmacological Action of Octamethyl Pyrophosphoramidate (Ompa; Pestox III). Kenneth P. DuBois, John Doull and Julius M. Coon.....	376

NUMBER 4, AUGUST, 1950

XLI. The Cardiac Action of Helleborus Glycosides and Their Aglycones. K. K. Chen, Francis G. Henderson and Robert C. Anderson.....	395
XLII. A Quantitative Study of Blood Pressure Response to Cardiovascular Drugs and Their Antagonists. Graham Chen and David Russell.....	401
XLIII. The Physiological Disposition of Dicumarol in Man. Murray Weiner, Shepard Shapiro, Julius Axelrod, Jack R. Cooper and Bernard B. Brodie	409
XLIV. A Comparison of Procaine and Tridione. G. Carl Rau and B. A. Westfall.....	421
XLV. The Mechanism of Apnea Following Intravenous Injection of Various Antihistaminic Compounds; Its Relation to Their Chemical Structure. Domingo M. Aviado, Jr., Robert G. Pontius and T. H. Li.....	425
XLVI. Absorption, Distribution, and Excretion of Sodium Fluoroacetate (1080) in Rats. Ernest C. Hagan, L. L. Ramsey and Geoffrey Woodard.....	432
XLVII. Pharmacology of a New Autonomic Ganglion Blocking Agent, 2,6-Dimethyl-1,1-Diethyl Piperidinium Bromide (SC-1950). Donald L. Cook, W. E. Hamburger and Robert G. Bianchi.....	435
XLVIII. Potentiation of the Antimalarial Activity of Sulfadiazine by 2,4-Diamino-5-Aryloxy-pyrimidines. Joseph Greenberg and Edna M. Richeson.	444
XLIX. Toxicity, Antipyretic and Analgesic Studies on Compounds Including Aspirin, Phenacetin and 27 Derivatives of Carbazole and Tetrahydrocarbazole. Edward Eagle and Anton J. Carlson.....	450
L. The Neuromuscular Blocking Action of Succinylcholine (Diacetylcholine). Julio C. Castillo and Edwin J. de Beer.....	458
LI. The Choleric Potencies of Some Synthetic Compounds. M. J. Gunter, K. S. Kim, D. F. Magee, H. Ralston and A. C. Ivy.....	465
LII. Pharmacology of N-(2-Furfuryl)-N-(2-Pyridyl)-N',N'-Dimethylethylenediamine Fumarate (Methafurylene Fumarate). I. Antihistaminic Properties of this Compound and its 5-Chloro and 5-Bromo Derivatives. J. A. Orcutt and J. P. Prytherch.....	479
LIII. Pharmacology of N-(2-Furfuryl)-N-(2-Pyridyl)-N',N'-Dimethylethylenediamine Fumarate (Methafurylene Fumarate). II. Toxicological Studies. J. A. Orcutt, S. M. Michaelson, J. P. Prytherch and L. P. Duprey.....	488
